13. For all services not comprised in the authorized Establishments, a special authority is to be applied for in the following manner, viz:—

As early in each month, as the necessary expenditure for the ensuing month can be foreseen with sufficient accuracy, the heads of the several departments are to draw up and transmit to the Treasurer General, to be by him forwarded to the Colonial Secretary, a requisition (in strict accordance with the classified heads of service on the Annual Estimate) of the charges for which provision is to be made in the ensuing month, showing by a memorandum at the foot of the requisition, what further sums may be required during the current year for the same work or service; reference is also to be made on the requisition to any correspondence which may have taken place relative to any particular item of expenditure estimated for, in order that the Governor may have before him the means of judging of the propriety of incurring the expense. The

requisition, after being laid before the Governor by the Colonial Secretary, will be returned to the Officer entrusted with the expenditure, accompanied by a letter of authority, describing under the proper heads the services and charges to be defrayed, and referring to any special circumstances which may be necessary for the information of the party by whom the payment is made. A copy of this authority will be forwarded to the Treasurer and Auditor respectively, for their information and guidance.

14th. Three days at least before the termination of each month, every Sub-Accountant and Head of Department will send in duplicate to the Treasurer General, or other Chief Accountant, schedules of the charges to be defrayed in the ensuing month, with the necessary authority and documents annexed thereto, (including estimates for works, contracts, agreements, and tenders); excepting only the receipts of the parties, which are to be obtained when payment is made; the charges are to be classed and particularized under the several heads of service, in the same manner as in the requisition for authority to incur the expenditure.

15th. On the first of the month, or as soon after as practicable, the Treasurer will pay to persons resident at the seat of Government, the authorized sums, on the production of the proper receipts of the parties in duplicate, (duplicate vouchers to be marked "duplicate") and the sub-accountants will pay the authorized salaries and other expenses of their own Departments to the several parties resident in their districts. As regards parties in the districts belonging to a department, the head of which is resident at the seat of Government, the payments to be made to them by the sub-accountants of such districts will be on the draft only of the Treasurer, which draft will be granted by the Treasurer, on the application of the head of the department, in favor of the individual to be paid in the district; or in the case of labour, &c., in favour of the officer of the department, charged with the issue, in the district, of such pay. The head of the department will produce to the Treasurer the receipt of the party in whose favor the draft is to be drawn, and to whom it is to be forwarded, and upon whose receipt alone, inscribed on the draft, it will be paid by the sub-accountant, and to be taken credit for, by the sub-accountant, simply as "draft paid," it being intended that the drafts of this description should not be rendered negotiable. In all such cases, it will be a regulation, that the acquittance of the party resident in the district is not complete, with out his discharge to the draft, in addition to the receipt sent to the head of the department, at the seat of Government, to enable him to obtain the draft.

16th. All pensions due to parties residing near the seat of Government will be paid by the Treasurer General. Pensioners resident in the country districts will be paid by the Civil Commissioners of the Divisions in which they reside.

17th. The sub-accountants must complete, and transmit to the Treasurer General by the first post after the close of the month, their cash account, and vouchers for the preceding month, in order that the Treasurer may post the accounts monthly.

18th. From the 1st of January 1849, all expenditure to be incurred for Buildings, whether by contract, by purchase of materials, or for labour, is to be exclusively defrayed and accounted for under the Treasurer, by the Civil Engineer, and Surveyor General (or other officer superintending works and buildings, at the seat of Government). Civil Commissioners will thus be relieved from the duty hitherto performed by them, of making requisitions for buildings, repairs, and works, and bringing the payments to account.

19th. For the purpose of comparing the estimated with the actual cost of all works, the estimate upon which each work is undertaken is to be prepared according to a prescribed form, distinguishing labor from materials, and the items of hire, contract, and purchase, from those provided from Public Establishments and Stores, and a return is to accompany the accounts for the year, showing in respect of each work or building, the total amount of the approved Estimate, the amount, if any, expended in former years, the several amounts expended in the current year, distinguishing purchases, contract work, labor, and materials from Public Establishments and Stores, in the same form as the Estimate, and the sum remaining to be expended.

20th. Whenever it shall happen that the sum passed by the Governor's warrant, is less than which may have been paid, it will be the duty of the Treasurer or Sub-accountant to recover the difference, by stopping the amount from the next issue of personal pay of the party, who made the irregular over-payment; and it is only after bringing such stoppage to credit, that the Treasurer can be allowed credit for the full amount issued to the party. In case the Treasurer or Sub-accountant should have no such payment to make in the ensuing month, to the party by whom an over-payment has been made, the Treasurer, or Sub-accountant, is to represent the circumstances to the Governor, through the Colonial Secretary, in order that steps may be taken for enforcing repayment; and he is to request special authority for allowing, in the mean time, the credit he had claimed, which special authority, together with a copy of the Treasurer's representation on the subject, will be necessary documents for admitting the over-payment to be brought to account under a head of "over-payments to be recovered."

21st. In those cases in which heads of departments find it necessary to make payments daily or weekly, for hire or wages, they are to represent the circumstances to the Governor, who will from time to time decide upon the sum which it may be proper to advance.

These advances are to be confined to the sums which may be necessary to enable the parties to meet such daily or weekly payments as they may be required to make during the course of one month, before the monthly abstracts are paid by the Treasurer, and they must be made at the commencement of each year, under an annual advance warrant in the prescribed form, specifying the amount to be advanced to each head of department, and the amount so advanced must be repaid to the Treasurer on or before the 1st day of the ensuing year, and a new warrant must be obtained for any similar advance that may be required for the current year.

22d. The practice of causing surveys and inspections to be held on the Funds in the Colonial Chests of the Treasurer and Sub-accountant, will still be continued, and the Auditor will be empowered, upon application by him to that effect, to compare, at any and all reasonable times, the cash or other balances of the Treasurer or any other officer entrusted with Public Money, with the balances represented by their accounts.

These inspections and comparisons by the Auditor, are not, however, to supersede the surveys which it has always been the practice to hold, both at stated and uncertain periods, on the funds in the custody of Colonial Accountants.

23d. The year of account is to be in all cases from the First of January to the Thirty-first of December.

24th. The Officers charged with the collection of the Public Revenue, in Cape Town, will continue (notwithstanding Article 9 of these Regulations,) to

as heretofore, to pay the amount of their collections without any deduction whatsoever; daily if possible, or at all events on the last day of each week, into the hands of the Treasurer.

25th. Whenever any salary or other payment, due to any individual, is claimed on his behalf by another person, a sufficient assignment or authority in writing must be produced, the Accountant being held responsible for any payment made without such proper authority. Regular vouchers from individuals to whom payments are made, referring, in every instance, either to the schedule or subsequent authority under which the expense is sanctioned, must be forwarded in support of all fixed charges.

26th. No expense whatever will be allowed to be incurred upon verbal authority; and whenever any head of department, or other officer of Government, may receive from the Governor, or Secretary to Government, by his authority, a verbal assent to the commencement of any work or repairs, or to the expenditure, in any way, of the public money, such assent is merely to be considered as an approval of such officer making an official application to him, through the regular channel, for authority in writing to incur such expenditure.

Any item of expense that may be incurred by any head of department, without such previous written authority, will be surcharged against him.

27th. The annual Appropriation Ordinance passed by the Legislative Council, is not to be considered as a sufficient authority for any head of department to incur any expense under it, without His Excellency the Governor's sanction in addition thereto.

28th. The correctness of charges must be certified by the heads of departments; and if the work or supply has been made by contract, it must be stated in the certificate that such contract has been complied with, otherwise it must be certified that the charges are fair and reasonable.

29th. In every case, where the Collectors of Revenue shall fail to enforce the regular and punctual payments of collections or debts receivable by them, the amounts due by Sub-collectors, or other persons in default, will be immediately surcharged against the accountant, unless he can show satisfactorily, that the non-payment in proper time was occasioned by a cause he could neither control nor prevent, and in case the amount in default be not ascertainable from the cash account furnished, the Auditor General will not pass the Abstract for the Accountant's salary, until he shall have obtained a satisfactory statement of the amount due.

30th. In case it shall be made to appear at any time, that the public have sustained a loss by reason of a Public Officer being satisfied with security for a Government Debt evidently insufficient, by his neglecting or omitting to take proper and timely steps to recover the debt from the sureties when it could not be obtained from the debtor, or omitting in the event of either of them becoming insolvent, to file the claims of the Government, so as to enable it to

participate in the dividends from the estate, or by his neglecting or omitting to adopt every proper as well as legal measure, to obtain the public money he is appointed to receive; in short, whenever it can be proved, that the loss has arisen from the neglect, continued carelessness, want of proper precaution, or wilful fault of a public servant, he will be surcharged with the amount, and his conduct will be reported to the Secretary of State.

31st. The Treasurer and Auditor are in future to report immediately to the Secretary to Government, for the Governor's information, whenever any sum is not duly received by an Accountant, or accounted for by him.

32d. Clerks of the Peace who shall, when duly required, fail to take timely and proper legal steps to recover debts due to the Government, will in every case be held personally responsible for, and will be surcharged with, the amount due by the defaulters.

33d. Accountants are required to make proper arrangements, to ensure the presentation within a reasonable time of all demands payable through their offices, in order to prevent arrear claims being made at a long and inconvenient time after the expenses were incurred. Where the Accountant has the power within himself, he must bring up the claims, however small, in proper time.

Unless a satisfactory explanation can be afforded for delay, no final payment made by an Accountant will in future be admitted, which is not included in his accounts for the month, in which such payment was actually made by him.

35th. As the Accountant with the Government is the responsible Officer for the public moneys or advances, which pass through his hands, and not his clerk or any subordinate Officer under him, it must be distinctly understood, that the Government will not relieve the Accountant from any portion of his responsibility, if he think proper to depute it to others; and any infraction of the Regulations of the Government, respecting Revenue or Expenditure, will be visited exclusively on the Accountant, and not on those employed under his orders. The attention of Public Officers is especially directed to this Regulation.

36th. When explanations are required by the Auditor General, from Public Accountants, upon any items of their account, the information called for is to be communicated direct to that Officer; and any inattention to his queries or suggestions is to be immediately brought to the Governor's notice by that Officer.

37th. Fractional parts of a Penny exceeding one-half are to be reckoned for a Penny, and those less than one-half are to be rejected.

By Command of His Excellency the Governor,

(Signed) JOHN MONTAGU,
Secretary to Government.

WHAT IS IN A NAME?

THE philosophic axiom, that there is no absolute or
necessary connection between a name and the
thing nominated, has been singularly comprehended,
and most cunningly acted upon, by an Empirical Pester
and Mortar Philosopher of this City.—In as far as he
has surreptitiously imparted to a vile compound of his
own production, the name of my unrivalled perfume for
the Handkerchief and Boudoir, and deceitfully imitated
my labels for the same, so closely as to mislead
incautious buyers. Let the Public, therefore, beware
of such disgracefully avaricious chicane, (whether in
vending physic or perfumery) and remember that I am
the sole proprietor, compounder, and vender, of the un-
rivalled perfume, Real Omar Essence; and that the
label on every bottle of the genuine article must bear my
signature.

KAAPSTAD DEN 12DEN OCTOBER 1848.

Smithfield, Caledons Rivier,
18 September 1848.

ZYNE Excellentie de Gouverneur, zyne schikkingen te Winburg en Bloemfontein hebbende voleindigd, heeft zich op den 16den dezer van de laatste plaats naar het district van Caledons Rivier begeven, en in den morgen van den 18den gearriveerd zynde te Smithfield, de zetel van de Magistrature, ontving hy een adres, geteekend door 340 van de Ingezeten, waarop hy een passend antwoord gaf. Ten 11 ure des voormiddags van den zelfden dag, hield Zyne Excellentie eene byeenkomst, zynde meer dan 400 Burgers vergaderd om dezelve by te wonen.

De Gouverneur berigtte de vergadering, dat hy dezelve had byeen geroepen onder hunnen Magistraat, den Heer THOMAS HOWE, en hunnen Veldkommandant den Heer SNYMAN, ten einde hen te verklaren wat had plaats gevonden, en wat hy verrijgt had, sedert het uitbreken van de laatste rebellie.

De Proclamatie van den 2den September, werd toen op last van Zyne Excellentie gelezen, en vervolgens die van den 7den September uitgevaardigd te Winburg, en ten slotte, de minuten van de vergadering van de Byeenkomst op den 9den September ter laatst gemelde plaatse gehouden.

Toen die deelen dezer documenten gelezen werden, welke betrekking hadden tot het Manifest van den 29sten Maart 11., en tot de oorlogsschatting, herinnerde Zyne Excellentie de Byeenkomst, dat de voorzieningen van de eerste ten volle waren ten uitvoer gebragt, en verzekerde hen, ten aanzien van de laatste, in zeer krachtige termen, dat de Koloniale Schatkist in geenen deele kon belast worden met de kosten gemaakt in het dempen van de rebellie; dat het niet billyk noch regtvaardig was dat de vreedzamen welgezinde lieden binnen de "Sovereiniteit," dezelve zouden dragen, en dat daarom de "handelaars" en "medehelpers" in den opstand, zouden gedwongen worden te betalen.

Zyne Excellentie zeide toen:—
Myn Heeren van Caledons Rivier,—Gy hebt nu gehoord wat ik in de andere districten heb gedaan,—gy weet dat ik eene sterke post heb opgerigt in de "Sovereiniteit" en dat, indien er, ongelukkig, ter eeniger tyd, weder een oorlog mogt uitbreken, gy u zult kunnen vergaderen te Bloemfontein, en daar zeker zyn van ondersteuning. Gy moet voor oogen houden dat gy uwe landeryen bezit onder verpligting van Burgerdiensten, op dezelfde wyze zoo als eigendom bezeten wordt in de Kolonie. Ik verlang echter geen verdere oorlog. Ik sidder op de gedachte er van—maar gy ziet dat ik in staat ben zonder verwyf troepen over de Oranje Rivier te brengen,—en indien ik het noodig oordeelde zou ik zelf spoedig weder onder uw midden zyn, en zelfs tot *Origstad* gaan, indien ik het, tot het verzekeren van den vrede, gebiedend noodig vinden mogt. Maar uit de krachtige maatregelen welke ik genomen heb, en de voorbeelden welke ik heb gesteld, ben ik geneigd te hopen, en hou ik my verzekerd, dat er geen verdere oorlog zyn zal.

"Ik heb in overweging u in het vervolg "Heemraden" te geven, twee in iedere afdeeling, te worden gekozen door het volk, zoo dat de Magistraat dan in gelyken stand jegens hen zou staan, als de Gouverneur jegens zynen Raad in de Kaapstad.—Ik zeg echter niet dat ik dit onmiddelyk doen zal; Ik moet vooraf zien dat gy besloten hebt te vrede en gerust te zyn, en ik kan dan worden overgehaald u deze vorm van Gouvernement te geven, meer liberaal in deszelfs vorm dan dat door eenig ander volk bezeten.

"De Rebel PRETORIUS heeft gesproken van zwart volk tegen myne troepen te brengen. Het is u ongetwyfeld bewust dat, indien ik maar een woord gesproken had, al de Inlanders bereid waren zich op de Rebellen te slaan, maar myn hart is niet gelyk dat van den schurk PRETORIUS. Ik heb nooit de wensch gekoesterd om hen tegen de Boeren te brengen, en daardoor een trenspel te weeg te brengen, ten uiterste schrikkelijk."

"Smithfield werd wel verdedigd, in plaats van te worden verlaten in het nur van gevaar, en het zal daarom de zetel der magistrature blijven."

"De Commissarissen moeten nu zitten om te werken om de oorlogs schatting in te vorderen. Al het eigendom van de buiten de wet gestelde rebellen zal worden verbeurd verklaard; en die geen die een hoofddeel in de rebellie hebben genomen zullen van de helft van het hunne beroofd worden, anderen zullen worden beboet door de commissie naar hunne ver-

diensten, zoo als ik heb verklaard in myne Proclamatie."

"Er zyn zoo veel goede en wel gezinde lieden in dit district dat gy natuurlyk verlangend zult zyn naar Kerken en Scholen."

(De Hr. THOMAS VOWE Magistraat van het District Caledon, overhandigde hier aan Zyne Excellentie eene lyst van inschryvingen, voor het bouwen van een kerk te "Smithfield" bedragende omtrent Rds. 4000.)

Zyne Excellentie zeide:—

"Ik gevoel groote voldoening in het zien van deze lyst, en ik stel voor dezen namiddig den eersten steen van de kerk te leggen."

"Ik heb nu niets meer te zeggen dan dat myn hart met u is, en het zal my genoegen geven een ieder te hooren spreken die iets te zeggen heeft."

Veldkommandant SNYMAN zeide hier dat hy den Hr. Erwee dank schuldig was dat hy in zynen naam, by de byeenkomst te Winburg had borg gestaan voor de trouw van 450 man, maar hy verlangde hier aan te merken dat het verre beneden het getal was, want dat hy borg kon staan voor 800 welgezinde lieden in het district van Caledon Rivier. De Heer. SNYMAN presenteerde mede eene memorie geteekend door 336 Boeren, verzoekende dat eene afzonderlyke landcommissie met eens mogt worden gevormd voor het district van Caledon, ten einde alle verwyf voor te komen in het bepalen van de grenzen der plaatsen, en het uitvaardigen van Landcertifikaten.

Zyne Excellentie verklaarde zyne voldoening over deze memorie, verzekerde de Burgers dat hy ten vollen deel nam in hun verlangen op dit onderwerp en dat hy onmiddelyke stappen zou nemen tot het aanstellen van eene afzonderlyke commissie.

De byeenkomst scheidde toen, zeggende de Gouverneur:—

"Deze dag, myne heeren, is nat, en in zekere mate ongunstig; maar demelve zal lang in geheugen worden gehouden, als die waarop ik onder u ben gekomen om u te bevoordeelen, indien zulks in myn vermogen is; Myn hart is met alle goede lieden zoo als gy zyt; maar myn hand zal zyn tegen iederen Rebel."

Des namiddags begaf zich de Gouverneur, begeleid door omtrent 100 Burgers naar een plaats niet ver van "Smithfield" waar hy den eersten steen legde van de kerk onder het uitspreken van het volgende gebed.

"Waar de Heer het huis niet bouwt is de arbeid der bouwers ydel."

"Almagtige God, die door uwen zoon Jezus Christus hebt gesproken dat waar twee of drie in uwen naam zyn vergaderd, Gy in hun midden zult zyn, veroorloof ons, smeeken wy U, Almagtige God, dat uwe kerk u moge dienen in alle godvruchtige vrede en rust, en geef, O Heer dat deze Hoeksteen moge opryzen tot een heerlyk gebouw, ten voordeele van uw volk, door Jezus Christus onzen Heer.—Amen"

Gedurende de reis van den Gouverneur door het District van de Caledon Rivier, zag men telkens huizen van sterken bouw, voltooid of ver gevorderd. Dezen zyn allen begonnen sedert het besluiten van de schikkingen aangegaan tusschen Zyne Excellentie en de Grikwa Opperhoofden, in February 11., en geven voldoende getuigenis van het vertrouwen daargesteld, door gez. maatregelen, onder de Hollandsche bevolking aan de Caledons Rivier, en welke zoo boosaardiglyk is verstoord geworden.

De Gouverneur vertrok van Smithfield naar Burgersdorp met aanbreken van de dag op den 19 dezer.

WM. HOPE,
Griffier van den Wetgevenden Raad:

Kamer van den Wetgevenden Raad,
Dingsdag, 26 Sept. 1848.

HET Comité van den geheelen Raad op de Orde in Rade, regelende de betrekkingen tusschen "Meesters en Dienstboden," en op de Ordonnantie No. 29, van 1846, op het regelen van den verkoop van "Wynen en sterke Dranken," heeft de publicatie gelast van de volgende Resolutie, eenstemmig aangenomen door de Comites, benevens vraagpunten voorgesteld, te worden voorgelegd aan de onderscheiden Resident Magistrate, Vrederegters, en Evangelie Dienaars, in de Kolonie.

WM. HOPE,
Klerk van den Wetgevenden Raad.

MEESTER EN DIENSTBOD.

1.—Dat de onderzoekingen van dit Comité voornamelyk worden gerigt naar de Minute van Zyne Excellentie den Gouverneur van 3 July 11., op dat deel van de wet van meester en dienstbode, betreffende het hulpmiddel voor verbreking van contracten van de zyde van den dienstbode, en de jurisdictie van de magistraten in zoodanige gevallen.

2.—Dat beweerd wordt, in de petitien gereserveerd aan het comité, dat geen genoegzaam hulpmiddel tegen zoodanige verbrekingen van contract is voorzien by de wetten, nu in kracht in deze Kolonie.

3.—Dat de wet op dit onderwerp, als vastgesteld door Harer Majesteits Order in Rade van 21 July 1848, is als volgt:—

De Resident Magistrate in de Kolonie hebben jurisdictie in alle zaken ontstaande binnen hunne districten, tusschen meesters en dierzelfer dienstboden of apprenticeen, en met betrekking tot dierzelfer betrekkelijke rechten en pligten, of tot iedere zaak of overtreding waarvoor voorziening is gemaakt in deze ordonnantie. Altyd wel verstaan, dat geen zoodanige magistraten jurisdictie zullen hebben in eenig geval waarin het bedrag van loonen of belooning, of van vergoeding of schade de som van £20 zal te boven gaan, nog het volbrengen van eenig contract van dienst of apprenticeschap, welks bestaan door eene der partijen wordt ontkend, in eenig geval waarin de bepaalde of beoordeelde termijn of onverstrekten tyd van de bepaalde of voorgewende diensttyd een jaar zal te boven gaan, noch om eenig zoodanig contract te vernietigen."

"Alle zaken over welke de jurisdictie van den Resident Magistraat niet is uitgestrekt by de bovenstaande clausule, moeten worden gereserveerd voor het hooft of de rondgaande geregtshoven."

"Op klage voortgebragt en bewys gegeven voor eenigen resident magistraat, jurisdictie hebbende over partijen, dat eenig dienstbode of apprentice zyn bedongen werk heeft geweigerd of dat hy hetzelfde achteloos of onbekwaam heeft verrigt; of dat hy door ontachtzaamheid of ander wangedrag het eigendom van zynen meester heeft beschadigd, waar het aan zyne zorg was toevertrouwd; of dat hy zich met geweld of insolentie heeft gedragen; of dat hy is schuldig is geweest aan schandelyke onzedelykheid, of aan dronkenschap, of ander wangedrag, kan de resident magistraat den dienstbode of apprentice, tot zynen discretie, veroordeelen tot een of meer der volgende straffen:—dat is te zeggen,—eene geldboete ten proeyte van den meester, niet te bovengaande een maand huur, of confinement in de gevangenis, van den dienstbode of apprentice, met of zonder dwangarbeid, voor eenen tyd niet te bovengaande veertien dagen; of zoodanig magistraat kan de verbreking van het contract van dienst of apprenticeschap gelasten, behalve als hieronder is uitgezonderd, "dat is, behalve waar de onverstrekten tyd van het contract een jaar te boven gaat, in welk geval, indien de ontbinding van het contract wordt gevorderd, het punt moet gereserveerd blijven voor het Hooft of rondgaande Geregtshof."

4.—Dat ten einde te ontdekken welke verbeteringen in de wet kuura gemaakt worden, ten einde dezelve meer satisfactorie en krachtiglyk zal werken, dan dezelve nu wordt voorgesteld te doen, de volgende vragen zullen worden geadresseerd aan de resident magistraten over de geheele Kolonie.

I.—Hoeveel zaken van klagen door meesters tegen dienstboden zyn onder uwe kennisneming gekomen gedurende ieder der drie laatste jaren?

II.—Hoeveel zaken van klagen van dienstboden tegen hunne meesters, gedurende de zelfde tydvakken?

III.—Meld de klagen, in het algemeen door de meesters tegen hunne dienstboden ingebragt?

IV.—Wanneer een dienstbode wordt overtuigd van het weigeren of versuimen van het bedongen werk, welke straf is dan gewoonlyk opgelegd?

V.—Wat is de gewone straf voor het onachtzaam of onbehoorlyk volbrengen van zoodanig werk?

VI.—Almede voor insolentie tegen zynen meester, sedelooheid of dronkenschap?

VII.—Meld uw algemeen gevoelen over de vergeleken krachtadigheid van de onderscheiden straffen, toegelaten by de 5de Sectie van het 5de kapittel van Harer Majestéits Order in Rade, — t.w.:—verbuurde van eene maand loon, confinemēt in de gevangenis, met of zonder dwangarbeid; en ontbinding van het contract.

VIII.—In gevallen waar het contract ontbonden is, heeft dan die dienstbode, zoo ver u bewust is over het algemeen nieuwe dienst bekomen in dezelfde nabijheid?

IX.—Tegen welke klassen van dienstboden zyn de klagen het menigvuldigst?

X.—Is er schaarsheid van veldarbeiders in uw district?

XI.—Zyn de klagen menigvuldiger tegen inlandsche of tegen emigrant arbeiders?

XII.—Geloof gy dat zwaarder straffen voor verbreking van contract wenschelyk zyn.

XIII. Wat is de aard van straf welke gy zult voortdragen?

XIV. Meldt het getal zaken van klagen van meesters tegen hunne dienstboden, welke by u zyn gereserveerd ter beslissing voor het Hooge of Rondgaande gerechtshof, (onder de 5de clause van hoofdstuk boven aangehaald) gedurende ieder der laatste drie jaren?

XV. Denkt gy dat eenig voordeel of nadeel zou worden gewonnen door het uitbreiden van de jurisdictie van den magistrat over die zaken welke hy nu moet reserveren voor de beslissing van het Hooge of Rondgaande Gerechtshof?

XVI. Denkt gy dat eenig voordeel of nadeel zou kunnen ontstaan uit het verkorten of verlengen van de tyden waarvoor dienst contracten kunnen worden aangegaan?

XVII. Meldt zoo naauwkeurig als mogelijk is, de gewone koers van loonen, gegeven in de onderscheiden wyken of deelen van u district, onderscheidende wat wordt betaald in de gedaante van loonen, en wat als rantsoneen.

XVIII. Indien gy eenige verdere voordragten te maken hebt, niet verrat in de bovengemeldde vraagpunten, wordt gy verzocht dezelve te maken, en uwe antwoorden zoo spoedig mogelijk tot narigt van het comitee in te zenden.

5.—Dat ten einde het volledigste narigt te bekomen de volgende vraagpunten, benevens eene copy van de bovengestelde resoluties, zullen worden geadresseerd aan de onderscheiden vrederegters en evangeliedienaars en aan al zodanige personen over de geheele Kolonie, (niet zynde resident magistraten,) die waarschijnlijk nuttig narigt aan het comitee geven kunnen.

I.—Wees zoo goed te melden of gy toegang hebt tot de meester en dienstbode Order in Rade, boven bedoeld, welke is gepubliceerd in de Gouvernements Courant van 16 December 1842, en zoo ja, of gy dezelve hebt gelezen? byzonder hoofdstukken 2 en 5.

II.—Is er eenig wangedrag van de dienstboden dat niet wordt bereikt door Sectie 3 van hoofdstuk 5 van de Order in Rade? zoo ja beschryf hetzelfde.

III.—Meld uw gevoelen ten aanzien van de genoegzaamheid en krachtadigheid van de straf, voorzien by Sectie 3 van de hoofdstuk 5

IV.—Aunt gy eene andere voordragen, en zoo ja, welke straffen in plaats van, of boven die nu voorzien?

V.—Zyt gy van gevoelen dat vrederegters hetzelfde regtsgezag zullen hebben als resident magistraten, in zaken tusschen meester en dienstbode? Zoo ja, hoe zoudt gy voortstellen dat zy hunne dagvaardigingen zullen uitvaardigen; en hoe, wanneer en waar de gevangenisstraf opgelegd, en op welke wyze kunnen hunne verrichtingen worden genoteerd?

VI.—Zyt gy gunstig voor het daarstellen van een landloopers wet? Zoo ja, hoe zou it gy landloopery beschryven en hoe straffen? En door welke hulpmiddelen zoudt gy willen beletten dat eene landloopers wet inbreuk maakt op de redelyke vryheid der ingezetenen, om zich te bewegen voor bezigheid of vermaak?

VII.—Voor welke hoven of beambten moet landloopery worden terget gesteld?

VIII.—Wie zouden gerechtigd moeten zyn lieden te apprehenderen op aanklagt van landloopery?

IX.—Wat zou voldoende bewys zyn dat een persoon beschuldigd van landloopery, een landlooper is?

X.—Berechouwt gy dat eenig voordeel of nadeel zou ontstaan, uit het verlengen of verkorten van de tyden van dienst waarvoor contracten kunnen worden aangegaan onder de Order in Rade, Sectie 2?

XI.—Hoeveel dienstboden gebruikt gy tegenwoordig en tot welke diensten respectively? Zyn zy geengageerd by de maand, week of dag? Meld mede de loonen welke zy ontvangen, onderscheidende wat betaald word in geld en wat in rantsoneen. En wat is de gewone koers van loonen in uwe buurt?

XII.—Indien gy eenig verdere voordragt hebt te maken op het onderwerp van de wet van meester en dienstbode, en de regulatie voor de arbeidende klassen, wordt gy verzocht die voordragten te doen, en uwe antwoord zoo spoedig mogelijk aan de commissie in te zenden.

WYN EN BRANDWYN ORDONNANTIE.

1. Dat de kwestie gerefereerd aan het Comite by de Minste van Zyne Excellentie den Gouverneur gedateerd 28 Juny 11, is,—of de Ordonnantie No. 29, 1846 "voor de betere regulatie van den verkoop van wynen en sterke dranken" verbetering vereischt of niet, ten einde deszelfs werking meer voldoende en krachtadig te maken.

2. Dat beweerd wordt in de petitien, gerefereerd aan het Comite, dat de Ordonnantie niet alleen krachteloos is geweest in het tegen gaan van dronkenschap, maar dat dezelve eene vermeerdering van die ongedug heeft te weeg gebragt, niet deszelfs bykomende euvels van werkloosheid en zedeloosheid.

3. Dat in het memorandum van den Ed. Secretaris des Gouvernements, gehecht aan Zyne Excellenties Minste, wordt gezegd dat deze euvels zoo ver als dezelve bestaan, eerder moeten worden toegeschreven aan een algemeen verkeerde uitlegging en gevolgelyke verkeerde administratie van de ordonnantie, dan aan eenig gebrek in de wet zelf.

6. Dat eene circulaire worde bereid en gezonden aan de gezegde heeren, verzoekende duidelyke antwoorden op iedere der onderstaande vraagpunten:—

I. Wat was het getal huizen, gelicentieerd voor den verkoop van wyn, sterke en gegiste dranken in uw district op den 31sten December 1845 en 1846 respectively?

II. Wat was het getal op den 31 December 1847 en op den 30 September 1848?

III. Zoo na als gy een oordeel kunt vormen, wat was het getal huizen in uw district, op de vroegere datums, waarin zodanige dranken zonder licentie werden verkocht?

IV. Hebt gy reden te denken dat er tegenwoordig zodanige huizen in uw district zyn?

V. Hoeveel aanzoecken zyn hy u gedaan om licentie voor den verkoop van zodanige dranken, by de sleet, sedert 1 January 1847?

VI. Hoeveel van zodanige aanzoecken zyn door u toegestaan en hoeveel geweigerd?

XV. Verleent gy gewoonlyk licentie voor huizen op eenen aanzienlyken afstand van eenige stad of dorp?

XVI. Welk onderzoek doet gy naar het getal huizen, vroeger in de nabijheid gelicentieerd?

XVII. Welk getal personen zyn voor uw hof gebragt, beschuldigd van het verkopen van wynen, sterke of gegiste dranken, zonder licentie sedert 1 January 1847?

XVIII. Hoeveel van dezen zyn door u overtuigd en hoeveel ontslagen?

XIX. Hoeveel personen zyn overtuigd van gelyke overtreding voor een gelyk tydvak, voor den 1 January 1847?

XXI. Meld den aard van het getuigenis waarop zy gewoonlyk overtuigd zyn?

XXII. Meld de straf door u opgelegd onder de Ordonnantie, op personen overtuigd van te handelen zonder licentie?

XXIV. Zyt gy van gevoelen dat dronkenschap, luiheid, en zedeloosheid in uw district zyn toe of afgenomen, sedert 1 January 1847?

7. Dat ten einde zooveel narigt te bekomen als mogelijk is, op de onderhavige kwestie, de volgende vragen, benevens eene copy van de vier eerste resoluties, zullen worden gezonden aan zodanige personen, niet zynde Resident Magistraten of Vrederegters, die in de onderscheiden afdelingen der Kolonie, best bevoegd zullen worden geoordeeld om dezelve te beantwoorden:—

I. Hebt gy de Ordonnantie No. 29, 1846 gelezen, voor de betere regulatie van den verkoop van wynen enz.?

II. Zyt gy van gevoelen dat de belasting op den verkoop in het klein van wynen enz., derzelve behoort te zyn over de geheele kolonie, of verschillend op onderscheiden plaatsen?

III. Indien gy denkt dat de belasting moet verschillen, in plaats van eenvormig te zyn, meld het getal gelicentieerde taphuizen dat gy voor uwe afdeling zoudt aanbieden — de plaatsen waar dezelve behooren te worden toegelaten, en de prijs welke de onderscheiden houders behooren te betalen?

IV. Hebt gy reden te weten dat er smokkelhuizen in uwe nabijheid bestaan? zoo ja, beschryf de soort van personen die verdacht worden dezelve te houden?

V. Is eenige licentie in uw district verleend op eenige plaats waar dezelve schadelijk word geoordeeld voor de zedelykheid en goede order, hetzyl van uw eigen dienstvolk of van dat van uwe bureu? zoo ja, zyt gy of is iemand anders, met uw weten, gecompareerd om te objecteren tegen het verleenen van zodanige licentie?

VI. Welk stelsel van licentien en regulatie zou u voorkomen het best geschikt tot het tegengaan van dronkenschap, en het ontdekken van huizen waar draken zonder licentie worden verkocht?

VII. Meld of in uw gevoelen de penaltiteiten voorzien by de Ordonnantie No. 29, op het verkoopen van wynen enz., zonder licentie, vatbaar zyn voor verbetering, en zoo ja, in welk opzigt?

VIII. Zyt gy van gevoelen dat dronkenschap, luiheid, en zedeloosheid zyn toe, of afgenomen in uw district, binnen eenig bepaald tydvak? zoo ja, heb de goedheid het tydvak te vermelden, en te melden wat gy beschouwd als de oorzaak?

IX. Indien gy eenige verdere voordragten hebt te doen betreffende de wet ten aanzien van de regulatie op den verkoop van wynen enz., het zy in het groot of in het klein, wordt gy verzocht dezelve, benevens uwe antwoorden met het minst mogelijk verwyf aan het Comite in te zenden.

Kantoor van den Wetgevenden Raad,
Dingsdag, 26 September 1848.

HET Comite van den Raad, aangesteld op den 6den July 11., om onderzoek te doen naar het stelsel van Onderwys, gevolgd in de Gouvernements Scholen, heeft gelast de volgende Resolutien eenstemmig aangenomen door het Comite te doen publiceren, benevens de vraagpunten voorgesteld, te worden voorgelegd aan de onderscheiden School Commissien in de Kolonie.

WM. HOPE,

Griffier van den Wetgevenden Raad.

OPVOEDING.

1. Dat het stelsel van publiek onderwijs, nu in kracht in deze kolonie, en ingerigt door Sir John Herschel in 1841, gegrond is op de volgende principes t.w.:

1. Dat het de plicht van het Gouvernement is hehoorlyke voorziening te maken voor het onderwijs des volks.

2. Dat de einden van zodanig onderwijs als het Gouvernement gehouden is te verstrekken, zyn het vormen van personele gewoonten van vlyt en nuttigheid; het bevorderen van gezonde nuttige en practikale kennis; het inprenten van hooge zedelyke gevoelens; het leeren van politieke en burgerlyke pligten, en van de algemeene grondbeginselen van de christelyke godsdienst, afgescheiden van secten onderscheid.

3. Dat de bezigheid van onderwyser eene afzonderlyke professie wezen moet, overeenstemmend in erkend aanbelling met de grootte van het vertrouwen dat de maatschappy in den onderwyser stelt.

4. Dat ten einde onderwysers te bekomen van eene klasse, geschikt om het karakter van de professie op te houden, door eene hehoorlyke volbrenging van derzelve pligten, het laagste salaris van eenen Gouvernements onderwyser behoort bepaald te zyn op £150, met sekere emolumenten, en dat dit salaris langzamerhand moet worden verhoogd, volgens een bepaald principe.

5. Dat de voornaamste scholen, en het Zuid Afrikaansch Atheneum, ten volle georganiseerd zynde, en in volle werking, in het vervolg onderwysers voor de kolonie kunnen verschaffen.

2den. Dat ten einde te beslissen in hoeverre dit stelsel is geslaagd, wat deszelfs voordelen zyn, en in hoeverre het vatbaar is voor verbetering, de volgende vraagstukken zullen worden voorgelegd aan de onderscheiden School commissien in de kolonie.

1. Het stelsel van onderwijs in deze Kolonie voor oogen houdende, als vermeld in de resolutien van het comite, hiernevens toegezonden,—meld hoe ver het stelsel is geslaagd in het bereiken van die voorwerpen,—wat deszelfs gebreken zyn,—en wat het best zou strekken tot het wegeven of verbeteren van die gebreken, zoo ver als uwe personele waarnemingen u in staat stellen te oordeelen.

II. Met byzondere referre tot de toekomstigevoorziening van bevoegde onderwysers, meld of het ambt van onderwyser algemeen een voorwerp is van ambitie of afkeer, zoo het laatste wat daarvan naar uw gevoelen de oorzaak kan zyn, en welke maatregelen het beste geschikt zyn om dit vooroordeel uit den weg te ruimen.

III. Meld het jaarlyksch middelgetal Engelsche, Hollandische en gekleurde leerlingen, welke de school onder uw toezicht, sedert deszelfs oprigting, hebben bygewoond.

IV. Zyt gy van gevoelen dat de vermenging van rassen en rassen, in eenige mate de nuttigheid der scholen beperkt heeft.

V. Meld tot welke uitgestrektheid de ingezetenen gebruik hebben gemaakt van de voordeelen van onderwijs in de hoogere vakken, te bekomen voor een schoolgeld van £1 per kwartaal; en welke vakken gewoonlyk onder dit hoofd geleerd worden.

VI. Meld naauwkeurig of de leerlingen geregeld ter school komen, of niet, welke is de gewone lengte van tyd dat zy de school bywonen, en op welke ouderdom worden zy gewoonlyk weggenomen.

VII. Zyt gy van gevoelen dat het nuttig zou zyn een schoolgeld te vorderen voor het lagere, zoowel als voor het hogere onderwijs.

VIII. Voert het stelsel eene meer algemeene kennis van de Engelsche taal onder de bevolking in? Wordt deze voortgang aangeduid door het vormen van leeskamers, boekeryen enz.?

IX. Wordt de Hollandsche zoowel als de Engelsche taal in de school onder uw opzigt geleerd?

X. Zyt gy van gevoelen dat er eenig voordeel zou worden gewonnen, door aan de ingezetenen van het district zekere controle te geven over de Gouvernements scholen,—en tevens bepallende dat dezelve gedeeltelyk zouden worden ondersteund door plaatselyke hulppronnen of belasting?

XI. Welke evenredigheid der leerlingen die uwe school bywonen, zyn kinderen van ouders wier omstandigheden zodanig zyn dat zy niet kunnen betalen voor derzelver onderwijs, afgescheiden van de gemakken verstrekt door de Gouvernements Scholen? En welke evenredigheid, zoo eenige, zou in uw gevoelen waarschijnlijk, geheel of gedeeltelyk verzuimen hunne kinderen op te voeden, ingeval die gemakken werden weggenomen?

XII. Meld zoo naauwkeurig als mogelijk is, het getal Scholen in uw district, behalve de Gouvernements Scholen, en op welke plaatsen van het district dezelve gewoonlyk gehouden worden, meldende, 1sten die, welke uitsluitend door de ouders der kinderen worden ondersteund; 2den die door de ouders van de kinderen, geholpen door zendingen of andere fondsen, niet bekomen van het Gouvernement,—en 3den, die, geheel of gedeeltelyk door het Gouvernement?

XIII. Meld het gemiddeld maandeliks getal van leerlingen die zodanige scholen respectively bywonen, zoo ver als u mogelijk is?

XIV. Meld het getal leerlingen, waar er eenigen zyn, die by den meester in de kost zyn, en die de Gouvernements Scholen onder uw toezicht bywonen?

XV. Geloof gy dat het bestaan van de Gouvernements Scholen eene strekking heeft tot het beletten of omtuigen van de vermeerdering van private scholen in uwe nabijheid?

XVI. De bedoelingen van het tegenwoordige stelsel, als reeds gedetailleerd, beschouwend, en yt gy van gevoelen dat dezelve goed zyn, of besloten gy dezelve als in eenig opzigt verwerpelyk, en zoo ja, welke veranderingen zoudt gy voordragen.

GOVERNMENT NOTICE

Colonial Office, Cape of Good Hope,
14th October 1848.

HIS Excellency the Governor directs it to be notified, that the Colony of the Cape of Good Hope has been recently added to the list of British Colonies in which Military Settlers may obtain Land.

The following Regulations, showing the terms and conditions fixed by the Right Honorable the Secretary of State, are published for general information.

By His Excellency's Command,
(Signed) JOHN MONTAGU,
Secretary to Government.

Information for the use of Military and Naval Officers purposing to settle in the British Colonies.

1. The Colonies in which Military and Naval Officers are allowed privileges in the acquisition of Public Lands are the following:—First, The Australian Settlements, consisting of New South Wales, Van Diemen's Land, South Australia, Western Australia, and New Zealand; Secondly, Ceylon; Thirdly, The Cape of Good Hope; and Fourthly, Nova Scotia and Cape Breton, the only province in North America where privileges are still allowed.

2. In the different Australian Settlements, in Ceylon, and at the Cape of Good Hope, land is disposed of by sale only; but Officers purchasing land, are allowed a remission of the purchase money, according to the undermentioned scale:

Field-Officers, of 25 years' service and upwards, in the whole,	£300
Field-Officers, of 20 years' service and upwards, in the whole,	250
Field-Officers, of 15 or less years' service, in the whole,	200
Captains, of 20 years' service and upwards, in the whole,	200

Captains, of 15 years' service or less, in the whole 150
Subalterns, of 20 years' service and upwards, in the whole, 150
Subalterns, of 7 years' service and upwards, in the whole, 100
Subalterns, under 7 years' standing, are not entitled to any remission in the purchase of Land.

Regimental Staff Officers, and Medical Officers of the Army and Navy, are allowed the benefit of this Rule. In Nova Scotia and Cape Breton, allotments of land are granted to Officers on the following scale and conditions:—

To a Lieutenant-Colonel,	1200 acres.
To a Major,	1000 acres.
To a Captain,	800 acres.
To a Subaltern,	500 acres.

3. Officers of the Army or Navy, proposing to proceed to the Colonies, in order to take advantage of this indulgence, should provide themselves with certificates from the Office of the Commander-in-Chief, or of the Lords' Commissioners of the Admiralty, or of the Master General of the Ordnance, showing that their emigration has been sanctioned, and stating exactly their rank and length of service. No document from the Office of the Secretary of State is necessary.

4. Officers on half-pay, residing in the Colony where they propose to settle, are admitted to the privileges of Military and Naval Settlers, without referring to this Country for Testimonials, provided they can satisfy the Governor that there is no objection to their being allowed the indulgence, and that the statement of their rank and length of service is accurate; and provided, if they belong to the Navy, they produce their letter of leave of absence from the Admiralty.

5. Military Chaplains, Commissariat Officers, and Officers of any of the Civil Departments of the Army: Purser, Chaplains, Midshipmen, Warrant Officers of every description, and Officers of any of the Civil Departments of the Navy, are not allowed any privileges in respect of land. Although members of these classes may have been admitted formerly, and under different circumstances, they are now excluded. Mates in the Royal Navy rank with Ensigns in the Army, and Mates of three years' standing, with Lieutenants in the Army, and are entitled respectively to corresponding privileges in the acquisition of lands.

6. Gentlemen who have ceased to belong to Her Majesty's Service are not allowed the advantages to which they were entitled while in the Army or Navy. This rule, however, is not to effect Officers who desire to quit the Service, for the express purpose of settling in the Colonies; it is only required, that when they resign their Commissions, they should apply for a certificate from the Commander-in-Chief, or from the Lords' Commissioners of the Admiralty, or from the Master General of the Ordnance, that they do so with the view of emigrating, and such certificate, if produced to the Governor of any of the Colonies before-mentioned within one year from its date, but not otherwise, will be a sufficient warrant for allowing the bearer the same advantages as Officers who are still in Her Majesty's Service.

7. An actual residence of two years in the Colony must be proved before the Titles can be granted, except in cases in which death may have occurred before the expiration of that period.

8. For the convenience of Officers, the following heads are subjoined of the Rules for the Sale of Land in the Australian Settlements:—

All Lands are disposed of by sale alone, and must have been once at least exposed to public auction.

The lowest upset price is not less than £1 per acre; but the Government has power to raise the same by Proclamation, though not again to reduce it.

The Lands are distinguished into three different classes: viz., Town Lots, Suburban Lots, and Country Lots.

Upon Town and Suburban Lots, as well as upon a proportion not exceeding one-tenth of the whole of the Country Lots offered for sale at any auction, the Governor has the power of naming a higher than the general or lowest upset price: these last to be designated "Special Country Lots."

Town and Suburban Lots are in no case disposed of except by public auction; but Country Lots, which have already been put up by public auction, and not sold, may be disposed of afterwards by private contract at the upset price.

No Lands are sold by private contract, except for ready

money. When sold by public auction, one-tenth at least of the whole purchase money must be put down, and the remainder within one calendar month, or the deposit is forfeited.

Lands are put up for sale in Lots not exceeding one square mile in extent.

9. In Ceylon, Land is sold by auction at an upset price, which is to be fixed by the Governor, but which is not to be less than £1 per acre. Before the Lands are exposed for sale, they will be surveyed by the Government, and duly advertised.

10. The several prices above-mentioned are of course subject to a revision at any time by the proper authorities, and the pecuniary amount of the Remission made to Officers cannot be increased on account of an increased value set upon the Lands.

June 1848.

GOVERNMENT NOTICE.

Colonial Office, Cape of Good Hope,
25th October 1848.

WITH reference to the accompanying letter of this date, addressed to the Acting Surveyor General, which His Excellency the Governor has directed to be published for general information,—His Excellency has been pleased to appoint the following Gentlemen to be members of the Board of Commissioners for Lands in the Division of Albert, viz. :—

MURRELL ROBINSON ROBINSON Esq., President.
Captain CHRISTOPHER THOMAS BIRD.
The Field-Commandant JAN OLIVIER.

By Command of His Excellency the Governor,
(Signed) JOHN MONTAGU,
Secretary to Government.

Colonial Office, Cape Town,
25th October, 1848.

To the Acting Surveyor-General.

SIR,—His Excellency having been pleased to appoint the Assistant-Surveyor-General, Mr. ROBINSON, to be President of a Commission instituted for the purpose of inquiring into the various Claims of the Farmers in the Division of Albert to the Lands in their occupation, I have, by desire of His Excellency the Governor, to transmit to you his Instructions to Mr. ROBINSON to proceed as soon as possible to that Division, and there, having fixed on some convenient place of meeting, to give notice of the first sitting of the Commission to Captain C. J. BIRD and the Field-commandant JAN OLIVIER, who have also for the present been appointed Members. The Commission will afterwards move from place to place, as may be found most convenient for despatch of business.

2. The Commission having assembled, the President will read, and the Secretary will record, the present Instructions; and the Secretary will keep a copy, as the general Rule of the Proceedings, for ready reference at each sitting.

3. Captain C. T. BIRD will act as Secretary of the Commission, and will preserve the Minutes of the Proceedings, which shall be read, confirmed, or, if necessary, amended, and verified by the signatures of all the Members at the opening of the ensuing sitting.

4. The Commission will be subject to such addition and alteration of Members as from time to time may be found expedient; and any Member dissenting from the Reports will be at liberty to note his reasons, and attach them to the Minutes and Reports.

5. The Commission are entrusted by His Excellency with the investigation of all Claims to Land in the Division of Albert; which Claims, as they are received, shall be regularly numbered and entered in a Register, which shall have separate columns for reference to the Reports thereon, and other matters, so as to present briefly a view of the course of proceeding in each case.

6. The Commission are further entrusted with the investigation and provisional decision, on the spot, of all cases of disputed Boundaries between the Lands appertaining to contiguous Farms.

7. The Commission are further charged with the duty of assessing the extent of Land to be ceded under every Claim which they shall decide on recommending as sufficient to warrant a Grant by His Excellency the Governor.

8. The Commission will carefully assess the value of each such extent, for the purpose of fixing the Quitrent.

9. In the performance of these duties, the Commission will be guided generally by the principles contained in the following remarks; always, however, recollecting that it is the wish of the Governor to adopt as liberal a line of policy as His Excellency can with reason follow out in dealing with the Claimants,—so that the Commission are not debarred from bringing to His Excellency's notice even such unsupported, or insufficiently supported, Claims as they may deem worthy of attention, either from the merits of the individual case, or on account of the general welfare of the Division.

10. The only Claim which can be allowed must rest upon fixed occupancy of Land at the date of the annexation of the Division to the Colony, viz., 9th January last; and the number of Cattle or Sheep, &c., and the

extent of Cultivation, must be taken by the Commission as the grounds for recommending comparatively the extents to be granted under each Claim. The proof of the fact and extent of such occupation may be given by certificate of any Field-commandant, Field-cornet, or other respectable Inhabitant, to the satisfaction of the Commission.

11. When two or more Claims are made for the same Land, further proof must be obtained, and each Claim must show on its face a reference to all the opposing Claims affecting it. The Commission will report fully their opinion as to the equitable decision thereof.

12. Many Claimants may have fully occupied a much larger extent than 3000 morgen,—the limit beyond which His Excellency is unwilling to sanction or grant; but in most of such cases it will probably be ascertained that various members of the family are living on the Homestead, and that their Flocks and Herds are separate property, although grazing in common. It is within the duty of the Commission to recommend on a separate Claim, a separate Grant to each Person, of such extent as to make up the quantity fully occupied, stating clearly the circumstances; otherwise, when requested, the excess above 3000 morgen may be put up for public Sale, at an Upset Price of not less than Two Shillings an acre, as fixed by the Regulations of Her Majesty's Secretary of State.

13. In the provisional decision of disputed Boundaries, the Commission are left to their own sense of justice. It will, however, be well to preserve a short note of the grounds of the decision, to be forwarded when the final approval of Government is required.

14. In the assessment of the value of Land, for the purpose of taking a percentage thereof as the fixed Quitrent, the Commission are carefully to avoid the imposition of any unequal burden on the industrious, by the valuation of past improvements of any description. They are to assess the value of the Land in a state of Nature, according to its capability of improvement. The Quitrent is to be paid from the date of the annexation of the District to the Colony, viz., 9th January last.

15. In all cases, whenever it can be fairly accomplished, the Land is, if possible, to be so divided as to leave equal portions of Water to equal extents of Ground, whether claimed or unclaimed Government Land, so that a monopoly of the former may not ensure to the adjacent owners an undue use of the latter.

16. The Reports of the Board are to show clearly in one Section the whole of the Servitudes to be inserted in the Grants, beyond the usual Conditions, and any that may be decided on as generally applicable to the whole of the Grants issued in the Division, such as for Water Courses, Roads, &c. &c.

17. The Commission are provisionally to decide on the Reservations necessary for Outspan, Sites of Villages, and other public purposes,—and are, if possible, to provide for the allotment of similar Lands in the vicinity, to meet the Claims to such Reserves.

18. In every clear and undisputed case, the Commission will immediately issue a Land Ticket to the Claimant, and register a Duplicate in the Commission Records. This Ticket should contain a short description of the Land, its situation and extent; it may be made transferable by endowment, and will be exchanged for a regular Title Deed as soon as possible,—but if lost or mislaid before that time, it must be advertised three months, at the expense of the Claimant, before the regular Title Deed can be issued in his name.

19. All surplus Lands after satisfaction of claims are to be sold by Auction under the Government Regulations dated 15th May 1844. Copy of which is annexed. The Commission will superintend their division into Lots, and report as to the times and places best suited for offering such lands for sale.

20. The Commission will immediately take measures for putting up to public sale such a number of the lots of land in the proposed Villages, as they may judge expedient for the interests of Government, and the improvement of the District,—and for that purpose, they will as soon as possible transmit the usual lists and recommendations as to upset prices, plan of sale, &c., so that the necessary Proclamation may be published.

The Commission will probably find it inconvenient or inexpedient to adhere strictly to the foregoing general rules, which are to be looked on as defining the general fixed principles, and as containing His Excellency's

wishes on the subject, and considerable latitude is consequently authorized; but as it is necessary that the opinions and decisions of the Commission should be guided by some certain general principles, any important deviations from those above explained must be immediately reported, for the approval of His Excellency the Governor.

22. Every facility will be afforded by this Office to aid the Commission in their labors, and you are directed to afford similar assistance in your Department, and especially attend to the immediate transmission of all Reports and Claims.

23. The Reports of the Commission on each Claim are to be forwarded through the Surveyor-General's Department, so as to provide for effectual Registry; and all Correspondence with the Government, connected with this Commission, is to be conducted through the medium of the Surveyor-General.

I have the honor to be,

Sir,
Your obedient Servant,
(Signed) JOHN MONTAGU,
Secretary to Government.

Office of the Central Board of Roads,
25th October 1848.

THE Central Board of Commissioners of Public Roads have directed it to be notified, for general information, that the new Pass through Mosterd's Hoek, and also the new Gydow Pass, to the Cold Bokkeveld, as well as the new Pass through the Karoo Country and the Interior of the Colony, will be opened for the use of the public on the 1st of December next by His Excellency the Governor.

In accordance with the request of the Board, His Excellency the Governor has consented that the new Pass through Mosterd's Hoek shall be named "the Michell Pass."

The Board have at the same time ordered the publication of the following Correspondence, in order that the Public generally may be made aware that they have been steadily engaged in the peculiar labors for which they were appointed, viz, in opening Mountain Passes, filling up Ravines, and constructing Bridges over the Rivers which intersect the Main Roads of the Colony

By order of the Board,
W. DE SMIDT, Secretary.

Office of the Central Board of Commissioners of Public Roads, Cape Town, 18th Oct. 1848.

SIR,—I am directed by the Central Board of Commissioners of Public Roads to acquaint you, for the information of His Excellency the Governor, that the new line of Road through Mosterd's Hoek, the Warne Bokkeveld, Hottentot's Kloof, &c., being newly completed, will be ready for opening for the use of the Public on the 1st December next. I am further desired to communicate to you the substance of the report, which has been presented to the Board by Mr. Bain, the Inspector of Roads, under whose able superintendence the work has been conducted; and from a perusal of which His Excellency will be enabled to appreciate the difficulties that have been surmounted in the construction of this Pass.

In place of the old road through Mosterd's Hoek, one of the worst and most dangerous in the Colony, a safe and easy Pass has now been substituted.

The constant crossing and recrossing of the Breede River is avoided by the new line, which is carried along the right bank of the river, nearly parallel with it, till it emerges into the Warne Bokkeveld.—For a length of about five and a half miles it is scarped almost entirely out of the solid rock, and is strengthened by a retaining wall, varying from three to forty feet in height.

A massive stone bridge, 36 feet in height, and several stone culverts and viaducts, besides a number of drains of considerable extent, have been rendered necessary by the numerous gullies and ravines which intersect the line. With the exception of a hundred yards, which are not yet completed, the whole of this stupendous work has been con-

attracted in little more than two years, by convict labour. That portion of it, which has been constructed by blasting, has required much labour and exertion, the rock being of a rough quartzose sandstone, frequently containing imbedded pebbles of pure quartz, in many parts exceedingly hard to drill, and so tenacious as to be very difficult to blast.

In connection with this Pass I am desired to announce the completion of the New Road from Mosterd's Hoek to the Karoo Poorts, and of the Gydow Pass to the Cold Bokkeveld.

The former of these passes through the Warne Bokkeveld, in a direct line about twenty-eight miles in length, avoiding the circuitous turnings of the Old Road, and is carried over the precipitous chain of mountains, between the Bokkeveld and the Karoo, by a deep scarp carried up the side of the mountain for one and a half mile, supported by a stone retaining wall, and is conducted to the lowest summit of the chain known as "Trek Pad," through which all the sheep and cattle pass from the interior to the Cape Town Market; whence it descends by an easy road down Hottentot's Kloof to the poorts of the Karoo. At the bottom of the Kloof, where the outspan place is, two large tanks will be constructed, thus opening the springs which have long been choked up.

The Gydow Pass was completed in July last. For six miles from Mosterd's Hoek no natural obstacles, of great difficulty, present themselves on this line of Road. The road up the mountain is scarped from the hill side, and fortified by high and strong retaining walls.

The Dwaars River is crossed by a bridge, and beyond the Road is defended by retaining walls, varying from two to ten feet in height.

The whole length from the opening of the Mosterd's Hoek Pass to the Cold Bokkeveld is twelve miles.

The advantages which will result from the opening of the Mosterd's Hoek Pass and the roads connected with it can scarcely at present be estimated with any degree of correctness. The pass will form the grand focus of the interior trade from Cape Town and the "Boveland," besides opening up the extensive territories of the Klein, Middel and Onder Roggeveld, Hantam, Nieuweveld, Warm and Cold Bokkevelde, &c., which are among the most fertile and productive, though hitherto the least known districts, of the Colony.

It may not be amiss to mention that the Bokkeveld, despite of all the disadvantages which are now about to be removed, has established its name at Mark Lane as "producing the best wheat in the world," which will, of course, be very greatly increased, in quantity at least, by the greatly increased facilities of export.

The following extracts from Mr. Bain's report are too interesting, in the Board's opinion, to be omitted:

"One of the most important advantages which the New Road will possess over the Old, is the distance gained, as the following statement will show:

"From the outspan place at Mr. Theron's, Breede River, where the Old and New Roads intersect at right angles, the distance by Worcester, Hex River, and to Carel van der Merwe's, near Karroo Poort, is fifteen hours on horseback; which, at the rate of six miles per hour, amounts to ninety miles.

"From Theron's to Carel van der Merwe's, by Mosterd's Hoek, Hottentot's Kloof, &c., is six hours or thirty six miles, being a saving of fifty four miles!

"By the Old Road at least fourteen oxen are required for an ordinary load; by the New, eight will be more than sufficient, besides the saving of the heavy tax, of from thirty to sixty Rds., which most travellers are compelled to pay for relays to drag their wagons through Hex River Kloof and up the mountain."

"The lock chain, that indispensable requisite of African travelling by the Old Road, can be entirely dispensed with on the New, as the gradient is in no place so steep as to require one; and the dangers and delays from deep and rapid rivers, which the Old Road so constantly presents, will be found entirely absent from the New."

"Thus have I endeavoured to show some of the advantages the public derive from the Mosterd's Hoek New Road, and as I have already commenced the continuation of this great trunk line, in the direction of Bain's Kloof, Wellington, &c., to Cape Town, I shall state the distances that will be saved by the adoption of this line."

"From Theron's outspan place, Breede River, to Cape Town, via Bain's Kloof, nine and a half hours!

"From Theron's to Cape Town, via New Kloof, thirteen and a half hours, which shows a saving in favor of Bain's Kloof of four hours, or twenty four miles!

"These 24 miles, added to the 54 gained by taking the Mosterd's Hoek Road, give (in the whole of the New line from Cape Town to C. van der Merwe's), the moderate saving of 78 miles."

"The Inhabitants of Worcester, Goudine, Hex River, Bosjesveld, Kogman's Kloof, &c., will, in an especial manner, benefit by the opening of Bain's Kloof, as the following distances will show."

"From Worcester to Cape Town, via Bain's Kloof, 12 hours."

"From Worcester to Cape Town, by New Kloof, eighteen hours, which shows a saving in favor of the new line between Worcester and Cape Town of six hours or 36 miles!"

"The curtailing of our roads will bring a vast influx of produce to market, which, at present will not pay the carriage, and as the new line will be perfectly available for the lightest spring vehicle, I do not despair in a few years of seeing our clumsy ox wagon disappear before the march of civilization."

The first of December next will be the first anniversary of the arrival of His Excellency the Governor, among us, and if His Excellency would honor the Board by opening the Mosterd's Hoek Pass in person on that day, the Public would be highly gratified.

I am directed to submit the Board's opinion, in consideration of the great ability and exertions of the Surveyor General and Civil Engineer, who surveyed the ground and prepared the plans for this great work, as well

as for the other great mountain Barriers throughout the Colony, and whose loss is indeed a public calamity, that a no more appropriate title could be chosen for the new Road through Mosterd's Hoek, than the "Michell Pass," if His Excellency will be pleased to sanction it.

I have the honor to be,

Sir,

Your most obedient servant,
W. DE SMIDT, Sec.

Colonial Office, 25th October 1848.

Sir,—In reply to your letter of the 18th instant, I am directed by His Excellency the Governor to inform you, that he will have much pleasure in being present to open the Mosterd's Hoek Pass on the 1st December next, and that he entirely concurs with the Commissioners of the Board in the selection which they have made of a name for the new Pass.

I have the honor to be,

Sir,

Your most obedient servant,
JOHN MONTAGU.

The Secretary to the Central
Board of Commissioners of
Public Roads.

GOVERNMENT NOTICE.

Colonial Office, Cape of Good Hope,
25th October, 1848.

His Excellency the Governor has this day received the following communication from the Commandant of British Kaffraria, which His Excellency has desired to be published for general information.

By Command of His Excellency the Governor,
(Signed) JOHN MONTAGU,
Secretary to Government.

King William's Town, October 18, 1848.

Sir,—I have the honor to report that in the course of last month a complaint was made by the Chief Toise to Captain Maclean, that Skilitje and others of Baku's Kaffirs, residing by our permission in Toise's location, and registered under a responsible head man, Kosena a son of Baku's, had unjustly seized 12 head of cattle from Umxuhele, and others, Toise's Kaffirs, in retaliation for the pretended theft of a cow.

The case was investigated by Captain Maclean, who decided that the cattle should be restored by Skilitje, and the civil police were twice sent to demand the restitution of the cattle. Skilitje refused to comply with the demand. Captain Maclean also sent orders to Kosena to enforce compliance with the demand on the part of Skilitje. Kosena declared his inability to carry out Captain Maclean's orders.

Captain Maclean then sent an officer and 14 men of the armed police, with orders to seize 24 head of cattle from Skilitje, 12 being as a fine for his contumacy. The police were ordered not to risk a collision if resistance were offered in force.

The police took the required number of cattle from Skilitje, but on a great number of armed Kaffirs collecting to rescue the cattle, they gave them up again.

The Kaffirs who thus appeared in arms were some of those who live under Mapassa, a son of Baku's, and a most turbulent fellow. They crossed the Kei into Krell's country immediately after the occurrence above described.

Captain Maclean now sent to Kosena to demand the restitution of the whole of the cattle which had been retaken from the Police, and reparation for the outrage which had been committed. Kosena immediately came to Fort Murray, bringing with him the whole of the cattle (24) which had been retaken from the Police, and offering to make any reparation we might demand for the outrage.

As Captain Maclean considers him a well-disposed man, and as he professed the greatest contrition for what had occurred, and promised that the orders of Government should always be promptly obeyed in his location, I contented myself with imposing an additional fine of 24 head of cattle on Skilitje, and requiring that Kosena should make the refractory Kaffirs deliver up their firearms.

Kosena has caused this demand to be complied with, and the 24 head of cattle, in addition to the 24 head first delivered up, have been sent by him to Captain Maclean. He has also sent in 4 stand of arms.

During Krell's late visit to this place, I spoke to him on the subject of this outrage, and made him understand that any of his Kaffirs, or Baku's, whom we allow to remain in Kaffraria, must be registered, and considered in all respects as on the same footing as the other Kaffirs belonging to the Tribes under our jurisdiction. Krell promised that he would not in any way countenance their resisting the orders of the Commissioners, nor would he grant them refuge if they resisted our authority; and he said that he quite understood the footing they are upon, and that they ceased to be under his authority if they remained on this side of the Kei.

I have the honor to be, Sir,

Your Excellency's most obedient, humble servant,
GEO. MACKINNON,
Colonel, and Chief Commissioner.

Office of Board of Commissioners,
Cape Town, October 25, 1848.

THE Board appointed to investigate Claims on account of Supplies obtained on Requisition of the Civil Authorities, for the use of the Burger Force called out against the Kafirs in the late War,—hereby give notice, that they are about to complete and close their List, preparatory to their Report.

All parties, therefore, having Claims of this nature, including Claims for Wagons, Oxen, Horses, &c., lost by members of the Force whilst on actual Service, who have not already sent in, either through the Civil Commissioners of their respective Divisions, or through other channels, are requested to lose no time in forwarding them.

It is proper to observe that Claims for losses by the incursions of the enemy, or losses deemed to have been consequent upon the existence of a state of war, do not fall within the duties of this Board, inasmuch as a distinct Commission for the investigation of such Claims has been appointed by His Excellency the Governor,—of which the Hon'ble WILLIAM COCK, Esq., is the Chairman. This fact, however, will not render a renewal of applications necessary, as all Claims for such Losses, which have been already received, shall be forwarded to that Commission, so soon as the Vouchers, &c., shall be fully classified and arranged.

GOVERNMENT NOTICE.

Colonial Office, Cape Town.
23rd September 1848.

IN accordance with the Instructions of the Lords' Commissioners of Her Majesty's Treasury, regulating the future mode of rendering the Accounts of Colonial Receipt and Expenditure,—His Excellency the Governor has been pleased to direct the publication of the following Finance Regulations, for the guidance of the respective Civil Commissioners and all other Sub-Accountants, and which are to have effect from and after the 1st January 1849, and are to be strictly conformed with.

1st. Every Civil Commissioner and all other Sub-Accountants are to forward to the Colonial Office, on or before the 15th of January in each year, an Annual Estimate of the anticipated Revenue of their respective departments, prepared in a prescribed form, to be accompanied by an Estimate of the Expenditure in a similar form, distinguishing the Establishments already "Fixed" under the sanction of Her Majesty's Government, from other Expenditure not so "Fixed."

These Estimates will form the basis of the future system and plan of account, and on that account the prescribed forms are to be strictly adhered to.

2nd. All divisions of the Estimates and Accounts, hitherto in use under the heads of "Fixed" and "Unfixed" contingent charges, are, from the 1st of January next, to be discontinued, and such only are to be included under the head of "Contingencies," as are so inserted in the Annual Estimates for the year 1849, viz., the charges which are incidental to each separate Office Establishment.

The Heads of Service in the Accounts are to be the same as those used in the Colonial Estimates for 1849, and every item of contemplated Expenditure must be carefully classed and arranged under its appropriate head.

3rd. No sum is to be set down as "Unforeseen Charges," and in cases of emergency, where an expenditure becomes unavoidably necessary, a Supplementary Estimate must be prepared in the same form as the Annual Estimate.

4th. The Public Accounts are to be kept by a Cash and Waste Book, according to prescribed forms, and every Sub-Accountant entrusted with the receipt and payment of money under the Treasurer, will keep a Cash Book in duplicate, in which is to be entered, day by day, every transaction of receipt and expenditure as it occurs, (without reference to classification under Heads of Service,) giving also the date of every such receipt or payment.

5th. The Cash Book is to be closed and balanced at the end of every month, and the entries in it are to be transferred into the Waste Book, each being brought under its own Head of Service.

6th. All Sub-Accountants are to send to the Treasurer General a transcript or duplicate of the Monthly Cash Book for each month, together with the usual Cash Accounts, accompanied by the vouchers in duplicate in support of the same.

7th. All charges which it has hitherto been customary to make in the way of deductions or allowances are to be discontinued; and every such allowance or incidental charge is to be entered as a payment in account under its appropriate head and supported by the proper vouchers.

8th. Officers who collect Revenue and pay it over to the Treasurer General in Cape Town, or to the Civil Commissioner in the Country Divisions, but who are not Sub-Accountants for Expenditure, keeping Cash Books, are to transmit monthly to the Auditor a statement in the prescribed form, showing the total amount collected under each head of receipt, within the month, and the dates of payment to the Treasurer General or Civil Commissioner, supported by the receipt of the latter for the sums paid over to him.

9th. All Collectors of the Public Revenue are to pay over the amount of their collections weekly, either to the Treasurer General in Cape Town, or to the respective Civil Commissioners, according as their residences may be in Town or the Country.

10th. All Sub-Accountants and Heads of Department will be furnished by the Colonial Secretary, through the Treasurer General, with a printed statement of the different heads of account under which the several services are to be classed in the Waste and Abstract Books, and also with printed forms of vouchers applicable to each head of service and account, and every bill or voucher is to be made out for its own distinct head of service, and not to be blended with or include any other services; it being necessary, with a view of carrying the present system of account into effect, that from the first application for authority to incur an expense to the final warranting by the Governor, each service and charge should appear in their several stages under one and the same head, as defined in the Annual Estimates.

11th. Previously to the termination of the year, a separate and complete schedule of the different Establishments of every Sub-Accountant and Head of Department will be forwarded from the Colonial Office, accompanied by the authority of the Governor, to the respective parties entrusted with the expenditure, for paying monthly in the ensuing year the Salaries, Allowances, and Office Contingencies therein enumerated.—Notice will be given whenever any provisional appointment has been approved of by Her Majesty's Government, in order that the same may be inserted as a note in the Schedule; and whenever any provisional appointment or salary shall be approved of as permanent addition to Establishment, such appointment or salary is to be included in the following year, as "Fixed Establishment," instead of "Provisional or Temporary."

12th. Immediately on any party ceasing to hold office, or whenever any alteration may be made in the amount of Salary or Allowance to be paid, notice will be given through the Secretary to Government to the Treasurer General and the Sub-Accountant concerned, who will make a record of such alteration on the Schedule of Establishments furnished them at the beginning of the year, and a reference to the date of the letter of the Colonial Secretary is also to be made.

13. For all services not comprised in the authorized Establishments, a special authority is to be applied for in the following manner, viz:—

As early in each month, as the necessary expenditure for the ensuing month can be foreseen with sufficient accuracy, the heads of the several departments are to draw up and transmit to the Treasurer General, to be by him forwarded to the Colonial Secretary, a requisition (in strict accordance with the classified heads of service on the Annual Estimate) of the charges for which provision is to be made in the ensuing month, showing by a memorandum at the foot of the requisition, what further sums may be required during the current year for the same work or service; reference is also to be made on the requisition to any correspondence which may have taken place relative to any particular item of expenditure estimated for, in order that the Governor may have before him the means of judging of the propriety of incurring the expense. The

requisition, after being laid before the Governor by the Colonial Secretary, will be returned to the Officer entrusted with the expenditure, accompanied by a letter of authority, describing under the proper heads the services and charges to be defrayed, and referring to any special circumstances which may be necessary for the information of the party by whom the payment is made. A copy of this authority will be forwarded to the Treasurer and Auditor respectively, for their information and guidance.

14th. Three days at least before the termination of each month, every Sub-Accountant and Head of Department will send in duplicate to the Treasurer General, or other Chief Accountant, schedules of the charges to be defrayed in the ensuing month, with the necessary authority and documents annexed thereto, (including estimates for works, contracts, agreements, and tenders,) excepting only the receipts of the parties, which are to be obtained when payment is made; the charges are to be classed and particularized under the several heads of service, in the same manner as in the requisition for authority to incur the expenditure.

15th. On the first of the month, or as soon after as practicable, the Treasurer will pay to persons resident at the seat of Government, the authorized sums, on the production of the proper receipts of the parties in duplicate, (duplicate vouchers to be marked "duplicate") and the sub-accountants will pay the authorized salaries and other expenses of their own departments to the several parties resident in their districts. As regards parties in the districts belonging to a department, the head of which is resident at the seat of Government, the payments to be made to them by the sub-accountants of such districts will be on the draft only of the Treasurer, which draft will be granted by the Treasurer, on the application of the head of the department, in favor of the individual to be paid in the district; or in the case of labour, &c., in favour of the officer of the department, charged with the issue, in the district, of such pay. The head of the department will produce to the Treasurer the receipt of the party in whose favor the draft is to be drawn, and to whom it is to be forwarded, and upon whose receipt alone, inscribed on the draft, it will be paid by the sub-accountant, and to be taken credit for, by the sub-accountant, simply as "draft paid," it being intended that the drafts of this description should not be rendered negotiable. In all such cases, it will be a regulation, that the acquittance of the party resident in the district is not complete, with ut his discharge to the draft, in addition to the receipt sent to the head of the department, at the seat of Government, to enable him to obtain the draft.

16th. All pensions due to parties residing near the seat of Government will be paid by the Treasurer General. Pensioners resident in the country districts will be paid by the Civil Commissioners of the Divisions in which they reside.

17th. The sub-accountants must complete, and transmit to the Treasurer General by the first post after the close of the month, their cash account, and vouchers for the preceding month, in order that the Treasurer may post the accounts monthly.

18th. From the 1st of January 1849, all expenditure to be incurred for Buildings, whether by contract, by purchase of materials, or for labour, is to be exclusively defrayed and accounted for under the Treasurer, by the Civil Engineer, and Surveyor General (or other officer superintending works and buildings, at the seat of Government). Civil Commissioners will thus be relieved from the duty hitherto performed by them, of making requisitions for buildings, repairs, and works, and bringing the payments to account.

19th. For the purpose of comparing the estimated with the actual cost of all works, the estimate upon which each work is undertaken is to be prepared according to a prescribed form, distinguishing labor from materials, and the items of hire, contract, and purchase, from those provided from Public Establishments and Stores, and a return is to accompany the accounts for the year, showing in respect of each work or building, the total amount of the approved Estimate, the amount, if any, expended in former years, the several amounts expended in the current year, distinguishing purchases, contract work, labor, and materials from Public Establishments and Stores, in the same form as the Estimate, and the sum remaining to be expended.

20th. Whenever it shall happen that the sum passed by the Governor's warrant, is less than which may have been paid, it will be the duty of the Treasurer or Sub-accountant to recover the difference, by stopping the amount from the next issue of personal pay of the party, who made the irregular over-payment; and it is only after bringing such stoppage to credit, that the Treasurer can be allowed credit for the full amount issued to the party. In case the Treasurer or Sub-accountant should have no such payment to make in the ensuing month, to the party by whom an over-payment has been made, the Treasurer, or Sub-accountant, is to represent the circumstances to the Governor, through the Colonial Secretary, in order that steps may be taken for enforcing repayment; and he is to request special authority for allowing, in the mean time, the credit he had claimed, which special authority, together with a copy of the Treasurer's representation on the subject, will be necessary documents for admitting the over-payment to be brought to account under a head of "over-payments to be recovered."

21st. In those cases in which heads of departments find it necessary to make payments daily or weekly, for hire or wages, they are to represent the circumstances to the Governor, who will from time to time decide upon the sum which it may be proper to advance.

These advances are to be confined to the sums which may be necessary to enable the parties to meet such daily or weekly payments as they may be required to make during the course of one month, before the monthly abstracts are paid by the Treasurer, and they must be made at the commencement of each year, under an annual advance warrant in the prescribed form, specifying the amount to be advanced to each head of department, and the amount so advanced must be repaid to the Treasurer on or before the 1st day of the ensuing year, and a new warrant must be obtained for any similar advance that may be required for the current year.

22d. The practice of causing surveys and inspections to be held on the Funds in the Colonial Chests of the Treasurer and Sub-accountant, will still be continued, and the Auditor will be empowered, upon application by him to that effect, to compare, at any and all reasonable times, the cash or other balances of the Treasurer or any other officer entrusted with Public Money, with the balances represented by their accounts.

These inspections and comparisons by the Auditor, are not, however, to supersede the surveys which it has always been the practice to hold, both at stated and uncertain periods, on the funds in the custody of Colonial Accountants.

23d. The year of account is to be in all cases from the First of January to the Thirty-first of December.

24th. The Officers charged with the collection of the Public Revenue, in Cape Town, will continue (notwithstanding Article 9 of these Regulations.)

as heretofore, to pay the amount of their collections without any deduction whatsoever; daily if possible, or at all events on the last day of each week, into the hands of the Treasurer.

25th. Whenever any salary or other payment, due to any individual, is claimed on his behalf by another person, a sufficient assignment or authority in writing must be produced, the Accountant being held responsible for any payment made without such proper authority. Regular vouchers from individuals to whom payments are made, referring, in every instance, either to the schedule or subsequent authority under which the expense is sanctioned, must be forwarded in support of all fixed charges.

26th. No expense whatever will be allowed to be incurred upon verbal authority; and whenever any head of department, or other officer of Government, may receive from the Governor, or Secretary to Government, by his authority, a verbal assent to the commencement of any work or repairs, or to the expenditure, in any way, of the public money, such assent is merely to be considered as an approval of such officer making an official application to him, through the regular channel, for authority in writing to incur such expenditure.

Any item of expense that may be incurred by any head of department, without such previous written authority, will be surcharged against him.

27th. The annual Appropriation Ordinance passed by the Legislative Council, is not to be considered as a sufficient authority for any head of department to incur any expense under it, without His Excellency the Governor's sanction in addition thereto.

28th. The correctness of charges must be certified by the heads of departments; and if the work or supply has been made by contract, it must be stated in the certificate that such contract has been complied with, otherwise it must be certified that the charges are fair and reasonable.

29th. In every case, where the Collectors of Revenue shall fail to enforce the regular and punctual payments of collections or debts receivable by them, the amounts due by Sub-collectors, or other persons in default, will be immediately surcharged against the accountant, unless he can show satisfactorily, that the non-payment in proper time was occasioned by a cause he could neither control nor prevent, and in case the amount in default be not ascertainable from the cash account furnished, the Auditor General will not pass the Abstract for the Accountant's salary, until he shall have obtained a satisfactory statement of the amount due.

30th. In case it shall be made to appear at any time, that the public have sustained a loss by reason of a Public Officer being satisfied with security for a Government Debt evidently insufficient, by his neglecting or omitting to take proper and timely steps to recover the debt from the sureties when it could not be obtained from the debtor, or omitting in the event of either of them becoming insolvent, to file the claims of the Government, so as to enable it to

participate in the dividends from the estate, or by his neglecting or omitting to adopt every proper as well as legal measure, to obtain the public money he is appointed to receive; in short, whenever it can be proved, that the loss has arisen from the neglect, continued carelessness, want of proper precaution, or wilful fault of a public servant, he will be surcharged with the amount, and his conduct will be reported to the Secretary of State.

31st. The Treasurer and Auditor are in future to report immediately to the Secretary to Government, for the Governor's information, whenever any sum is not duly received by an Accountant, or accounted for by him.

32d. Clerks of the Peace who shall, when duly required, fail to take timely and proper legal steps to recover debts due to the Government, will in every case be held personally responsible for, and will be surcharged with, the amount due by the defaulters.

33d. Accountants are required to make proper arrangements, to ensure the presentation within a reasonable time of all demands payable through their offices, in order to prevent arrears claims being made at a long and inconvenient time after the expenses were incurred. Where the Accountant has the power within himself, he must bring up the claims, however small, in proper time.

Unless a satisfactory explanation can be afforded for delay, no final payment made by an Accountant will in future be admitted, which is not included in his accounts for the month, in which such payment was actually made by him.

35th. As the Accountant with the Government is the responsible Officer for the public moneys or advances, which pass through his hands, and not his clerk or any subordinate Officer under him, it must be distinctly understood, that the Government will not relieve the Accountant from any portion of his responsibility, if he think proper to depute it to others; and any infraction of the Regulations of the Government, respecting Revenue or Expenditure, will be visited exclusively on the Accountant, and not on those employed under his orders. The attention of Public Officers is especially directed to this Regulation.

36th. When explanations are required by the Auditor General, from Public Accountants, upon any items of their account, the information called for is to be communicated direct to that Officer; and any inattention to his queries or suggestions is to be immediately brought to the Governor's notice by that Officer.

37th. Fractional parts of a Penny exceeding one-half are to be reckoned for a Penny, and those less than one-half are to be rejected.

By Command of His Excellency the Governor,

(Signed) JOHN MONTAGU,
Secretary to Government.

A Ro(m)land for an oliver.

IF you want a fine "Head of Hair" you must fly, as all the world knows, to the British Rowlands; but if a good "Hat" to cover it, or a prime "fitting Coat, as well as their continuances," why then you must seek the African Rowlands, and he can only be found at his cutting department,

63. Shortmarket-street,

where, if the object of the buyer is to get the most sterling goods at the cheapest rate, both may be secured.

No little surprise has been occasioned lately by the smart and elegant appearance of Gentlemen in the City of Cape Town, both in the Ball-room and on the "Parade," the Exchange, and in the Office. This great mark of civilization has even extended itself into the country, and the question has been frequently put

How is it?

The fact is, that all may be attributed to the silent but effectual influence of one

WALTER ROWLANDS,

whose ingenuity is quietly at work, whilst others are out of Hum(e)our and puffing that they can imitate him, but all to no purpose;—"once bit, twice shy."

WHAT IS IN A NAME?

THE philosophic axiom, that there is no absolute or necessary connection between a name and the thing nominated, has been singularly comprehended, and most cunningly acted upon, by an Empirical Pestle and Mortar Philosopher of this City.—In as far as he has surreptitiously imparted to a vile compound of his own production, the name of my unrivalled perfume for the Handkerchief and Boudoir, and deceitfully imitated my labels for the same, so closely as to mislead incautious buyers. Let the Public, therefore, beware of such disgracefully avaricious chicane. (whether in vending physic or perfumery) and remember that I am the sole proprietor, compounder, and vender, of the unrivalled perfume, Real Omar Essence; and that the label on every bottle of the genuine article must bear my signature.

GOVERNEMENTS KENNISGEVING.

Koloniale Secretary, 25 October 1848.

ZYNE Excellentie de Gouverneur heeft heden de volgende communicatie ontvangen van den Kommandant van British Kafferland, welke Zyne Excellentie verlijgt ter algemeen nariet te publiceren:—

Ler Ordonnantie van Z. E. den Gouverneur,
(Get.) JOHN MONTAGU,
Gouvernements Secretaris.

No. 75.

King William's Town, 18 Oct. 1848.

Mynheer,—Ik heb de eer te rapporteren, dat in de loop van de voorgaande maand een klagte is gedaan door het opperhoofd Toise aan Kapt. Maclean, dat Skilitzi en anderen van Bakus Kaffers, wonende met ons verlot in Toises locatie, en geregistreerd onder een verantwoordelyk hoofdman, Kosene, een zoon van Baku, onregmatig 12 stuk Vee hadden bemagtigd van Umxabele en anderen van Toises Kaffers, in vergelding voor de voorgewende diefstal van een Koe.

De zaak is onderzocht door Kapt. Maclean, die besliste dat het Vee moest worden teruggegeven door Skilitzi, en de Civile Politie werd tweemaal gezonden om de terugave van het Vee te vragen. Skilitzi weigerde aan de vordering te voldoen. Kapt. Maclean zond mede bevel aan Kosene, om aan te dringen op de volbrenging van de vordering, van de zyde van Skilitzi. Kosene verklaarde dat hy niet in staat was aan het bevel van Kapt. Maclean te voldoen.

Kapitein Maclean zond toen 1 Officier en 14 man van de gewapende Politie, met last om 24 stuks vee te nemen van Skilitzi, zynde 12 als een boete voor zyne contumacie. De Politie was gelast geen gevecht te wagen, indien er een geweldadige tegenstand geboden werd.

De Politie bemagtigde het vereischte getal vee van Skilitzi, maar toen een groot getal gewapende Kaffers zich verzamelden om het vee te hernemen, gaven zy het zelve terug.

De Kaffers die zich dus in de wapen vertoonden, behoorden tot diegenen die wonen onder Mapassa, een zoon van Baku, en een zeer oploerig man; zy trokken over de Kei, naar Krehes land, dadelyk na het boven beschreven gebeurde. Kapitein Maclean zond toen naar Kosene om de terug gave te vragen van al het vee dat hernomen was van de Politie, en vergoeding voor de aangedane belediging.

Kosene kwam dadelyk naar Fort Murray, met zich brengende het vee (24) dat hernomen was van de Politie, en biedende alle vergoeding aan welke voor de belediging kon gevraagd worden.

Daar Kapt. Maclean hem beschouwd als een wel gezind man, en daar hy het grootste berouw had over het voorgaallene aan den dag legt, en beloofd heeft dat de bevelen van het Gouvernement in het vervolg altyd spoedig in zyne locatie zullen worden volbragt, vergenoegde ik my met het opleggen van een verdere boete van 24 stuks vee, van Skilitzi, en vorderde dat Kosene de wederspannige Kaffers hunne vuurwapenen zou doen opgeven.

Kosene heeft aan deze aanvraag doen gehoorzamen, en de 24 stuks Vee, boven de 24 stuks Vee, vroeger opgegeven, zyn door hem gezonden aan Kapt. Maclean. Hy heeft mede 4 Geweren ingezonden.

By Kriis laatste bezoek alhier, heb ik met hem gesproken over het onderwerp van deze geweldenary, en hem doen verstaan dat al zyne Kaffers, of die van Baku, die hy in Kafferland laat blyven, moeten worden geregistreerd, en in alle oorzichten moeten worden beschouwd op denzelfden voet als alle andere Kaffers, behoorende onder de stammen onder ons regtsgebied. Krieli beloofde dat hy in geen deelen hen zou aanmoedigen in het wederstaan van de bevelen van de Commissarissen, noch hen schuilplaats zou verleen, indien zy ons gezag wederstaan; en hy verklaarde dat hy volkomen den voet verstond waarop zy waren, en dat zy hadden opgehouden onder zyn gezag te zyn, indien zy aan deze zyde van de Kei bleven.

Ik heb de eer te zyn, Mynheer,

Uwes Excellenties zeer geboozame dienaar,
GEO. MACKINNON,
Kol. en Hoofd Commisaris.

Landlieden hebben de vryheid hunne waren, op de Markt gebragt te verkoopen, voor contant geld of op credit, zoo als zal worden aangekondigt voor de verkoop begint,—zoo voor contant geld, moet de koper betalen aan den Marktmeester voor 12 ure, en de landman kan zyn geld ontvangen van den Marktmeester ten 2 ure, op den dag der verkoop.
3. Geene andere marktgelden zullen worden gevorderd van den verkoper, dan 1s. voor iedere wagen staande op de marktplaats, en 1 Rds. voor iedere honderd Ryksdaalders, van verkochte producten, en zoo in evenredigheid voor iedere mindere som,—indien geen verkoop plaats vindt, zal niets worden gevraagd voor het staan van de wagen op de markt.
4. De marktgelden zullen behooren aan den Marktmeester, voor zyne moeite, maar indien dezelve £30 in het jaar te boven gaan, zal een vermindering plaats vinden in de marktgelden; de grondslag van deze regulatien zynde dat het den handman vry staat zyne producten te verkoopen zoo als hem voordeeligst toeschynst, en dat geen inkomsten hoegenaamd, uit zulken bria wordt verwacht.

THURSDAY, NOVEMBER 2, 1848.

[The Supplementary Colonial Estimates for the year 1848, will be published in next "Gazette."]

Draft of an Ordinance,

Proposed by His Excellency the Governor, to the Legislative Council of the Cape of Good Hope.

For amending the Law relating to the Burgher Force of the Colony.

WHEREAS by the existing law the inhabitants of this Colony called out to serve as armed Burghers in case of war or invasion, are selected, in a great measure, at the discretion of the several Field-cornets, whereby suspicions of partiality are excited, and occasion is afforded for much jealousy and discontent: And whereas in order to relieve the several Field-cornets from the discharge of a duty at once harassing and invidious, and to secure to the inhabitants the utmost impartiality in the distribution amongst themselves of the Burgher service, which they are, and at all times heretofore have been, bound to render,—it is expedient to introduce under proper limitations and conditions, the principle of a fair and indifferent Ballot: And whereas it is expedient that those Burghers who may be called out for the general protection should receive, from the general Revenue, a reasonable rate of pay while engaged in actual service; And whereas it is also fit and proper that provision should be made for compensating the owners of wagons, oxen, horses, or other property, which shall be supplied for the use of the Burgher Force: And whereas the present time,—being one of profound, and, as it is believed, permanent tranquillity,—is peculiarly well fitted for the consideration and amendment of the Commando System of the Colony,—and for organizing it upon a juster and more effective plan,—so the better to deter, by a knowledge of its efficiency, the turbulent and unruly amongst the Native Tribes adjacent to that Eastern Frontier, and by so doing contribute to preserve peace; And whereas it is expedient, for the purpose aforesaid, to repeal all former laws and usages repugnant to or inconsistent with, any of the provisions of this Ordinance.—Be it enacted by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof, that all laws or usages heretofore in force in this colony, so far as the same may be repugnant to or inconsistent with any of the provisions of this Ordinance, shall be repealed, and the same are hereby repealed accordingly.

2. And be it enacted, that all clergymen or ministers, officiating in any congregation stately assembling for religious worship,—all judges, and resident magistrates,—all schoolmasters and teachers of youth, field-cornets, constables, and peace officers,—all persons in the military or naval service, or in any of the military or naval departments of Her Majesty's service,—all merchant seamen,—all persons in the Honorable East India Company, and only temporarily serving in this colony,—and all persons not being natural born Subjects of Her Majesty, and who have not received letters of Burghership, or been domiciled in this colony for the space of five years next before the time of the framing of any such list as is hereafter mentioned, shall be exempt from serving in the Burgher Force and shall not be inserted in any of the lists hereinafter mentioned, or, if by mistake inserted therein, shall be removed therefrom in the manner hereinmentioned.

3. And be it enacted, that it shall and may be lawful for the resident magistrate of every district within this colony, and he is hereby required, so soon as may be after the promulgation and taking effect of this Ordinance, to frame and make out a true list, containing the names of all the men, between the ages of eighteen and fifty years, usually, and at the time, residing in the district of such magistrate (and when the names of such persons cannot be procured the common appellation of such person shall be sufficient) and such magistrate shall, on such list, specify which of the persons named therein (if any) claim to be exempt from serving on commando, and on what account: And opposite the name of every person entered on such list shall be stated in convenient columns, the age or reputed age of such person, and whether such person has or not a wife living, and whether he has a reputed wife or children living, who reside with him or not, and if he have such children,—how many of them he has.

4. And be it enacted, that all Field-cornets shall aid and assist, within their respective wards, in such manner as the resident magistrate of their district shall require and prescribe, in framing and making out such list; and any Field-cornet who shall, without ample cause, neglect to render such aid and assistance when thereto required, or who shall knowingly and wilfully suppress or keep back from such Magistrate the name of any person whose name ought to be placed upon such list, shall, for every such offence, forfeit any sum not exceeding twenty pounds.

5. And be it enacted, that every such Resident Magistrate as aforesaid shall, not later than three months next after such promulgation, cause a true

copy of every such list as aforesaid, containing the several particulars aforesaid, to be affixed on, or at, every church, chapel or other place of stated public worship, within his district, and at the court house of such district; and every such copy shall have written upon it, or subjoined thereto, a notice signed by such Magistrate, stating that all objections to such list will be heard by such Magistrate at a court to be held by him for that purpose in such court house as aforesaid, upon some convenient day to be specified in such notice, not being sooner than three weeks, nor later than six weeks, from the day of the affixing of such copy.

6. And be it enacted, that upon the day fixed, in and by such notice as aforesaid, the Resident Magistrate shall hold a court for the purpose of reforming any errors which may have been committed in the preparation of the list aforesaid, and shall upon proof to his satisfaction by the oath or affidavit of any person or persons cognizant of the facts, reform all such errors as aforesaid, whether the same shall consist in including the name of a person entitled and claiming to be exempt, or in admitting the name of some person liable to serve, or in ascribing a wrong age to any person mentioned in such list, or in mis-stating any other particular heretofore required to be set forth,—and the Resident Magistrate shall also strike out the name of any person included in such list, who shall be proved by oath or affidavit, or shall be found upon personal examination by such Magistrate (assisted, if he shall think fit, by a Doctor of Medicine, or Surgeon) to labor under some sickness or infirmity likely to incapacitate such person from serving in the Burgher Force.—Provided that in case all the cases, and questions arising out of any such list cannot be conveniently disposed of in any one day, the court aforesaid may be continued by adjournment until all such cases and questions be determined, and provided also that the determination of such Magistrate shall be final to all intents and purposes.

7. And be it enacted, that as soon as such list as aforesaid shall have been reformed as aforesaid, the Resident Magistrate shall proceed to divide the names therein contained into the four following classes, or into as many of them as circumstances will admit,—that is to say, a first class containing the names of every such person, named in such list, who is therein stated to be under 30 years of age, and to be without wife or child living; and a second class containing the names of every person stated in such list to be 30 years of age or upwards, and to be without wife or child living; and a third class containing the name of every person stated in such list to be the father of any number of children, not exceeding three, and whether he has a wife living or not; and a fourth class containing the names of all persons mentioned in such list, who shall not be included in any of the three former classes;—and such Resident Magistrate shall then cause the said list, as so reformed and classified, to be accurately copied into a book to be kept for that purpose,—and shall sign such book in attestation of the correctness of such copy, and shall also transmit to His Excellency the Governor, with all convenient speed, a second copy similarly attested.

8. And be it enacted, that it shall and may be lawful for the Governor aforesaid, after he shall have received the whole of the reformed and classified lists of the several districts of this colony, or sooner if he should see fit, to fix and settle the number of men of which the Burgher Force of any district of which he shall have received the list aforesaid shall consist, for the next succeeding four years, and thereupon the said governor shall transmit the number so fixed and settled to the Resident Magistrate of the said district; and shall moreover, amend the same by a Government Notice in the *Government Gazette*.

9. And be it enacted, that every Resident Magistrate, receiving from the Governor aforesaid, information of the number of men of which the Burgher Force of the district is, for the time being, to consist, shall examine the classes aforesaid, into which the persons named in the reformed list aforesaid shall have been divided, and in every case in which the required number shall equal the whole number contained in the whole of the said classes, or shall equal the number contained in the first class, or in the first and second, or other succeeding classes, in their order as aforesaid, then and in such case the men contained in the whole of the said classes, or in the first or other class or classes, (as the case may be,) to which the required number shall be equal, shall be forthwith chosen without any ballot, but when and as often as the number of men required by the said governor shall be less than the number of men contained in such first class, then such number shall be ballotted for out of such class only and no other, and when the number of men so required shall exceed the number of men contained in the first or first and any succeeding class or classes, in the order in which the classes stand as aforesaid, then the Resident Magistrate shall first choose, without ballot, all the men in such first class, or first and next succeeding class or classes, until the required number shall be, as near as may be, completed, and shall then proceed to ballot for the remainder of such required number out of the class immediately following the last class that shall have been wholly taken towards making up the required number.

10. And be it enacted, that in every case in which any such ballot as aforesaid shall be necessary, the same shall take place in an open court to be held by the Resident Magistrate, of the holding of which court and the purpose thereof, not less than seven days' previous notice shall be given, by a notice to be publicly affixed in some conspicuous place at the court house of such district.—Provided always, that neither by ballot nor otherwise, shall more than one person be chosen out of any one family consisting of a father and his sons, living together, or of brothers living together, unless such family consist of at least five men, between the ages of eighteen and fifty, nor shall more than two men be chosen from any such family.—And whenever the limit hereby prescribed shall be reached in regard to any family,—the names of all other persons belonging to the same family shall be considered as expunged,—and, if need be, the names of other persons shall by ballot or otherwise, be chosen in their stead, in order to complete the required number.

11. And be it enacted, that as soon as the number of men required by His Excellency the Governor as aforesaid, shall have been by ballot or otherwise completed, the names of the persons forming such number shall be duly recorded by the Resident Magistrate, and a list containing the same shall be forthwith affixed in like manner and form as the notice in the last preceding section mentioned, and the persons named in such list shall constitute (subject to the changes and substitutions hereinafter recognized) the Burgher Force of the District, and be liable to serve as such for the term of four years next after the day on which such last mentioned list shall be affixed.

12. And be it enacted, that every person chosen in manner aforesaid to be a member of the Burgher Force of any district, who shall procure for his substitute another man of good character, and able and fit for service, shall be exempt from serving in such force, and such substitute shall be taken and considered as a member of such force in the room and stead of the individual procuring him.—Provided that in all cases in which the Burgher Force shall be called out for active service, as hereinafter mentioned, all persons for whom, or in whose stead, substitutes shall have been received, shall be bound to produce their substitutes respectively, or in default thereof, to serve themselves.—Provided, however, that all persons whose substitutes shall make default may claim the assistance of all officers of the law proper for the execution of criminal warrants who shall be authorized to apprehend, without warrant, any substitute who shall refuse to serve, and provided also that any substitute who shall have received any money, or other matter or thing, for, or by reason, or on account of, his becoming such substitute, and who shall, without lawful cause, wilfully refuse to serve as a member of the Burgher Force to which he belongs, shall, upon conviction, be liable to be imprisoned for any period not exceeding six months.

13. And be it enacted, that every Burgher chosen in manner aforesaid, who shall be the owner of a horse fit for the service, shall be entitled, and be liable to be required to serve as a horseman, and shall receive the rate of pay in that behalf provided: And every such last mentioned Burgher, producing a substitute, shall be bound, if required, to procure a substitute provided with such a horse as aforesaid.

14. And be it enacted, that arms shall be provided at the public expense, for the use of such Burghers as shall not possess arms of their own; but all Burghers who possess arms, their own property, shall be entitled and required to make use of them.

15. And be it enacted, that within the space of fourteen days next after the affixing of the list of Burghers, as in the 11th section of this Ordinance mentioned, the Resident Magistrate of the district shall cause a written or printed notice, signed by such Magistrate, to be addressed to every such Burgher, requiring him to appear in person, or by substitute, at some time and place to be named in such notice, there to meet the other members of the Force—and every such notice shall require such Burgher, or his substitute, if any, to appear mounted, in case he shall be known or believed to possess a horse, and armed with a gun in case such Burgher shall be known or believed to possess a gun. Provided that the time to be fixed in such notice shall not be less than three weeks from the date of such notice, and provided also that on or before the day on which such notice shall bear date the said Magistrate shall cause to be affixed for general information at the court house of the district, a public notice setting forth that the Burgher Force of the district is required to meet at a time and place in the said notice specified which shall be the same time and place as those in the notice to the respective members mentioned,—and provided also that every such notice addressed to any of the said members respectively, shall be served upon him either personally or by leaving the same at the dwelling house where he shall reside, with some one of the household of such house: And provided further, that all such notices shall be served by or through the several Field-cornets of the district, or by the Police Force of such district, or in such other manner, as His Excellency the Governor shall appoint.

16. And be it enacted, that at the time and place mentioned in such notices respectively, the Burgher Force of the District shall assemble,—and that any Burgher upon whom any such notice as aforesaid shall be proved to have been served, and who, having no lawful cause for his absence, shall not appear either in person or by a fit and proper substitute who shall report himself as such substitute to the Resident Magistrate at such meeting,—shall upon conviction, incur and be liable to a fine of Twenty Pounds. Provided that when and as often as any person being in the civil service of the colony shall, in manner aforesaid, be chosen a member of the Burgher Force, he shall be relieved from the obligation of appearing as aforesaid, and of serving in such force, in case he shall procure and transmit to the Resident Magistrate at or before such meeting, an order from His Excellency the Governor grounded upon the nature of his official duties exempting him from rendering Burgher Service.

17. And be it enacted, that if any Burgher who shall have been, by the notice served upon him, required to appear mounted or armed, shall not so appear either in person or by substitute,—he shall incur or be liable to a fine of Ten Pounds, unless he shall satisfy, or cause to be satisfied, the said Magistrate that, without any fraud or default upon his own part, he has been unable to comply with the requirements of the said notice.

18. And be it enacted, that the officers of the Burgher Force of each respective district shall consist of a Commandant, with so many captains or other officers as His Excellency the Governor shall appoint; and the Commandant and Captains or other officers shall be appointed, during pleasure, by the said Governor from and out of the list of persons, in the 3rd and 5th Section of this Ordinance mentioned, liable to serve on commando for the same district; and such Commandant and Captains, or other officers, shall receive the rate of pay hereinafter mentioned.

19. And be it enacted, that at the meeting aforesaid of the Burgher Force

of any district, or so soon afterwards as circumstances will permit, the Resident Magistrate of such district shall make out a list of such force, containing the names of the Commandant and other Officers, and of the other Burghers, distinguishing the substitutes, if any, from the men originally chosen, and such list shall also distinguish the mounted Burghers from those not mounted, and distinguish the men who serve with their own arms from those for whom arms have been or are to be provided, and such list shall be signed by the Commandant of such Force, as well as by such Magistrate, and such list shall be preserved in the office of the Resident Magistrate, and a copy thereof shall be forwarded by such Magistrate to His Excellency the Governor, for his information.

20. And be it enacted, that the Burgher Force of each district shall be divided into such and so many companies, as His Excellency the Governor shall deem best calculated to meet the general convenience of the several classes and conditions of persons of which it may be composed, and the mutual harmony, good order, and efficiency of the body.

21. And be it enacted, that at every such meeting of any Burgher Force as aforesaid, it shall and may be lawful for the said Governor to offer and bestow such prizes to be shot for by the assembled Burghers, as shall serve or tend to encourage and reward their skill in the use of their arms.

22. And be it enacted, that the officers and men of the Burgher Force of each respective district shall for every day the said Force shall meet as aforesaid, be paid as follows, that is to say,—every Commandant shall receive ten shillings; every Captain shall receive seven shillings; every mounted Burgher shall receive four shillings; and every Burgher not mounted two shillings. Provided also, that in calculating the number of days in respect of which such pay shall be granted the distance which each Burgher shall be obliged to traverse in going to and returning from the place of meeting shall be taken into account, as well as the time of his necessary attendance at such meeting.

23. And be it enacted, that at the expiration of four years from the selection of the first Burgher Force for any district, under this Ordinance, in manner and form as in the 11th section of this Ordinance mentioned, a fresh selection of a Burgher Force to serve for that district for another term of four years shall be made, and so on from four years to four years, so long as this Ordinance shall remain in force; and thereupon all and singular the provisions of the 2nd section of this Ordinance, and of the other sections thereof succeeding the said 2nd, and preceding this present section, shall be applicable and be applied (under and subject to the modifications and adaptations hereinafter provided to each successive quadrennial selection, and to the Force so from time to time selected. Provided, that the list in the 3rd section mentioned shall contain the names of the members of the Burgher Force serving at the time of the framing and making out thereof, (being inhabitants and within the ages of eighteen and fifty years, and not exempt by any provision of this Ordinance,) in like manner as the names of other inhabitants: And provided, that such list shall be framed and made out as near before the time of the affixing of the same as circumstances will permit; and that it shall be affixed not sooner than three months, nor later than one month next before the day on which the term of service of the Burgher Force before then last chosen shall expire: And provided that, in all selections of men under this Ordinance, after the first, it shall be competent for any person who shall, either in person or by substitute, have already served in the Burgher Force of the district, as remodelled by this Ordinance, to claim exemption from further service so long as there shall be sufficient persons in the same class with himself, or in the same class together with the class next after that class, who have not so served,—or who have not so served so often: And provided, that any person who shall have served for the term next preceding the selection then making, shall be entitled to claim exemption as often as there shall be sufficient persons in one or other, or both the last mentioned classes, who not having served in such next preceding term, shall not have served oftener, under this Ordinance, than the person claiming to be so exempt: And provided also, that as often as it shall be necessary to take some, but not the whole, of any number of Burghers, being all of them in the same plight and condition as regards their liability to serve, then the individual to serve shall be chosen out of the whole number, by ballot.

24. And be it enacted, that no servant or apprentice, chosen in manner aforesaid, to be a member of any Burgher Force, shall by serving in such Force be deemed or taken to vacate, or in any manner violate the contract of service or apprenticeship, unless the Burgher Force shall be called out for active service as hereinafter provided; but every servant or apprentice shall be bound for or in respect of every day on which he shall be absent from his service by reason of any such muster as aforesaid, to serve his employer or master a day without pay, over and above his original term of service: Provided that when any servant shall be called out on active service it shall be competent for himself and his employer, or either of them, to treat and consider the contract of service as then lawfully determined: Provided also, that no contract or indenture of apprenticeship shall be determined by the calling out of any apprentice upon active service, unless both the master and the apprentice shall so agree, in which case the same shall be so determined: And provided further, that when and as often as both the master and the apprentice shall not agree to determine the contract or indenture of apprenticeship, the apprentice shall, when relieved from active service, be bound and also of right entitled, to serve over and above the term of apprenticeship originally fixed, a further period equal to the period of such active service.

25. And be it enacted, that any member of any Burgher Force becoming unfit to serve therein by reason of any mental or bodily infirmity, may, with the consent of the Governor aforesaid, be discharged therefrom, and such person shall, for the purpose of any subsequent election, be deemed and taken to have served during the whole of the term of which he shall serve any part.

26. And be it enacted, that if any member for the time being of the Burgher Force of any district, shall propose to remove from such district without the intention of returning thereto and residing therein, he shall report his intention so to do to the Resident Magistrate of the district from which he is about to remove; and such Magistrate, in case he shall be satisfied that such removal is not made for the purpose of evading Burgher duty, shall grant a discharge from the force to the member so removing, and shall report the same to His Excellency the Governor: And if any Burgher shall remove from the district to the Force of which he shall belong, without having first obtained such discharge, he shall incur and be liable to a fine not exceeding Ten Pounds.

27. And whereas it is possible, contrary to present hope and expectation, that the peace of the Colony may be again assailed, and it may become necessary to call out the Burghers of the Colony for the general defence, be it therefore enacted, that in case of invasion or war it shall be lawful for the Governor aforesaid, by Proclamation, to call out, into active service, the Burgher Force for the time being of any district, or such part of such force, as he shall deem

necessary, and from and after the promulgation of any such Proclamation the Burghers mentioned therein shall be bound to yield obedience to the same, and to all lawful orders which they shall afterwards receive; and any wilful disobedience or other misconduct, shall be punishable by martial law and be cognisable by courts martial: Provided that every court martial for the trial of any member of any Burgher Force, for any offence whatever, shall be composed exclusively of officers belonging to the Burgher Force of the same or of some other district.

28. And be it enacted, that the officers and men of the Burgher Force while called out into active service, shall receive, over and above rations, the following rate of pay, that is to say:—

Every Commandant, 7s. per day,
Every Captain, 4s. 6d. per day,
Every mounted Burgher, 2s. per day,
Every Burgher not mounted, 1s. per day.

29. And be it enacted, that every mounted Burgher whose horse shall be killed, or carried off by, or abandoned to, the enemy, or shall be destroyed to prevent the same falling into the enemy's hands, shall be paid the value of the same at the time of the loss thereof,—such value to be certified by the Commandant and Captain, or Captains, of the Force to which the claimant shall belong.

30. And be it enacted, that the widow of any Burgher who may be killed in action, and any Burgher who may receive during his service any wound or injury permanently injurious in its consequences, shall receive such pension or allowance as His Excellency the Governor shall think fit, and Her Majesty the Queen shall approve of.

31. And be it enacted, that it shall and may be lawful for the said Governor to authorise the Civil Commissioner of any Division, or such other officer or person as he shall think fit, to grant to the wives, or reputed wives, of any Burghers engaged in active service, such monthly or weekly sums of money as shall be required for the subsistence of the families of such Burghers. Provided always, that no sum shall be granted to or for any family which shall possess other means of subsistence; and provided also, that every Burgher whose family shall receive such subsistence shall be liable to refund and make good, out of his pay, so much of the amount advanced, as His Excellency the Governor shall approve of and direct; not, however, to exceed one half of the said pay.

32. And be it enacted, that when and as often as the Burgher Force of any district, or any part thereof, shall be called out into active service, the Field-cornets of the several wards in such district shall be, and they are hereby, authorised to require from such inhabitants as may possess the same, such number of wagons and oxen, with the necessary gear, and of horses and guns, as shall be needed for the service of such force, and every inhabitant shall be bound to render obedience to every such requisition. Provided, that every Field-cornet shall, in reference to the number and nature of the animals or articles for which he shall make requisition, conform to the instructions which he shall receive, in that behalf, from the Resident Magistrate of the district.

33. And be it enacted, that when and as often as any article or animal shall be obtained upon requisition as aforesaid, the Field-cornet obtaining the same, shall justly and fairly estimate, to the best of his knowledge and belief, the value thereof, and shall grant his certificate to the late owner thereof, certifying that he has obtained from such owner the animal or article in question, and that to the best of the knowledge and belief of such Field-cornet, the same is justly and fairly worth £ : And the Civil Commissioner of the division upon presentation to him of such certificate shall, in case the value therein mentioned do not appear to him to be excessive, and it be acquiesced in by the owner, proceed to pay and satisfy such owner the said value; or otherwise, such Civil Commissioner shall grant to such owner a certificate, which shall be transferable by cession, and redeemable by Government at pleasure,—securing the said amount, with interest from the day on which the animal or article shall have been taken down, to the date at which the said amount shall be paid or payable.—Provided, however, that if the value placed upon any such article or animal in the certificate of the Field-cornet shall appear or be represented to the Civil Commissioner to be excessive, or in case the same shall be objected to by the late owner as inadequate,—then the Civil Commissioner shall cause such inquiry to be made, upon oath or otherwise, as he shall see fit, into the just and fair value of the article or animal in question, as shall serve to satisfy the said Civil Commissioner of the same, and therefore his decision shall be final: And all animals and articles so obtained shall be the property of government, and shall, when no longer required, be disposed of to the best advantage,—under such rules and regulations as His Excellency the Governor shall approve and appoint.

34. And be it enacted, that it shall and may be lawful for His Excellency the Governor to take such measures as he shall deem expedient, for providing arms for such men belonging to any Burgher Force as shall not possess arms of their own,—and for the due preservation, in proper order and condition, of all arms so provided and generally for the safe custody of all public property of every description provided for the use of any Burgher Force.

35. And be it enacted, that all and singular the fines by any section of this Ordinance imposed shall be recoverable in the court of the Resident Magistrate for the district in which the offender shall reside at the time of the serving of the summons upon him to appear and answer to the charge, and every offender, convicted of any offence against any of the provisions of this Ordinance, who shall not forthwith pay or secure the fine adjudged against him, may be imprisoned, either with or without hard labor, as the Magistrate shall determine and direct, for any period not exceeding two months. And provided also, that the court or Resident Magistrate shall have jurisdiction and authority to award the imprisonment in the 12th section of this Ordinance mentioned.

36. And be it enacted, that when and as often as an exigency shall so require—it shall and may be lawful for the Governor by Proclamation to call out, in addition to the ordinary Burgher Force of any district, constituted as aforesaid,—the whole of the persons contained in the list of persons who were liable to be chosen to serve; the last reformed and classified,—or so many of such persons as the said Governor shall direct; and every such additional number, (not being the whole number left off, or upon, such last mentioned list) shall be selected upon the same principle, and in the same manner as are heretofore in the 9th section of this Ordinance prescribed and set forth in regard to the selection of the members forming the previous ordinary Burgher Force of the district. Provided always that the provisions of the 12th, 13th, 14th, 15th, 16th, and 17th sections of this Ordinance shall extend and apply to such additional Burghers so called out, save and except that the time to be fixed in the notice in the 15th section mentioned may be less

than three weeks as therein limited,—and provided that all such additional Burghers shall be entitled to the same pay and allowances as the Burghers of the ordinary Burgher Force. Provided also, that such additional Burghers shall be disbanded as soon as the exigency which required them to be called out shall have ceased, but that their time of service, whatever it may have been, shall be deemed and taken, for the purpose of entitling to exemption from further service under the provision of this Ordinance, to be equivalent to a term of four years.

37. And be it enacted, that the cost and charge of carrying this Ordinance into effect shall be borne by the general revenue of the colony.

38. And be it enacted, that, in the construction of this Ordinance the term Governor shall mean the officer for the time being administering the Government, and that martial law shall mean the provisions of the mutiny act and articles of war, for the time being, and that the term Resident Magistrate shall mean the officer, for the time being, acting as such, and that words betokening the singular number shall include several persons and things as well as one person or thing, and that words betokening the masculine gender shall include females as well as males, except there be something in the subject or context repugnant to such construction.

39. And be it enacted, that this Ordinance shall commence and take effect from and after

WM. HOPPE,
Clerk of the Legislative Council.

Draft of an Ordinance,

Presented by the Honorable WILLIAM PORTER, Esquire, to the Legislative Council of the Cape of Good Hope,

To Amend the Ordinance No. 1, 1840, entitled "Ordinance for the better regulation of the Municipal Board of Cape Town, and the vicinity thereof."

WHEREAS, by the 64th Section of the Ordinance No. 1, 1840, entitled "Ordinance for the better regulation of the Municipal Board of Cape Town and the vicinity thereof," it is provided, (amongst other things) that no Commissioner of the said Municipality shall be allowed, either directly or indirectly, to become a contractor for any work to be done, or materials to be found, for the Commissioners of the said Municipality, by virtue or for the purpose of the said Ordinance,—and that no Commissioner shall be allowed to tender for any such contract, either in his own name, or in the name of, or jointly with, any other person, on pain (amongst other things) of being considered to have vacated his office of Commissioner, *ipso facto*, and of becoming ineligible to be elected, at any future period, to serve as a Commissioner: And whereas some time since a certain Joint Stock Company or Co-partnership was formed in the City of Cape Town, called the Cape of Good Hope Gas Light Company, for the purpose of supplying the said City with Gas,—in which Company or Co-partnership a number of the inhabitants desirous of contributing to the safety, comfort, and embellishment, of the said City,—and amongst others, certain of the Commissioners of the Municipality aforesaid,—became Shareholders: And whereas, on or about the fourth day of March 1847, a contract was duly entered into between the said Gas Company and the Commissioners of the said Municipality for the partial lighting with Gas of the said City, by the said Company, upon certain terms and conditions and for certain payment and remuneration in the said contract specified: And whereas doubts exist whether those Shareholders of the said Gas Company who, at the time of the making of the said contract, were Commissioners of the said Municipality, or who, afterwards, and during the existence and operation of such contract, became such Commissioners, did not, by force of the said 64th section, vacate the office of Commissioner, and become ineligible to be elected, at any future period, to serve as such; and whether, moreover, the Board of Commissioners, of which such Shareholders have continued to act as members, has not been since then illegally constituted, and its acts and proceedings invalid: And whereas to disqualify Commissioners as often as the Board of which they are members shall enter, whether with their concurrence or without, into a contract, for any work to be done, or material to be found, by any Joint Stock Company in which such Commissioners chance to be Shareholders, would be altogether oppressive to the individuals concerned, and prejudicial to the public interests, as well by limiting the choice of the Householders, in regard to eligible persons to be elected Commissioners, as by restraining Commissioners from promoting, by becoming Shareholders, Joint Stock Companies, formed for purposes of obvious utility: And whereas it is expedient to render valid all acts and proceedings of the said Commissioners in so far as the same might be impeached or questioned upon the ground aforesaid, or any similar ground, and also to amend the Ordinance aforesaid, in regard to the matter above recited, and to other matters also:—Be it enacted, by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof, that all and singular the provisions of the Ordinance aforesaid, so far as the same may be repugnant to, or inconsistent with, any of the provisions of this Ordinance, shall be repealed, and the same are hereby repealed accordingly.

2. And be it enacted, that no Commissioner of the Municipality of Cape Town, heretofore elected, shall be deemed or taken to have vacated his office of Commissioner, or to have incurred any manner of forfeiture or disqualification whatsoever, by reason merely that such Commissioner was or is a Shareholder in any Joint Stock Company in this Colony, with which Company, or the directors or managers of which Company, the Board of Commissioners of the Municipality to which such Commissioner belongs, or any former Board of Commissioners, shall have entered into any contract, dealing, or transaction whatsoever,—nor shall any act or proceeding of any Board of Commissioners be avoided, impeached, or questioned by reason merely that all or any of the Commissioners, or reputed Commissioners, by whom such act or proceeding was done or taken, was a Shareholder in any such Joint Stock Company as aforesaid, with which such Commissioners as aforesaid had entered into some contract or similar dealing or transaction.

3. And be it enacted, that no Commissioner of the said Municipality shall, from and after the commencement and taking effect of this Ordinance, be deemed or taken to have vacated his office of Commissioner or to have incurred any penalty or forfeiture whatever, by reason merely that the Board of Commissioners to which he belongs, or any former Board of Commissioners, shall have entered into any such contract, as is in the 64th section of the Ordinance aforesaid mentioned, or any other dealing or transaction, with the directors or other managers of any Joint Stock Company in this Colony, of which such Commissioner shall be a Shareholder or in which he shall be otherwise interested; nor shall any Shareholder or person otherwise interested in any Joint Stock Com-

pany, with which Company the Commissioners of the Municipality shall have entered into any executed or still subsisting contract, dealing, or transaction, be deemed or taken to be ineligible to be elected or to act as a Commissioner of the said Municipality, by reason merely of such contract, dealing, or transaction. Provided always that no Commissioner of the said Municipality, who is also such a Shareholder or so otherwise interested as aforesaid, shall be allowed to vote as a Commissioner upon the question of making or entering into any contract, dealing, or transaction with the Joint Stock Company in which he is interested; and any Commissioner who shall so vote, in contravention of this restriction, shall for every such offence forfeit the sum of £500.

4. And whereas it has been found that to restrict the resident householders of every separate district of the said Municipality, in choosing Commissioners, to the choice of persons being the proprietors of landed property situate within such district, limits injuriously the number of persons worthy to be chosen,—Be it enacted, that the 10th section of the Ordinance aforesaid shall be, and the same is hereby repealed, and that any resident householder of the said Municipality, being the proprietor of landed property, situate within the said Municipality, of the value of not less than One Thousand Pounds Sterling, shall be eligible to be elected a commissioner for any one of the districts of such Municipality, for the purposes of the said Ordinance.

5. And whereas the number of Wardmasters, as required by the Ordinance aforesaid, is inconveniently large, and it is expedient to reduce the same, as also to substitute for residence within the ward for which the Wardmaster shall be chosen, residence within the district to which the ward belongs, and, moreover, to make provision for enabling Wardmasters who attend to and perform the duties of their office, to receive, should it be deemed necessary and expedient, some species of reward,—Be it enacted, that, from and after the commencement and taking effect of this Ordinance, one Wardmaster and no more shall be elected for each ward of the said Municipality, at each election of Wardmasters, and that any resident householder residing within any district of the Municipality shall be eligible to be elected a Wardmaster for any ward included in such district; and that it shall and may be lawful for the Commissioners of the said Municipality for the time being to frame, if they should so think fit, a Municipal Regulation for affording to the several Wardmasters of the Municipality, in such manner and form, and under such conditions, as shall seem most just and expedient, some species of reward, for the due and proper performance, by such Wardmasters, of their various duties; and such Municipal Regulation, when duly approved and published, shall be valid and effectual.

6. And be it enacted, that this Ordinance shall commence and take effect from and after the promulgation thereof.

WM. HOPE,
Clerk of the Legislative Council.

Draft of an Ordinance,

Presented by His Excellency the Governor to the Legislative Council of the Cape of Good Hope,

For amending the Law relative to Public Meetings.

WHEREAS by a Proclamation of His Excellency the then Governor Lord CHARLES HENRY SOMERSET, bearing date the 24th of May 1822, the said Governor saw fit to declare and enact that Public Meetings convened, without the sanction and authority of the Governor, for the time being, or when such sanction or authority cannot be conveniently obtained,—without the sanction and authority of the Chief Local Magistrate, for the discussion of Public Measures and Political Subjects, were, and should be deemed, to be contrary to Law, And whereas there is nothing in the state and condition of this Colony which requires or justifies the continuance of a restraint so inconvenient and invidious, upon that liberty of speech and freedom of discussion which Her Majesty vouchsafes to regard as the birth-right of Her Subjects: And whereas it is expedient to remove the said restraint:—Be it therefore enacted by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof, that the Proclamation aforesaid of the 24th May 1822, and every other law heretofore in force in this Colony, whereby Public Meetings for the discussion of Public Measures and Political Subjects, are declared or constituted illegal, unless held with or under the previous sanction and authority of the Governor of the Colony for the time being, or of some other Functionary or Magistrate, shall be repealed, and the same are hereby repealed accordingly.

2. And be it enacted, that this Ordinance shall commence and take effect from and after the promulgation thereof.

WM. HOPE,
Clerk of the Legislative Council.

Office of Board of Commissioners,
Cape Town, October 25, 1848.

THE Board appointed to investigate Claims on account of Supplies obtained on Requisition of the Civil Authorities, for the use of the Burghier Force called out against the Kafirs in the late War,—hereby give notice, that they are about to complete and close their List, preparatory to their Report.

All parties, therefore, having Claims of this nature, including Claims for Wagons, Oxen, Horses, &c., lost by members of the Force whilst on actual Service, who have not already sent in, either through the Civil Commissioners of their respective Divisions, or through other channels, are requested to lose no time in forwarding them.

It is proper to observe that Claims for losses by the incursions of the enemy, or losses deemed to have been consequent upon the existence of a state of war, do not fall within the duties of this Board, inasmuch as a distinct Commission for the investigation of such Claims has been appointed by His Excellency the Governor,—of which the Hon'ble WILLIAM COCK, Esq., is the Chairman. This fact, however, will not render a renewal of applications necessary, as all Claims for such Losses, which have been already received, shall be forwarded to that Commission, so soon as the Vouchers, &c., shall be fully classified and arranged.

J. HARVEY, C.M. Rifles, Recruiting Officer

THE Central Board of Commissioners of Public Roads have directed it to be notified, for general information, that the new Pass through Mosterd's Hoek, and also the new Gydow Pass, to the Cold Bokkeveld, as well as the new Pass through the Karoo Poort to the Interior of the Colony, will be opened for the use of the public on the 1st of December next by His Excellency the Governor.

In accordance with the request of the Board, His Excellency the Governor has consented that the new Pass through Mosterd's Hoek shall be named "the Michell Pass."

The Board have at the same time ordered the publication of the following Correspondence, in order that the Public generally may be made aware that they have been steadily engaged in the peculiar labors for which they were appointed, viz., in opening Mountain Passes, filling up Ravines, and constructing Bridges over the Rivers which intersect the Main Roads of the Colony.

By order of the Board,
W. DE SMIDT, Secretary.

Office of the Central Board of Commissioners of Public Roads, Cape Town, 18th Oct. 1848.

SIR.—I am directed by the Central Board of Commissioners of Public Roads to acquaint you, for the information of His Excellency the Governor, that the new line of Road through Mosterd's Hoek, the Warme Bokkeveld, Hottentot's Kloof, &c., being newly completed, will be ready for opening for the use of the Public on the 1st December next. I am further desired to communicate to you the substance of the report, which has been presented to the Board by Mr. Bain, the Inspector of Roads, under whose able superintendence the work has been conducted; and from a perusal of which His Excellency will be enabled to appreciate the difficulties that have been surmounted in the construction of this Pass.

In place of the old road through Mosterd's Hoek, one of the worst and most dangerous in the Colony, a safe and easy Pass has now been substituted.

The constant crossing and recrossing of the Breede River is avoided by the new line, which is carried along the right bank of the river, nearly parallel with it, till it emerges into the Warme Bokkeveld.—For a length of about five and a half miles it is scarped almost entirely out of the solid rock, and is strengthened by a retaining wall, varying from three to forty feet in height.

A massive stone bridge, 36 feet in height, and several stone culverts and viaducts, besides a number of drains of considerable extent, have been rendered necessary by the numerous gullies and ravines which intersect the line. With the exception of a hundred yards, which are not yet completed, the whole of this stupendous work has been constructed in little more than two years, by convict labour. That portion of it, which has been constructed by blasting, has required much labour and exertion, the rock being of a rough quartzose sandstone, frequently containing imbedded pebbles of pure quartz, in many parts exceedingly hard to drill, and so tenacious as to be very difficult to blast.

In connection with this Pass I am desired to announce the completion of the New Road from Mosterd's Hoek to the Karoo Poorts, and of the Gydow Pass to the Cold Bokkeveld.

The former of these passes through the Warme Bokkeveld, in a direct line about twenty-eight miles in length, avoiding the circuitous turnings of the Old Road, and is carried over the precipitous chain of mountains, between the Bokkeveld and the Karoo, by a deep scarp carried up the side of the mountain for one and a half mile, supported by a stone retaining wall, and is conducted to the lowest summit of the chain known as "Trek Pad," through which all the sheep and cattle pass from the interior to the Cape Town Market; whence it descends by an easy road down Hottentot's Kloof to the poorts of the Karoo. At the bottom of the Kloof, where the outspan place is, two large tanks will be constructed, thus opening the springs which have long been choked up.

The Gydow Pass was completed in July last. For six miles from Mosterd's Hoek no natural obstacles, of great difficulty, present themselves on this line of Road.

The road up the mountain is scarped from the hill side, and fortified by high and strong retaining walls.

The Dwars River is crossed by a bridge, and beyond the Road is defended by retaining walls, varying from two to ten feet in height.

The whole length from the opening of the Mosterd's Hoek Pass to the Cold Bokkeveld is twelve miles.

The advantages which will result from the opening of the Mosterd's Hoek Pass and the roads connected with it can scarcely at present be estimated with any degree of correctness. The pass will form the grand focus of the interior trade from Cape Town and the "Boveland," besides opening up the extensive territories of the Klein, Middel and Onder Roggevelden, Hantam, Nieuweveld, Warm and Cold Bokkevelde, &c., which are among the most fertile and productive, though hitherto the least known districts, of the Colony.

It may not be amiss to mention that the Bokkeveld, despite of all the disadvantages which are now about to be removed, has established its name at Mark Lane as "producing the best wheat in the world," which will, of course, be very greatly increased, in quantity at least, by the greatly increased facilities of export.

The following extracts from Mr. Bain's report are too interesting, in the Board's opinion, to be omitted:

"One of the most important advantages which the

New Road will possess over the Old, is the distance gained, as the following statement will show:

"From the outspan place at Mr. Theron's, Breede River, where the Old and New Roads intersect at right angles, the distance by Worcester, Hex River, and to Carel van der Merwe's, near Karoo Poort, is fifteen hours on horseback; which, at the rate of six miles per hour, amounts to ninety miles.

"From Theron's to Carel van der Merwe's, by Mosterd's Hoek, Hottentots Kloof, &c., is six hours or thirty six miles, being a saving of fifty four miles!

"By the Old Road at least fourteen oxen are required for an ordinary load; by the New, eight will be more than sufficient, besides the saving of the heavy tax, of from thirty to sixty Rds. which most travellers are compelled to pay for relays to drag their wagons through Hex River Kloof and up the mountain."

"The lock chain, that indispensable requisite of African travelling by the Old Road, can be entirely dispensed with on the New, as the gradient is in no place so steep as to require one; and the dangers and delays from deep and rapid rivers, which the Old Road so constantly presents, will be found entirely absent from the New."

"Thus have I endeavoured to show some of the advantages the public derive from the Mosterd's Hoek New Road, and as I have already commenced the continuation of this great trunk line, in the direction of Bain's Kloof, Wellington, &c., to Cape Town, I shall state the distances that will be saved by the adoption of this line."

"From Theron's outspan place, Breede River, to Cape Town, via Bain's Kloof, nine and a half hours!

"From Theron's to Cape Town, via New Kloof, thirteen and a half hours, which shows a saving in favor of Bain's Kloof of four hours, or twenty four miles!

"These 24 miles, added to the 54 gained by taking the Mosterd's Hoek Road, give (in the whole of the New line from Cape Town to C. van der Merwe's) the moderate saving of 78 miles."

"The Inhabitants of Worcester, Goudine, Hex River, Bosjeveld, Kogman's Kloof, &c., will, in an especial manner, benefit by the opening of Bain's Kloof, as the following distances will show."

"From Worcester to Cape Town, via Bain's Kloof, 12 hours."

"From Worcester to Cape Town, by New Kloof, eighteen hours, which shows a saving in favor of the new line between Worcester and Cape Town of six hours or 36 miles!"

"The curtailing of our roads will bring a vast influx of produce to market, which, at present will not pay the carriage, and as the new line will be perfectly available for the lightest spring vehicle, I do not despair in a few years of seeing our clumsy ox wagon disappear before the march of civilization."

The first of December next will be the first anniversary of the arrival of His Excellency the Governor among us, and if His Excellency would honor the Board by opening the Mosterd's Hoek Pass in person on that day, the Public would be highly gratified.

I am directed to submit the Board's opinion, in consideration of the great ability and exertions of the Surveyor General and Civil Engineer, who surveyed the ground and prepared the plans for this great work, as well as for the other great mountain barriers throughout the Colony, and whose loss is indeed a public calamity, that a no more appropriate title could be chosen for the new Road through Mosterd's Hoek, than the "Michell Pass," if His Excellency will be pleased to sanction it.

I have the honor to be,

Sir,

Your most obedient Servant,
W. DE SMIDT, Sec.

Colonial Office, 25th October 1848.

SIR.—In reply to your letter of the 18th instant, I am directed by His Excellency the Governor to inform you, that he will have much pleasure in being present to open the Mosterd's Hoek Pass on the 1st December next, and that he entirely concurs with the Commissioners of the Board in the selection which they have made of a name for the new Pass.

I have the honor to be,

Sir,

Your most obedient servant,
JOHN MONTAGU.

The Secretary to the Central Board of Commissioners of Public Roads.

GOVERNMENT NOTICE.

Colonial Office, Cape of Good Hope,
25th October 1848.

WITH reference to the accompanying letter of this date, addressed to the Acting Surveyor General, which His Excellency the Governor has directed to be published for general information,—His Excellency has been pleased to appoint the following Gentlemen to be members of the Board of Commissioners for Lands in the Division of Albert, viz.:—

MURRELL ROBINSON ROBINSON Esq., President.
Captain CHRISTOPHER THOMAS BIRD.

The Field-Commandant JAN OLIVIER.

By Command of His Excellency the Governor,
(Signed) JOHN MONTAGU,
Secretary to Government.

Colonial Office, Cape Town,
25th October, 1848.

To the Acting Surveyor-General.

SIR,—His Excellency having been pleased to appoint the Assistant-Surveyor-General, Mr. ROBINSON, to be President of a Commission instituted for the purpose of inquiring into the various Claims of the Farmers in the

Division of Albert to the Lands in their occupation, I have, by desire of His Excellency the Governor, to transmit to you his Instructions to Mr. ROBINSON to proceed as soon as possible to that Division, and there, having fixed on some convenient place of meeting, to give notice of the first sitting of the Commission to Captain C. J. BIRD and the Field-Commandant JAN OLIVIER, who have also for the present been appointed Members. The Commission will afterwards move from place to place, as may be found most convenient for despatch of business.

2. The Commission having assembled, the President will read, and the Secretary will record, the present Instructions; and the Secretary will keep a copy, as the general Rule of the Proceedings, for ready reference at each sitting.

3. Captain C. T. BIRD will act as Secretary of the Commission, and will preserve the Minutes of the Proceedings, which shall be read, confirmed, or, if necessary, amended, and verified by the signatures of all the Members at the opening of the ensuing sitting.

4. The Commission will be subject to such addition and alteration of Members as from time to time may be found expedient; and any Member dissenting from the Reports will be at liberty to note his reasons, and attach them to the Minutes and Reports.

5. The Commission are entrusted by His Excellency with the investigation of all Claims to Land in the Division of Albert; which Claims, as they are received, shall be regularly numbered and entered in a Register, which shall have separate columns for reference to the Reports thereon; and other matters, so as to present briefly a view of the course of proceeding in each case.

6. The Commission are further entrusted with the investigation and provisional decision, on the spot, of all cases of disputed Boundaries between the Lands appertaining to contiguous Farms.

7. The Commission are further charged with the duty of assessing the extent of Land to be ceded under every Claim which they shall decide on recommending as sufficient to warrant a Grant by His Excellency the Governor.

8. The Commission will carefully assess the value of each such extent, for the purpose of fixing the Quitrent.

9. In the performance of these duties, the Commission will be guided generally by the principles contained in the following remarks; always, however, recollecting that it is the wish of the Governor to adopt as liberal a line of policy as His Excellency can, with reason follow out in dealing with the Claimants,—so that the Commission are not debarred from bringing to His Excellency's notice even such unsupported, or insufficiently supported, Claims as they may deem worthy of attention, either from the merits of the individual case, or on account of the general welfare of the Division.

10. The only Claim which can be allowed must rest upon fixed occupancy of Land at the date of the annexation of the Division to the Colony, viz., 9th January last; and the number of Cattle or Sheep, &c., and the extent of Cultivation, must be taken by the Commission as the grounds for recommending comparatively the extents to be granted under each Claim. The proof of the fact and extent of such occupancy may be given by certificate of any Field-Commandant, Field-cornet, or other respectable Inhabitant, to the satisfaction of the Commission.

11. When two or more Claims are made for the same Land, further proof must be obtained, and each Claim must show on its face a reference to all the opposing Claims affecting it. The Commission will report fully their opinion as to the equitable decision thereof.

12. Many Claimants may have fully occupied a much larger extent than 3000 morgen,—the limit beyond which His Excellency is unwilling to sanction or grant; but in most of such cases it will probably be ascertained that various members of the family are living on the Homestead, and that their Flocks and Herds are separate property, although grazing in common. It is within the duty of the Commission to recommend on a separate Claim, a separate Grant to each Person, of such extent as to make up the quantity fully occupied, stating clearly the circumstances; otherwise, when requested, the excess above 3000 morgen may be put up for public Sale, at an Upset Price of not less than Two Shillings an acre, as fixed by the Regulations of Her Majesty's Secretary of State.

13. In the provisional decision of disputed Boundaries, the Commission are left to their own sense of justice. It will, however, be well to preserve a short note of the grounds of the decision, to be forwarded when the final approval of Government is required.

14. In the assessment of the value of Land, for the purpose of taking a percentage thereof as the fixed Quitrent, the Commission are carefully to avoid the imposition of any unequal burden on the industrious, by the valuation of past improvements of any description. They are to assess the value of the Land in a state of Nature, according to its capability of improvement. The Quitrent is to be paid from the date of the annexation of the District to the Colony, viz., 9th January last.

15. In all cases, whenever it can be fairly accomplished, the Land is, if possible, to be so divided as to leave equal portions of Water to equal extents of Ground, whether claimed or unclaimed Government Land, so that a monopoly of the former may not ensue to the adjacent owners an undue use of the latter.

16. The Reports of the Board are to show clearly in one Section the whole of the Servitudes to be inserted in the Grants, beyond the usual Conditions, and any that may be decided on as generally applicable to the whole of the Grants issued in the Division, such as for Water Courses, Roads, &c. &c.

17. The Commission are provisionally to decide on the Reservations necessary for Outspan, Sites of Villages, and other public purposes,—and are, if possible, to provide for the allotment of similar Lands in the vicinity, to meet the Claims to such Reserves.

18. In every clear and undisputed case, the Commission will immediately issue a Land Ticket to the Claim-

ant, and register a Duplicate in the Commission Records. This Ticket should contain a short description of the Land, its situation and extent; it may be made transferable by endorsement, and will be exchanged for a regular Title Deed as soon as possible,—but if lost or mislaid before that time, it must be advertised three months, at the expense of the Claimant, before the regular Title Deed can be issued in his name.

19. All surplus Lands after satisfaction of claims are to be sold by Auction under the Government Regulations dated 15th May 1844. Copy of which is annexed. The Commission will superintend their division into Lots, and report as to the times and places best suited for offering such lands for sale.

20. The Commission will immediately take measures for putting up to public sale such a number of the lots of land in the proposed Villages, as they may the judge expedient for the interests of Government, and the improvement of the District,—and for that purpose, they will as soon as possible transmit the usual lists and recommendations as to upset prices, plan of sale, &c., so that the necessary Proclamation may be published.

The Commission will probably find it inconvenient or inexpedient to adhere strictly to the foregoing general rules, which are to be looked on as defining the general fixed principles, and as containing His Excellency's wishes on the subject, and considerable latitude is consequently authorized; but as it is necessary that the opinions and decisions of the Commission should be guided by some certain general principles, any important deviations from those above explained must be immediately reported, for the approval of His Excellency the Governor.

22. Every facility will be afforded by this Office to aid the Commission in their labors, and you are directed to afford similar assistance in your Department, and especially attend to the immediate transmission of all Reports and Claims.

23. The Reports of the Commission on each Claim are to be forwarded through the Surveyor-General's Department, so as to provide for effectual Registry; and all Correspondence with the Government, connected with this Commission, is to be conducted through the medium of the Surveyor-General.

I have the honor to be,

Sir,

Your obedient Servant,

(Signed)

JOHN MONTAGU,

Secretary to Government.

No little surprise has been occasioned lately by the smart and elegant appearance of Gentlemen in the City of Cape Town, both in the Ball-room and on the "Parade," the Exchange, and in the Office. This great mark of civilization has even extended itself into the country, and the question has been frequently put

How is it?

The fact is, that all may be attributed to the silent but effectual influence of one

whose ingenuity is quietly at work, whilst others are out of Hum(e)our and puffing that they can imitate him, but all to no purpose;—"once bit, twice shy."

KAAPSTAD DEN 2DEN NOVEMBER 1848.

GOVERNEMENTS KENNISGEVING.

Koloniale Secretary, Kaap de Goede Hoop.

25 October 1848.

MET betrekking tot den nevensgaanden brief van dezen datum, geadresseerd aan den Fungerenden Inspecteur Generaal, welke Zyne Excellentie heeft gelast tot algemeen narigt te publiceren,—heeft Zyne Excellentie goedgevonden de volgende Heeren aan te stellen tot Leden van het College van Landeryen, in de Afdeling Albert:—
De Hr. MURREL ROBINSON ROBINSON, President.
Kapt. CHRISTOPHER THOMAS BIRD.
Veldkommandant JAN OLIVIER.

Ter Ordonnantie van Z. E. den Gouverneur,
(Get.) JOHN MONTAGU,
Gouvernements Secretaris.

Koloniale Secretary, Kaapstad, 25 Oct. 1848.

Aan den Fungerenden Inspecteur Generaal.

MYNHEER,—Zyne Excellentie hebbende goedgevonden den Fungerenden Inspecteur Generaal, den Hr. ROBINSON, aan te stellen tot President van eene Commissie, te worden ingesield om onderzoek te doen naar de onderscheiden vorderingen van de Landlieden in het district Albert, op de Landeryen door hen bezeten, moet ik op last van Zyne Excellentie den Gouverneur u zyne instructies aan den Hr. ROBINSON toezenden, om zich zoo spoedig mogelijk naar die Afdeling te begeven, en daar eene geschikte plaats voor de byeenkomst hebbende bepaald, kennis te geven van de eerste zitting van de Commissie, aan Kapt. C. T. BIRD, en aan Veldkommandant JAN OLIVIER, die mede voor het tegenwoordige tot Leden zijn aangesteld. De Commissie zal zich vervolgens bewegen van plaats tot plaats, zoo als het geryfelyk zal worden bevonden voor het verrigten van bezigheid.

2. De Commissie vergaderd zynde, zal de President de tegenwoordige instructies lezen, en de Secretaris dezelve notuleren, en de Secretaris zal eene copy bouden, als de algemeene regel van de verrichtingen, tot gereede referentie by iedere zitting.

3. Kapt. C. T. BIRD zal fungeren als Secretaris van de Commissie, en zal de Minuten der verrichtingen bewaren, welke zullen worden gelezen, bevestigd, en des noods, gemaakte en goedgekeurde door de ondertekeningen van al de Leden by het openen van de volgende zitting.

4. De Commissie zal onderhefing van zoo danige vermeerdering of verandering van Leden, als van tyd tot tyd raadzaam zal worden bevonden, en ieder Lid, dat distinkt van de Rapporten, zal de vrijheid hebben zyne redenen aan te teekenen, en dezelve te hechten aan de Minuten en Rapporten.

5. De Commissie is door Zyne Excellentie belast met het onderzoek van alle vorderingen op Land, in de Afdeling Albert, welke vorderingen, naar mate dezelve zullen worden ontvangen, geregeld zullen moeten worden genomen, en ingeboekt in een register, dat afzonderlyke kolommen zal moeten bevatten, voor referentie tot de Rapporten daarop, zoo dat hetzelfde een kort overzicht geeft van den staat van iedere zaak.

6. De Commissie is verder belast met het onderzoek, en de provisionele beslissing, op de plaats, van alle zaken van betwiste grensscheidingen tusschen de Landeryen behoorende tot aangrenzende plaatsen.

7. De Commissie is verder belast met de pligt van het bepalen van de uitgestrektheid van land, te worden afgestaand onder iedere vordering, welke zy zullen besluiten te recomanderen, als voldoende voor het regtvaardigen van eene vergoeding door Zyne Excellentie den Gouverneur.

8. De Commissie zal nauwkeurig de waarde beramen, van iedere zoo danig uitgestrektheid, ten einde de erfpacht te bepalen.

9. In het volbrengen van dezen pligt zal de Commissie in het algemeen moeten te werk gaan naar de principes bevat in de volgende aanmerkingen; echter altyd in het oog houdende dat het het verlangen is van den Gouverneur de liberaalste lyn van staatkunde te volgen, welke Zyne Excellentie met reden kan volgen, in het handelen met de vorderaars,—zoo dat de Commissie niet is belet ter kennis van Zyne Excellentie te brengen, zelfs zoo danige ongesteunde, of niet genoegzaam gesteunde vorderingen, als zy der aandacht zullen waardig keuren, hetzy uit reden van de verdiensten van het byzondere geval, of om reden van het algemeene welzijn van de afdeling.

10. De eenige vordering welke kan worde toegelaten moet steunen op gevestigde occupatie van Land, op den datum van het aanhechten van de Afdeling aan de Kolonie t.w. den 9ten January 11; en het getal vee of schapen enz, en de uitgestrektheid van bebouwing moeten door de Commissarissen worden aangenomen als een grondslag, voor het recomanderen, in vergelyking, van de uitgestrektheid te worden vergoed onder iedere vordering. Het bewys van de daadzaak en uitgestrektheid van zoo danige occupatie, kan worden gegeven by certificaat van eenigen Veldkommandant, Veldkornet, of ander deffig Ingezeten, naar genoegen van de Commissie.

11. Wanneer twee of meer vorderingen voor hetzelfde land worden ingebracht, moet verder bewys worden bekomen, en iedere vordering moet eene referentie bevatten van alle tegenstelde vorderingen die daarop betrekking hebben. De Commissie zal volledig deszelfs gevoelen moeten rapporteren tot de behoorlyke beslissing daarover.

12. Vele vorderaars hebben ten vollen een veel grooter uitgestrektheid geoccupeerd dan 3000 morgen,—de uitgestrektheid boven welke de Gouverneur ongeezind is te vergoeden, waarin de meeste van zoo danige gevallen sal het waarschylyk worden bevonden dat onderscheiden leden van de familie op de plaats wonen, en dat hun vee afzonderlyk eigendom is, schoon te zamen weidende. Het is

birnen de pligt van de Commissie te recomanderen op eene afzondelyke vordering, eene afzondelyke vergoeding aan ieder persoon, van zoo danige uitgestrektheid, om de hoeveelheid ten volle geoccupeerd uit te maken, meldende duidelyk de omstandigheden; anders, verzocht wordende, zal het excess boven de 3000 morgen publiek kunnen worden verkocht, tegen eene inzet prijs van niet minder dan 25. per acre, als bepaald by de regulatie van Harer Majesteits Secretaris van Staat.

13. In de provisionele beslissing betwiste grensscheidingen, wordt de Commissie overgelaten aan deszelfs eigen gevoel van regtvaardigheid. Het zal echter wel zyn eene korte nota te bewaren van de gronden van de beslissing, om te worden ingezonden wanneer de finale beslissing van het Gouvernement noodig is.

14. In de berekening van de waarde van Landeryen, tot het einde van het nemen van eene procentage daarvan, als bepaald erfpacht, moet de Commissie voorzigtig zyn om het opleggen van ongelijke lasten te vermyden, door het waarden van gemakke verbeteringen van welken aard ook. Dezelve moet de waarde van het land berekenen, in eenen staat der natuur. De erfpacht moet worden betaald van den datum van het aanhechten van het District aan de Kolonie, t.w. den 9ten January 11.

15. In gevallen waar het gemakke geschieden kan, moet het land, zoo mogelyk, zoo worden verdeeld, om gelyke hoeveelheden water te laten aan gelyke uitgestrekheden Land, hetzy gevorderde of ongevorderde Gouvernements Grond, zoo dat een monopolie van het eerste aan den naasten eigenaar geen onbetamelijke voorregt boven de laatste zal geven.

16. De Rapporten van de Commissie moeten duidelyk toonen, in iedere sectie, al de servituten welke in de vergoeding moeten worden ingevoegd, boven de gewoone voorwaarden, en allen die kunnen bepaald worden als algemeen toepasselyk op al de vergoedingen, in de Afdelingen uitgegeven, zoo als voor waterloopen, wegen enz.

17. De Commissie moet by voorraad beslissen op de reservatien noodig voor uitspan plaatsen, voor plaatsen van dorpen, en andere publieke elinden,—en, zoo mogelyk, voorzien voor de toewyzing van gelyke landen in de nabijheid, om te voldoen aan de vorderingen op zulke reserven.

18. In iedere klare en onbetwiste zaak, zal de Commissie dadelyk eene Landlicket uitgeven aan den Vorderaar, en een duplicaat registreren in de Notulen van de Commissie. De Ticket moet bevatten eene korte beschryving van het Land, deszelfs ligging en uitgestrektheid, deszelve kan transportabel worden gemaakt by endossement, en zal worden vervuld voor een geregeld grondbrief zoo spoedig als mogelyk is,—maar verloren of mislegd zynde voor dien tyd, moet het gedurende drie maanden worden geadverteerd op kosten van den Vorderaar, voor de geryfelde Grondbrief op zynen naam kan worden uitgevaardigd.

19. Alle overige Landeryen na het voldoen aan de vorderingen, zullen by publieke veiling worden verkocht, onder de Gouvernements regulatie van 15 Mei 1844, waarvan eene copy is geannexerd. De Commissie zal het tezig hebben over dierzelver verdeling in percelen, en rapporteren op de tyden en plaatsen best geschikt om dezelve op te veilen.

20. De Commissie zal dadelyk maatregelen nemen voor het opveilen van zoo danige percelen Land in de voorgestelde Dorpen, als dezelve dienstig zal oordeelen voor de belangen des Gouvernements, en de verbetering van het District, en tot dat einde zal dezelve zoo spoedig mogelyk tde gewone lysten en aanbevelingen ten aanzien van inzet pryzen, plan van verkoop, enz. moeten inzenden, op dat de noodige Proclamatie kan worden gepubliceerd.

21. De Commissie zal het waarschylyk ongelegen of ondienstig vinden zich stiptelyk te houden aan de bestaande algemeene regulatie, welke moeten worden beschouwd als bepallende de algemeene vaste principes, en als bevattende Zyner Excellenties verlangens op het onderwerp, en aanzienlyke ruimte wordt gevolglyk geauthoriseerd, maar daar het noodig is dat de gerolens en beslissingen van de Commissie zullen worden geleid door zekere algemeene principes, moeten alle aanmerkelyke afwykingen van die boven verklaard, dadelyk worden gerapporteerd ter goedkeuring van Zyne Excellentie den Gouverneur.

22. Alle gemak zal door dit Kantoor worden verleend om de Commissie te helpen in hare verrichtingen, en gy wordt gelast gelyk gemak in uw Departement te verleenen, en byzonder te zorgen voor het dadelyk overzenden van alle Rapporten en Vordering.

23. De Rapporten van de Commissie, op iedere Vordering moeten worden ingezonden door het Departement van den Inspecteur Generaal, om te voorzien voor de behoorlyke registratie, en alle correspondentie met het Gouvernement, in verband met deze Commissie moet plaats vinden door middel van den Inspecteur Generaal.

Ik heb de eer te zyn,

Mynheer,

Uw onderdanige Dienaar,
(Get.) JOHN MONTAGU,
Gouvernements Secretaris.

Kantoor van het Centrale College van Commissarissen van Publieke Wegen, Kaapstad, 23 Oct. 1844.

HET Centrale College van Publieke Wegen heeft gelast bekend te maken tot algemeen nariet dat de Nieuwe Pas door de Mosterds Hoek en mede de nieuwe Gydow Pas, naar het Koude Bokkeveld, zoo wel als de Nieuwe Pas door de Karoo Poort, naar de Binnendeelen der Kolonie, voort het Publiek gebruik zullen worden geopend op den 1 December aanst., door zyne Excellentie den Gouverneur.

Volgens verzoek van het College heeft Zyne Excellentie toegestemd dat de Nieuwe Pas door Mosterds Hoek zal worden genaamd "de Mitchell Pas."

Het College heeft te gelyker tyd de publicatie gelast van de volgende correspondentie, ten einde het publek moge worden bekend gemaakt, dat hetzelfde bestendig is bezig geweest in de byzondere pligt waarvoor het is aangesteld, t.w.: in het openen van Berg Passen, het opvullen van Kloten en het maken van Bruggen over de Rivieren welke de groote wegen der Kolonie doorsnyden.

Namens het College,

W. DE SMIDT, Sec.

Kantoor van het Centrale College van Commissarissen van Publieke Wegen, Kaapstad, 18 Oct. 1848.

Mynheer,—Ik ben gelast door het Centrale College van Commissarissen van Publieke Wegen, U.E. bekend te maken, tot nariet van Zyne Excellentie den Gouverneur, dat de nieuwe lyn van weg door de Mosterds Hoek, het Warme Bokkeveld, Hottentotskloof, enz., onlangs zynde voltooid, op den 1sten December aanst. zal gereed zyn om voor het Publiek te worden geopend. Ik ben verder gelast U.E. de zelfstandigheid te melden van het rapport dat aan het College is gepresenteerd door den Hr. Bain, den Inspecteur van Wegen, onder wiens bekwam toezicht het werk voltooid is, en uit welke lezelyk u Excellentie in staat zal zyn de moeyelykheden te begrypen, welke men in het vormen van de Pas moest te boven komen.

In plaats van den ouden Weg door de Mosterds Hoek, een van de moeyelyke en gevaarlyksten in de Kolonie, is nu een veilige en gemaklyke Pas daargesteld.

Het gestadig over en weder trekken van de Breederivier is ontgaan door de nieuwe lyn, gaande langs de linker oever van de rivier, byna evenwydig met dezelve, tot dezelve uitkomt in het Warme Bokkeveld, gedurende een lengte van byna vyf en een halve myl, is dezelve byna geheel uit de vaste rots gehouwen, en versterkt door een steunmuur van drie tot veertig voeten hoog.

Een massive steenen brug van 36 voeten hoog, en verscheiden steenen waterpangen en bruggen, benevens talryke waterloozingen van aanzienlyke uitgestrektheid, zyn noodig gemaakt door de talryke gulen en klooven welke de lyn doorsnyden. Met de uitzondering van honderd yards, welke nog niet voltooid zyn, is het geheel van dit ontzettende werk volbragt in weinig meer dan twee jaren, door bandieten arbeid. Dat deel er van dat heeft moeten worden gemaakt door mineren, heeft veel moeite en arbeid gekost, zynde de rots een ruwe quartzachtige zandsteen, bevattende dikwyls klompen van zuivere quartz in veel, deelen zeer hard om te houen, en zoo taan, dat men dezelve maar met moeite kon doen springen.

Verbonden met deze Pas, ben ik gelast de voltooying te melden van den nieuwen Weg van Mosterds Hoek naar de Karoo Poort, en van de Gydow Pass naar het Koude Bokkeveld.

De eerste van deze passen door het Warme Bokkeveld, in eenen directen lyn omtrent 2½ mylen lang, vernieuwende de wendingen van de Oude Weg, is gevoerd over een steile bergketen tusschen het Bokkeveld en de Karoo, door een diepe schuinite langs den zyde van den berg, ander half myl lang, geschnaagd door eenen steenen steunmuur, en wordt gevoerd over de laagste top van de keten bekend als "Trekpad," waardoor al de schapen en het vee uit de binnendeelen naar de Kaapstads markt gevoerd worden, van daar gaat dezelve langs een gemaklyke weg af door de Hottentots Kloof, naar de poort van de Karoo. Aan de bodem van de Kloof, waar de uitspan plaats is, zullen twee groote waterbakken worden gevormd, openende dus de fonteynen welke lang verstopt zyn.

De Gydow Pas is voltooid in July 11. In zes mylen van Mosterds Hoek hebben zich geen natuuryke hinderpalen van groote moeyelykheid voorgedaan.

De weg bergop is uit de zyde van den berg uitgekapt, en bevestigd met sterke steunmuren.

De Dwars Rivier wordt overspannen door een burg, en verder is de weg beschermd door steunmuren van twee tot tien voeten hoog.

De geheele lengte van de opening van Mosterds Hoek Pas tot het Koude Bokkeveld is 12 mylen.

De voordeelen welke zullen ontstaan uit het openen van de Mosterds Hoeks Pas en de wegen daar mede verbonden kunnen tegenwoordig niet nauwkeurig berekend worden. De pas zal het groote brandpunt uit maken van den handel van de Kaapstad met het "Boveland" behalve het openen van de Klein, Middel en Onder Roggevelden, Hantam, Nieuweveld, Warme en Koude Bokkeveld, behorende tot de vruchtbaarste, maar tot nu toe minst bekende deelen der Kolonie.

Het zal niet verkeerd zyn te melden dat het Bokkeveld, in spyt van deszelfs nadeelen, welke nu zullen worden uit den weg geruimd, deszelfs naam heeft bekend gemaakt in Mark Lane als "voort brengende het beste koren ter wereld" dat natuuryk, grootelyks zal worden vermeerderd, ten minste in hoeveelheid, door de grootelyks vermeerderde gemakken van uitvoer.

De volgende uittrekselen uit het rapport van den Heer Bain, zyn in het gevoelen van het College te belangryk om te worden uitgelaten.

"Een van de belangrykate voordeelen welke de Nieuwe Weg zal bezitten over den Ouden, is de gewoone afstand, zoo als de volgende opgave zal toonen.

"Van de Uitspanplaats by den Heer Theron aan Brede Rivier, waar de Oude en Nieuwe Wegen elkaander byna regthoekig snyden, is de afstand langs Worcester, Heks Rivier, en naar Carel van der Merwe, naby Karroo Poort,

vyftien uren te paard, dat tegen zes mylen per uur, negentig mylen is.

"Van Theron naar Carel van der Merwe, door Mosterds Hoek, Hottentots Kloof, enz., is 6 uren, of 36 mylen zynde een besparing van 54 mylen.

"Langs den Ouden Weg waren ten minsten 14 Ossen noodig voor een gewoone vracht, langs den Nieuwen zullen 8 meer dan genoegzaam zyn, behalve, het besparen van den zwaren last van 3 tot 60 Rds. voor voorspannen om de wagens door Heks Riviers Kloof en den Berg op te slepen.

"De remketting, dat onvermydelijk vereischte van reizen langs den ouden weg, kan geheel worden weg gelaten op den nieuwen, daar de daling nergens zoo steil is om dezelve noodig te maken; en de gevaren van verwyd door de diepe en snelle rivieren, welke de oude Weg zoo dikwyls aanbiedt zullen geheel weggewonnen zyn op den nieuwen.

"Ik heb dus getracht eenige voordeelen te toonen, welke het Publiek zal trekken uit den Mosterds Hoek nieuwen Weg, en daar ik reeds heb begonnen den voortgang van dezen hoofdweg te maken naar de Bainskloof, Wellington, enz. naar de Kaapstad, zal ik de afstanden melden welke zullen bespaard worden door het aannemen van dezen Weg.

"Van Theron's Uitspanplaats, Brede Rivier, naar de Kaapstad, over Bainskloof, negen en een half uren.

"Van Theron's naar de Kaapstad, over Nieuwekloof dertien en een half uren, toeneede een besparing ten voordeele van Bainskloof van vier uren of 24 mylen.

"Deze 24 mylen gevoegd by de 54 mylen gewonnen door Mosterds Hoeks Weg, geven in het geheel van den Nieuwen lyn van de Kaapstad, naar C. van der Merwe de matige besparing van 78 mylen.

"De Ingezeelten van Worcester, Goudinie, Heks Rivier, Boschjesveld, Kozmans Kloof, enz., zullen gelykelyk worden bevoordeeld door het openen van de Bains Kloof, zoo als de volgende afstanden zullen toonen.

"Van Worcester naar de Kaapstad, door Bains Kloof, 12 uren.

"Van Worcester naar de Kaapstad, door de Nieuwe Kloof, 18 uren, toeneede een besparing ten voordeele van den Nieuwen Weg tusschen Worcester en de Kaapstad van 6 uren of 36 mylen.

"Het bekorten van onze Wegen, zal een groote vermeerdering van Producten naar onze markt voeren, welke tegenwoordige kosten van vervoer niet goedmaken, en daar de nieuwe lyn van Weg gebruikbaar zal zyn voor de ligste wagens op veeren, wanhoop ik niet binnen weinige jaren, onze lompe Ossenwagens geheel te zullen zien verdwyzen voor de voortgang van beschaving."

De eerste December aanst. zal de eerste verjaring zyn van de aankomst van Zyne Excellentie den Gouverneur in ons midden en indien Zyne Excellentie het College wilde vereeren door het openen van den Mosterds Hoeks Pas, in persoon zou het Publiek daaruit groot behagen scheppen.

Ik ben gelast het gevoelen te verklaren van het College over de groote bekwamheid en inspanningen van den Inspecteur Generaal en Civilen Ingenieur, die den grond heeft opgemaakt en het plan heeft bereid voor dit grooten werk, zoo wel als voor de andere groot berg hindernissen over de Kolonie, en wiens verlies inderdaad een groote ramp is voor deze Kolonie, en dat geen geschikter naam kan worden gegeven aan den Nieuwen Weg door Mosterds Hoek, dan de "Mitchell's Pas," indien Zyne Excellentie kan goed vinden het goed te keuren.

Ik heb de eer te zyn,

Mynheer,

U.E. gehoorzame Dienaar,

W. DE SMIDT, Sec.

ORDINANCE.

Enacted by the Governor of the Colony of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof,

To Amend the Ordinance No. 1, 1840, entitled "Ordinance for the better regulation of the Municipal Board of Cape Town, and the vicinity thereof."

WHEREAS, by the 64th Section of the Ordinance No. 1, 1840, entitled "Ordinance for the better regulation of the Municipal Board of Cape Town and the vicinity thereof," it is provided (amongst other things) that no Commissioner of the said Municipality shall be allowed, either directly or indirectly, to become a contractor for any work to be done, or materials to be found, for the Commissioners of the said Municipality, by virtue of or for the purpose of the said Ordinance,—and that no Commissioner shall be allowed to tender for any such contract, either in his own name, or in the name of, or jointly with, any other person, on pain (amongst other things) of being considered to have vacated his office of Commissioner, *ipso facto*, and of becoming ineligible to be elected, at any future period, to serve as a Commissioner: And whereas since the passing of the said Ordinance No. 1, 1840, a certain Joint Stock Company or Co-partnership was formed in the City of Cape Town, called the Cape of Good Hope Gas Light Company, for the purpose of supplying the said City with Gas,—in which Company or Co-partnership a number of the inhabitants desirous of contributing to the safety, comfort, and embellishment of the said City,—and amongst others, certain of the Commissioners of the Municipality aforesaid,—became Shareholders: And whereas, on or about the fourth day of March 1847, a contract was duly entered into between the said Gas Company and the Commissioners of the said Municipality for the partial lighting with Gas of the said City, by the said Company, upon certain terms and conditions, and for certain payment and remuneration in the said contract specified: And whereas doubts exist whether those Shareholders of the said Gas Company who, at the time of the making of the said contract, were Commissioners of the said Municipality, or who, afterwards, and during the existence and operation of such contract, became such Commissioners, did not, by force of the said 64th section, vacate the office of Commissioner, and become ineligible to be elected, at any future period, to serve as such; and whether, moreover, the Board of Commissioners, of which such Shareholders have continued to act as members, has not been since then illegally constituted, and its acts and proceedings invalid: And whereas to disqualify Commissioners as often as the Board of which they are members shall enter, whether with their concurrence or without, into a contract, for any work to be done, or material to be found, by any Joint Stock Company in which such Commissioners chance to be Shareholders, would be at once oppressive to the individuals concerned, and prejudicial to the public interests, as well by limiting the choice of the Householders, in regard to eligible persons to be elected Commissioners, as by restraining Commissioners from promoting, by becoming Shareholders, Joint Stock Companies, formed for purposes of obvious utility: And whereas it is expedient to render valid all acts and proceedings of the said Commissioners in so far as the same might be impeached or questioned upon the ground aforesaid, or any similar ground, and also to amend the Ordinance aforesaid, in regard to the matter above recited, and to other matters also:—Be it enacted, by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof, that all and singular the provisions of the Ordinance aforesaid, so far as the same may be repugnant to, or inconsistent with, any of the provisions of this Ordinance, shall be repealed, and the same are hereby repealed accordingly.

2. And be it enacted, that no Commissioner of the Municipality of Cape Town, heretofore elected, shall be deemed or taken to have vacated his office of Commissioner, or to have incurred any manner of forfeiture or disqualification whatsoever, by reason merely that such Commissioner was or is a Shareholder in any Joint Stock Company in this Colony, with which Company, or the directors or managers of which Company, the Board of Commissioners of the Municipality to which such Commissioner belongs, or any former Board of Commissioners, shall have entered into any contract, dealing, or transaction whatsoever,—nor shall any act or proceeding of any Board of Commissioners be avoided, impeached, or questioned by reason merely that all or any of the Commissioners, or reputed Commissioners, by whom such act or proceeding was done or taken, were or was a Shareholder in any such Joint Stock Company as aforesaid, with which such Commissioners as aforesaid had entered into some contract or similar dealing or transaction.

3. And be it enacted, that no Commissioner of the said Municipality shall, from and after the commencement and taking effect of this Ordinance, be deemed

or taken to have vacated his office of Commissioner, or to have incurred any penalty or forfeiture whatever, by reason merely that the Board of Commissioners to which he belongs, or any former Board of Commissioners, shall have entered into any such contract, as is in the 64th section of the Ordinance aforesaid mentioned, or any other dealing or transaction, with the directors or other managers of any Joint Stock Company in this Colony; of which such Commissioner shall be a Shareholder or in which he shall be otherwise interested; nor shall any Shareholder or person otherwise interested in any Joint Stock Company, with which Company the Commissioners of the Municipality shall have entered into any executed or still subsisting contract, dealing, or transaction, be deemed or taken to be ineligible to be elected or to act as a Commissioner of the said Municipality, by reason merely of such contract, dealing, or transaction. Provided always that no Commissioner of the said Municipality, who is also such a Shareholder or so otherwise interested as aforesaid, shall be allowed to vote as a Commissioner upon the question of making or entering into any contract, dealing, or transaction with the Joint Stock Company in which he is interested; and any Commissioner who shall so vote, in contravention of this restriction, shall for every such offence forfeit the sum of £100.—Provided also that nothing herein contained shall be deemed or taken to prevent the Chairman of the said Commissioners, being such a Shareholder as aforesaid, from signing any such contract as by the 64th Section aforesaid is required.

4. And be it enacted that if, by reason of the number of any Shareholders as aforesaid who shall be such Commissioners as aforesaid, it shall, at any time happen, that there shall not be sufficient Commissioners competent to vote upon any such question as aforesaid,—to form a *quorum* for the transaction of such business, then the number deficient of such competent Commissioners shall, for the purpose of that question, but no other,—be supplied by Wardmasters not to being such Shareholders, be chosen by ballot by such competent Commissioners, and every Wardmaster so chosen shall, in regard to the discussion and determination of such question, be entitled to sit, deliberate, and vote as if he were such a Commissioner,—and shall, for all purposes of law, in regard to such question,—be received and regarded as if he were a Commissioner duly elected.

5. And whereas it has been found that to restrict the resident householders of every separate district of the said Municipality, in choosing Commissioners, to the choice of persons being the proprietors of landed property situate within such district, limits injuriously the number of persons worthy to be chosen,—Be it enacted, that the 10th section of the Ordinance aforesaid shall be, and the same is hereby repealed; and that any resident householder of the said Municipality, being the proprietor of landed property, situate within the said Municipality, of the value of not less than One Thousand Pounds Sterling, shall be eligible to be elected a Commissioner for any one of the districts of such Municipality, for the purposes of the said Ordinance.

6. And whereas the number of Wardmasters, as required by the Ordinance aforesaid, is inconveniently large, and it is expedient to reduce the same, as also to substitute for residence within the ward for which the Wardmaster shall be chosen, residence within the district to which such ward belongs, and, moreover, to make provision for enabling Wardmasters who attend to and perform the duties of their office, to receive, should it be deemed necessary and expedient, some species of reward,—Be it enacted, that, from and after the commencement and taking effect of this Ordinance, one Wardmaster and no more shall be elected for each ward of the said Municipality, at each election of Wardmasters, and that any resident householder residing within any district of the Municipality shall be eligible to be elected a Wardmaster for any ward included in such district; and that it shall and may be lawful for the Commissioners of the said Municipality for the time being to frame, if they should so think fit, a Municipal Regulation for affording to the several Wardmasters of the Municipality, in such manner and form, and under such conditions, as shall seem most just and expedient, some species of reward, for the due and proper performance, by such Wardmasters, of their various duties; and such Municipal Regulation, when duly approved and published, shall be valid and effectual.

7. And be it enacted, that this Ordinance shall commence and take effect from and after the promulgation thereof.

GOD SAVE THE QUEEN!

Given at the Cape of Good, this 8th day of November, 1848.

By Command of His Excellency the Governor,

(Signed) JOHN MONTAGU,
Secretary to Government.

By Order of the Legislative Council.

(Signed) W. HOPP,
Clerk of the Legislative Council.

GOVERNMENT NOTICE.

Colonial Office, Cape of Good Hope.
25th October 1848.

WITH reference to the accompanying letter of this date, addressed to the Acting Surveyor-General, which His Excellency the Governor has directed to be published for general information,—His Excellency has been pleased to appoint the following Gentlemen to be members of the Board of Commissioners for Lands in the Division of Albert, viz.:—

MURRELL ROBINSON ROBINSON Esq., President.
Captain CHRISTOPHER THOMAS BIRD.
The Field-Commandant JAM OLIVIER.

By Command of His Excellency the Governor.
(Signed) JOHN MONTAGU,
Secretary to Government.

Colonial Office, Cape Town,
25th October, 1848.

To the Acting Surveyor-General.

SIR,—His Excellency having been pleased to appoint the Assistant-Surveyor-General, Mr. ROBINSON, to be President of a Commission instituted for the purpose of inquiring into the various Claims of the Farmers in the Division of Albert to the Lands in their occupation, I have, by desire of His Excellency the Governor, to transmit to you his Instructions to Mr. ROBINSON to proceed as soon as possible to that Division, and there, having fixed on some convenient place of meeting, to give notice of the first sitting of the Commission to Captain C. J. BIRD and the Field-Commandant JAM OLIVIER, who have also for the present been appointed Members. The Commission will afterwards move from place to place, as may be found most convenient for despatch of business.

2. The Commission having assembled, the President will read, and the Secretary will record, the present Instructions; and the Secretary will keep a copy, as the general Rule of the Proceedings, for ready reference at each sitting.

3. Captain C. T. BIRD will act as Secretary of the Commission; and will preserve the Minutes of the Proceedings, which shall be read, confirmed, or, if necessary, amended, and verified by the signatures of all the Members at the opening of the ensuing sitting.

4. The Commission will be subject to such addition and alteration of Members as from time to time may be found expedient; and any Member dissenting from the Reports will be at liberty to note his reasons, and attach them to the Minutes and Reports.

5. The Commission are entrusted by His Excellency with the investigation of all Claims to Land in the Division of Albert; which Claims, as they are received, shall be regularly numbered and entered in a Register, which shall have separate columns for reference to the Reports thereon, and other matters, so as to present briefly a view of the course of proceeding in each case.

6. The Commission are further entrusted with the investigation and provisional decision, on the spot, of all cases of disputed Boundaries between the Lands appertaining to contiguous Farms.

7. The Commission are further charged with the duty of assessing the extent of Land to be ceded under every Claim which they shall decide on recommending as sufficient to warrant a Grant by His Excellency the Governor.

8. The Commission will carefully assess the value of each such extent, for the purpose of fixing the Quitrent.

9. In the performance of these duties, the Commission will be guided generally by the principles contained in the following remarks; always, however, recollecting that it is the wish of the Governor to adopt as liberal a line of policy as His Excellency can with reason follow out in dealing with the Claimants,—so that the Commission are not debarred from bringing to His Excellency's notice even such unsupported, or insufficiently supported, Claims as they may deem worthy of attention, either from the merits of the individual case, or on account of the general welfare of the Division.

10. The only Claim which can be allowed must rest upon fixed occupancy of Land at the date of the annexation of the Division to the Colony, viz., 9th January last; and the number of Cattle or Sheep, &c., and the extent of Cultivation, must be taken by the Commission as the grounds for recommending comparatively the extents to be granted under each Claim. The proof of the fact and extent of such occupancy may be given by certificate of any Field-Commandant, Field-Cornet, or other respectable Inhabitant, to the satisfaction of the Commission.

11. When two or more Claims are made for the same land, further proof must be obtained, and each Claim must show on its face a reference to all the opposing Claims affecting it. The Commission will report fully their opinion as to the equitable decision thereof.

12. Many Claimants may have fully occupied a much larger extent than 3000 morgen,—the limit beyond which His Excellency is unwilling to sanction or grant; but in most of such cases it will probably be ascertained that various members of the family are living on the Homestead, and that their Flocks and Herds are separate property, although grazing in common. It is within the duty of the Commission to recommend on a separate Claim, a separate Grant to each Person, of such extent as to make up the quantity fully occupied, stating clearly the circumstances; otherwise, when requested, the excess above 3000 morgen may be put up for public Sale, at an upset Price of not less than Two Shillings an acre, as fixed by the Regulations of Her Majesty's Secretary of State.

13. In the provisional decision of disputed Boundaries, the Commission are left to their own sense of justice. It will, however, be well to preserve a short note of the grounds of the decision, to be forwarded when the final approval of Government is required.

14. In the assessment of the value of Land, for the purpose of taking a percentage thereof as the fixed Quitrent, the Commission are carefully to avoid the imposition of any unequal burden on the industrious, by the valuation of past improvements of any description. They are to assess the value of the Land in a state of Nature, according to its capability of improvement. The Quitrent is to be paid from the date of the annexation of the District to the Colony, viz., 9th January last.

15. In all cases, whenever it can be fairly accomplished, the Land is, if possible, to be so divided as to leave equal portions of Water to equal extents of Ground, whether claimed or unclaimed Government Land, so that a monopoly of the former may not ensure to the adjacent owners an undue use of the latter.

16. The Reports of the Board are to show clearly in one Section the whole of the Servitudes to be inserted in the Grants, beyond the usual Conditions, and any that may be decided on as generally applicable to the whole of the Grants issued in the Division, such as for Water Courses, Roads, &c. &c.

17. The Commission are provisionally to decide on the Reservations necessary for Outspan, Sites of Villages, and other public purposes,—and are, if possible, to provide for the allotment of similar Lands in the vicinity, to meet the Claims to such Reserves.

18. In every clear and undisputed case, the Commission will immediately issue a Land Ticket to the Claimant, and register a Duplicate in the Commission Records. This Ticket should contain a short description of the Land, its situation and extent; it may be made transferable by endorsement, and will be exchanged for a regular Title Deed as soon as possible,—but if lost or mislaid before that time, it must be advertised three months, at the expense of the Claimant, before the regular Title Deed can be issued in his name.

19. All surplus Lands after satisfaction of claims are to be sold by Auction under the Government Regulations dated 15th May 1844. Copy of which is annexed. The Commission will superintend their division into Lots, and report as to the times and places best suited for offering such lands for sale.

20. The Commission will immediately take measures for putting up to public sale such a number of the lots of land in the proposed Villages, as they may judge expedient for the interests of Government, and the improvement of the District,—and for that purpose, they will as soon as possible transmit the usual lists and recommendations as to upset prices, plan of sale, &c., so that the necessary Proclamation may be published.

The Commission will probably find it inconvenient or inexpedient to adhere strictly to the foregoing general rules, which are to be looked on as defining the general fixed principles, and as containing His Excellency's wishes on the subject, and considerable latitude is consequently authorized; but as it is necessary that the opinions and decisions of the Commission should be guided by some certain general principles, any important deviations from those above explained must be immediately reported, for the approval of His Excellency the Governor.

22. Every facility will be afforded by this Office to aid the Commission in their labors, and you are directed to afford similar assistance in your Department, and especially attend to the immediate transmission of all Reports and Claims.

23. The Reports of the Commission on each Claim are to be forwarded through the Surveyor-General's Department, so as to provide for effectual Registry; and all Correspondence with the Government, connected with this Commission, is to be conducted through the medium of the Surveyor-General.

I have the honor to be,
Sir,
Your obedient Servant,
(Signed) JOHN MONTAGU,
Secretary to Government.

Office of the Central Board of Roads.
25th October 1848.

THE Central Board of Commissioners of Public Roads have directed it to be notified, for general information, that the new Pass through Mosterd's Hoek, and also the new Gydow Pass, to the Cold Bokkeveld, as well as the new Pass through the Karoo Poort to the Interior of the Colony, will be opened for the use of the public on the 1st of December next by His Excellency the Governor.

In accordance with the request of the Board, His Excellency the Governor has consented that the new Pass through Mosterd's Hoek shall be named "the Michell Pass."

The Board have at the same time ordered the publication of the following Correspondence, in order that the Public generally may be made aware that they have been steadily engaged in the peculiar labors for which they were appointed, viz., in opening Mountain Passes, filling up Ravines, and constructing Bridges over the Rivers which intersect the Main Roads of the Colony.

By order of the Board,
W. DE SMIDT, Secretary.

Office of the Central Board of Commissioners of Public Roads, Cape Town, 18th Oct. 1848.

SIR,—I am directed by the Central Board of Commissioners of Public Roads to acquaint you, for the information of His Excellency the Governor, that the new line of Road through Mosterd's Hoek, the Warme Bokkeveld, Hottentot's Kloof, &c., being newly completed, will be ready for opening for the use of the Public on the 1st December next. I am further desired

to communicate to you the substance of the report, which has been presented to the Board by Mr. Bain, the Inspector of Roads, under whose able superintendence the work has been conducted; and from a perusal of which His Excellency will be enabled to appreciate the difficulties that have been surmounted in the construction of this Pass.

In place of the old road through Mosterd's Hoek, one of the worst and most dangerous in the Colony, a safe and easy Pass has now been substituted.

The constant crossing and recrossing of the Breede River is avoided by the new line, which is carried along the right bank of the river, nearly parallel with it, till it emerges into the Warme Bokkeveld.—For a length of about five and a half miles it is scarped almost entirely out of the solid rock, and is strengthened by a retaining wall, varying from three to forty feet in height.

A massive stone bridge, 36 feet in height, and several stone culverts and viaducts, besides a number of drains of considerable extent, have been rendered necessary by the numerous gullies and ravines which intersect the line. With the exception of a hundred yards, which are not yet completed, the whole of this stupendous work has been constructed in little more than two years, by convict labour. That portion of it, which has been constructed by blasting, has required much labour and exertion, the rock being of a rough quartzose sandstone, frequently containing imbedded pebbles of pure quartz, in many parts exceedingly hard to drill, and so tenacious as to be very difficult to blast.

In connection with this Pass I am desired to announce the completion of the New Road from Mosterd's Hoek to the Karoo Poorts, and of the Gydow Pass to the Cold Bokkeveld.

The former of these passes, through the Warme Bokkeveld, is a direct line about twenty-eight miles in length, avoiding the circuitous turnings of the Old Road, and is carried over the precipitous chain of mountains, between the Bokkeveld and the Karoo, by a deep scarp carried up the side of the mountain for one and a half mile, supported by a stone retaining wall, and is conducted to the lowest summit of the chain known as "Trek Pad;" through which all the sheep and cattle pass from the interior to the Cape Town Market; whence it descends by an easy road down Hottentot's Kloof to the poorts of the Karoo. At the bottom of the Kloof, where the outspan place is, two large tanks will be constructed, thus opening the springs which have long been choked up.

The Gydow Pass was completed in July last. For six miles from Mosterd's Hoek no natural obstacles, of great difficulty, present themselves on this line of Road.

The road up the mountain is scarped from the hill side, and fortified by high and strong retaining walls.

The Dwaars River is crossed by a bridge, and beyond the Road is defended by retaining walls, varying from two to ten feet in height.

The whole length from the opening of the Mosterd's Hoek Pass to the Cold Bokkeveld is twelve miles.

The advantages which will result from the opening of the Mosterd's Hoek Pass and the roads connected with it can scarcely at present be estimated with any degree of correctness. The pass will form the grand focus of the interior trade from Cape Town and the "Boveland," besides opening up the extensive territories of the Klein, Middell and Onder Roggevelden, Hantam, Nieuweveld, Warm and Cold Bokkevelde, &c., which are among the most fertile and productive, though hitherto the least known districts, of the Colony.

It may not be amiss to mention that the Bokkeveld, despite of all the disadvantages which are now about to be removed, has established its name at Mark Lane as "producing the best wheat in the world," which will, of course, be very greatly increased, in quantity at least, by the greatly increased facilities of export.

The following extracts from Mr. Bain's report are too interesting, in the Board's opinion, to be omitted:

"One of the most important advantages which the New Road will possess over the Old, is the distance gained, as the following statement will show:

"From the outspan place at Mr. Theron's, Breede River, where the Old and New Roads intersect at right angles, the distance by Worcester, Hex River, and to Caryl van der Merwe's, near Karoo Poort, is fifteen hours on horseback; which, at the rate of six miles per hour, amounts to ninety miles.

"From Theron's to Caryl van der Merwe's, by Mosterd's Hoek, Hottentot's Kloof, &c., is six hours or thirty six miles, being a saving of fifty four miles!

"By the Old Road at least fourteen oxen are required for an ordinary load; by the New, eight will be more than sufficient, besides the saving of the heavy tax, of from thirty to sixty Rds. which most travellers are compelled to pay for relays to drag their wagons through Hex River Kloof and up the mountain."

"The lock chain, that indispensable requisite of African travelling by the Old Road, can be entirely dispensed with on the New, as the gradient is in no place so steep as to require one; and the dangers and delays from deep and rapid rivers, which the Old Road so constantly presents, will be found entirely absent from the New."

"Thus have I endeavoured to show some of the advantages the public derive from the Mosterd's Hoek New Road, and as I have already commenced the continuation of this great trunk line, in the direction of Bain's Kloof, Wellington, &c., to Cape Town, I shall state the distances that will be saved by the adoption of this line."

"From Theron's outspan place, Breede River, to Cape Town, via Bain's Kloof, nine and a half hours!

"From Theron's to Cape Town, via New Kloof, thirteen and a half hours, which shows a saving in favor of Bain's Kloof of four hours, or twenty four miles!

"These 24 miles, added to the 54 gained by taking the Mosterd's Hoek Road, give (in the whole of the New line from Cape Town to C. van der Merwe's) the moderate saving of 78 miles."

"The Inhabitants of Worcester, Goudine, Hex River, Bosjesveld, Kogman's Kloof, &c., will, in an especial

wanner, benefit by the opening of Bain's Kloof, as the following distances will show.

From Worcester to Cape Town, via Bain's Kloof, 12 hours."

"From Worcester to Cape Town, by New Kloof, eighteen hours, which shows a saving in favor of the new line between Worcester and Cape Town of six hours or 36 miles!"

"The curtailing of our roads will bring a vast influx of produce to market, which, at present will not pay the carriage, and as the new line will be perfectly available for the lightest spring vehicle, I do not despair in a few years of seeing our clumsy ox wagon disappear before the march of civilization."

The first of December next will be the first anniversary of the arrival of His Excellency the Governor among us, and if His Excellency would honor the Board by opening the Mosterd's Hoek Pass in person on that day, the Public would be highly gratified.

I am directed to submit the Board's opinion, in consideration of the great ability and exertions of the Surveyor General and Civil Engineer, who surveyed the ground and prepared the plans for this great work, as well as for the other great mountain Barriers throughout the Colony, and whose loss is indeed a public calamity, that a more appropriate title could be chosen for the new Road through Mosterd's Hoek, than the "Michell Pass," if His Excellency will be pleased to sanction it.

I have the honor to be,

Sir,

Your most obedient Servant,

W. DE SMIDT, Sec.

Colonial Office, 25th October 1848.

Sir,—In reply to your letter of the 18th inst., I am directed by His Excellency the Governor to inform you, that he will have much pleasure in being present to open the Mosterd's Hoek Pass on the 1st December next, and that he entirely concurs with the Commissioners of the Board in the selection which they have made of a name for the new Pass.

I have the honor to be,

Sir,

Your most obedient servant,

JOHN MONTAGU.

The Secretary to the Central Board of Commissioners of Public Roads.

WHAT IS IN A NAME?

THE philosophic axiom, that there is no absolute or necessary connection between a name and the thing nominated, has been singularly comprehended, and most cunningly acted upon, by an Empirical Poet and Mortar Philosopher of this City.—In as far as he has surreptitiously imparted to a vile compound of his own production, the name of my unrivalled perfume for the Handkerchief and Bowdoin, and deceitfully imitated my labels for the same, so closely as to mislead incautious buyers. Let the Public, therefore, beware of such disgracefully avaricious chicanery, (whether in vending phisic or perfumery) and remember that I am the sole proprietor, compounder, and vender, of the unrivalled perfume, Real Omar Essence; and that the label on every bottle of the genuine article must bear my signature.

GOUVERNEMENTS KENNISGEVING.

Koloniale Secretary, Kaap de Goede Hoop.

25 October 1848.

MET betrekking tot den nevensgaanden brief van dezen datum, geadresseerd aan den fungerenden Inspecteur Generaal, welke Zyne Excellentie heeft gelast tot algemeen narigt te publiceren,—heeft Zyne Excellentie goedgevonden de volgende Heeren aan te stellen tot Leden van het College van Landeryen, in de Afdeeling Albert:—
De Hr. MURREL ROBINSON ROBINSON, President
Kapt. CHRISTOPHER THOMAS BIRD.
Veldkommandant JAN OLIVIER.

Ter Ordonnantie van Z. E. den Gouverneur,

(Get.) JOHN MONTAGU,

Gouvernements Secretaris.

Koloniale Secretary, Kaapstad, 25 Oct. 1848.

Aan den Fungerenden Inspecteur Generaal.

MYNHEER,—Zyne Excellentie hebben goedgevonden en Fungeren en Inspecteur Generaal, den Hr. ROBINSON, aan te stellen tot President van een Commissie, te worden gesteld om onderzoek te doen naar de onderscheiden voringen van de Landlieden in het district Albert, op de Landeryen door hen bezeten, moet ik, op last van Zyne Excellentie den Gouverneur u zyne instructies aan den Hr. ROBINSON toezenden, om zich zoo spoedig mogelijk naar die Afdeeling te begeven, en daar een geschikte plaats voor de byeenkomst te bepalen, kennis te geven van de eerste zitting van de Commissie, aan Kapt. C. T. BIRD, en aan Veldkommandant JAN OLIVIER, die mede voor het tegenwoordige tot Leden zyn aangeeld. De Commissie zal zich vervolgens bewegen van plaats tot plaats, zoo als het geryklyk zal worden bevonden voor het verrigten van bezigheid.

2. De Commissie vergaderd zynde, zal de President de tegenwoordige instructies lezen, en de Secretaris deszelfs notulieren, en de Secretaris zal een copy houden, als de algemeene regel van de verrigtingen, tot gereede referie by iedere zitting.

3. Kapt. C. T. BIRD zal fungeren als Secretaris van de Commissie, en zal de Minuten der verrigtingen bewaren, welke zullen worden gelezen, bevestigd, en des noods, geemendeerd en geverifieerd door de ondertekeningen van al de Leden by het openen van de volgende zitting.

4. De Commissie zal onderhevig zyn aan zoodanige vermeerdering of verandering van Leden, als van tyd tot tyd raadzaam zal word bevonden, en ieder Lid, dat distantiert van de Rapporten, zal de vrijheid hebben zyne redenen aan te teekenen, en deszelfs te hechten aan de Minuten en Rapporten.

5. De Commissie is door Zyne Excellentie belast met het onderzoek van alle vorderingen op Land, in de Afdeeling Albert, welke vorderingen, naar mate deszelfs zullen worden ontvangen, geregeld zullen moeten worden genomen, en ingeboekt in een register, dat afzonderlyke kolommen zal moeten bevatten, voor referie tot de Rapporten daarop, zoo dat hetzelfde een kort overzicht geeft van den staat van iedere zaak.

6. De Commissie is verder belast met het onderzoek, en de provisionele beslissing, op de plaats, van alle zaken van betwiste grenscheiden tusschen de Landeryen behorende tot aangrenzende plaatsen.

7. De Commissie is verder belast met de pligt van het bepalen van de uitgestrektheid van land, te worden afgestaan onder iedere vordering, welke zy zullen besluiten te recomanderen, als voldoende voor het rechtvaardigen van een vergoeding door Zyne Excellentie den Gouverneur.

8. De Commissie zal nauwkeurig de waarde bepalen, van iedere zoodanig uitgestrektheid, ten einde de erfpacht te bepalen.

9. In het volbrengen van dezen pligt zal de Commissie in het algemeen moeten te werk gaan naar de principes bevat in de volgende aanmerkingen; echter altijd in het oog houdende dat het het verlangen is van den Gouverneur, de liberaalste lyn van staatkunde te volgen, welke Zyne Excellentie met reden kan volgen, in het handelen met de vorderaars,—zoo dat de Commissie niet is belet ter kennis van Zyne Excellentie te brengen, zelfs zoodanige ongesteunde, of niet genoegzaam gesteunde vorderingen, als zy der aandacht zullen waardig keuren, hetzy uit reden van de verdiensten van het byzondere geval, of om reden van het algemeene welzijn van de afdeeling.

10. De eenige vordering welke kan worde toegelaten moet steunen op gevestigde occupatie van Land, op den datum van het aanhechten van de Afdeeling aan de Kolonie t.w. den 9ten January 11.; en het getal vee of schapen enz, en de uitgestrektheid van bebouwing moeten door de Commissarissen worden aangenomen als een grondslag, voor het recomanderen, in vergelyking van de uitgestrektheid te worden vergaand onder iedere vordering. Het bewys van de daadzaak en uitgestrektheid van zoodanige occupatie, kan worden gegeven by certifikaat van eenigen Veldkommandant, Veldkornet, of ander deffig Ingezeten, naar genoegen van de Commissie.

11. Wanneer twee of meer vorderingen voor hetzelfde land worden ingebracht, moet verder bewys worden beko men, en iedere vordering moet een referie bevatten van alle tegengestelde vorderingen die daarop betrekking hebben. De Commissie zal volledig deszelfs gevoelen moeten rapporteren tot de beoorlyke beslissing daarover.

12. Vele vorderaars hebben ten vollen een veel grooter uitgestrektheid geoccupeerd dan 3000 morgen,—de uitgestrektheid boven welke de Gouverneur ongezigd is te vergunnen, maar in de meeste van zoodanige gevallen: al het waarschynlyk worden bevonden dat onderscheiden leden van de familie op de plaats wonen, en dat hun vee afzonderlyk eigendom is, schoon te zamen weidende. Het is binnen de pligt van de Commissie te recomanderen op een afzonderlyke vordering, een afzonderlyke vergoeding aan ieder persoon, van zoodanige uitgestrektheid, om de hoevelheid ten volle geoccupeerd uit te maken, meldende duidelyk de omstandigheden; anders, verzocht wordende zal het excess boven de 3000 morgen publiek kunnen worden verkocht, tegen een inzet prys van niet minder dan 2s. per acre, als bepaald by de regulatie van Hare Majesteits Secretaris van Staat.

13. In de provisionele beslissing betwiste grenscheiden, wordt de Commissie overgelaten aan deszelfs eigen gevoel van rechtvaardigheid. Het zal echter wel zyn

eene korte opia te bewaren van de gronden van de beslissing, om te worden ingezonden wanneer de finale beslissing van het Gouvernement noodig is.

14. In de berekening van de waarde van Landeryen, tot het einde van het nemen van een price-ntage daarvan, als bepaalde erfpacht, moet de Commissie voorzigtig zyn om het opleggen van ongelijke lasten te vermijden, door het waarden van gemakke verbeteringen van welken aard ook. Dezelve moet de waarde van het land berekenen, in eenen staat der natuur. De erfpacht moet worden betaald van den datum van het aanhechten van het District aan de Kolonie, t.w. den 9ten January 11.

15. In gevallen waar het gemakke geschieden kan, moet het land, zoo mogelyk, zoo worden vertheild, om gelyke hoevelheden water te laten aan gelyke uitgestrektheiden Land, hetzy gevorderde of ongevorderde Gouvernements Grond, zoo dat een monopolie van het eerste aan den naasten eigenaar geen onbetamelijke voorregt boven de laatste zal geven.

16. De Rapporten van de Commissie moeten duidelyk toonen, in iedere sectie, af de servituten welke in de vergunning moeten worden ingevuegd, boven de gewone voorwaarden, en allen die kunnen benaald worden als algemeen toepasselyk op al de vergunningen, in de Afdeelingen uitgegeven, zoo als voor waterloopen, wegen enz.

17. De Commissie moet by voorraad beslissen op de reservatie noodig voor uitspan plaatsen, voor plaatsen van dorpen, en andere publieke einden,—en, zoo mogelyk, voorzien voor de toewyding van gelyke landen in de nabijheid, om te voldoen aan de vorderingen op zulke reserven.

18. In iedere klare en onbetwiste zaak, zal de Commissie dadelyk een Landticket uitgeven aan den Vordenaar, en een duplicaat registreren in de Notulen van de Commissie. De Ticket moet bevatten een korte beschryving van het Land, deszelfs ligging en uitgestrektheid, dezelve kan transportabel worden gemaakt by eendassament, en zal worden vervuuld voor een geregeld grondbrief zoo spoedig als mogelyk is,—maar verloren of misleid zynde voor diat tyd, moet het gedurende drie maanden worden genderteerd op kosten van den Vordenaar, voor de geregelde Grondbrief op zynen naam kan worden uitgevaardigd.

19. Alle overige Landeryen na het voldoen aan de vorderingen, zullen by publieke veiling worden verkocht, onder de Gouvernements regulatie van 15 Mei 1841, waarvan een copy is geannexceerd. De Commissie zal het lozigt hebben over dertelver verdeling in p-ocelen, en rapporteren op de tyden en plaatsen best geschikt om deszelfs op te eilen.

20. De Commissie zal dadelyk maatregelen nemen voor het opveilen van zoodanige percelen Land in de voorgestelde Dorpen, als dez-ive dienstig zal orderlen voor de belangen des Gouvernements, en de verbetering van het District, en tot dat einde zal deszelfs zoo spoedig mogelyk de gewone lysten en aanbevelingen ten aanzien van inzet prysen, plan van verkoop, enz. moeten inzenden, op dat de noodige Proclamatie kan worden gepubliceerd.

21. De Commissie zal het waarschynlyk ongelegen of ondienstig vinden zich stiptelyk te houden aan de bestaande algemeene regulatie, welke moeten worden beschouwd als bepalende de algemeene vaste principes, en als bevattende Zyne Excellenties verlangens op het onderwerp, en aanzienlyke ruimte wordt gevolgelyk geauthorizeerd, maar daar het noodig is dat de gevoelens en beslissingen van de Commissie zullen worden geleid door zekere algemeene principes, moeten alle aanmerkelyke afwykingen van die boven verklaard, dadelyk worden gerapporteerd ter goedkeuring van Zyne Excellentie den Gouverneur.

22. Alle gemak zal door dit Kantoore worden verleend om de Commissie te helpen in hare verrigtingen, en zy worit gelast gelyk gemak in uw Departement te verleen, en byzonder te zorgen voor het dadelyk overzenden van alle Rapporten en Vorderingen.

23. De Rapporten van de Commissie, op iedere Vordering moeten worden ingezonden door het Departement van den Inspecteur Generaal, om te voorzien voor de beoorlyke registratie, en alle correspondentie met het Gouvernement, in verband met deze Commissie moet plaats vinden door middel van den Inspecteur Generaal.

Ik heb de eer te zyn,

Mynheer,

(Get.) Uw onderdanige Dienaar,
JOHN MONTAGU,
Gouvernements Secretaris.

Kantoor van het Centrale College van Commissarissen van Publieke Wegen, Kaapstad, 25 Oct. 1848.

HET Centrale College van Publieke Wegen heeft gelast bekend te maken tot algemeen narigt dat de Nieuwe Pas door de Mosterds Hoek en mede de nieuwe Gydow Pas, naar het Koude Bokkeveld, zoo wel als de Nieuwe Pas door de Karoo Poort, naar de Binnendeelen der Kolonie, voor het Publiek gebruik zullen worden geopend op den 1 December ainst., door zyne Excellentie den Gouverneur.

Volgens verzoek van het College heeft Zyne Excellentie toegestemd dat de Nieuwe Pas door Mosterds Hoek zal worden genaamd "de Mitchell Pas."

Het College heeft te gelyker tyd de publicatie gelast van de volgende correspondentie, ten einde het publiek moge worden bekend gemaakt, dat hetzelfde bestendig is b. z. geweest in de byzondere pligt waarvoor het is aangesteld, t. w. : in het openen van Berg Passen, het openen van Kloven en het maken van Bruggen over de Rivieren welke de groote wegen der Kolonie doorsnyden.

Namens het College,

W. DE SMIDT, Sec.

Kantoor van het Centrale College van Commissarissen van Publieke Wegen, Kaapstad, 18 Oct. 1848.

Mynheer, — Ik ben gelast door het Centrale College van Commissarissen van Publieke Wegen, U. E. bekend te maken, tot narigt van Zyne Excellentie den Gouverneur, dat de nieuwe lyn van weg door de Mosterds Hoek, het Warme Bokkeveld, Hottentotskloof, enz., onlangs zynde voltooid, op den 1sten December ainst. zal gereed zyn om voor het Publiek te worden geopend. Ik ben verder gelast U. E. de zelfstandigheid te melden van het rapport dat aan het College is gepresenteerd door den Hr. Bain, den Inspecteur van Wegen, onder wiens bekwam toezicht het werk voltooid is, en uit welke lezing U. Excellentie in staat zal zyn de moeyelykheden te begrypen, welke men in het vormen van de Pas moest te b. v. komen.

In plaats van den ouden Weg door de Mosterds Hoek, een van de moeyelyke en en gewarliksten in de Kolonie, is nu een veilige en gemakkelijke Pas daargesteld.

Het gestadig over en weder trekken van de Breederivier is ontgaan door de nieuwe lyn, gaande langs de linker oever van de rivier, byna evenwysdig met de zelve, tot dezelfde uitkomt in het Warme Bokkeveld, gedurende een lengte van byna vyf en een half myl, is de zelve byna geheel uit de vaste rots gehouwen, en versterkt door een steunmuur van drie tot veertig voeten hoog.

Een massive steenen brug van 36 voeten hoog, en verscheiden steenen watergangen en bruggen, benevens talryke waterloozingen van aanzienlyke uitgestrektheid, zyn noodig gemaakt door de talryke geulen en klooven welke de lyn doorsnyden. Met de uitzondering van honderd yards, welke nog niet voltooid zyn, is het geheel van dit ontzettende werk voltooid in weinig meer dan twee jaren, door bandieten arbeid. Dat deel er van dat heeft moeten worden gemaakt door minnen, heeft veel moeite en arbeid gekost, synde de rots een ruwe quartzachtige zandsteen, bevattende dikwyl kloopen van zuivere quartz in veel deelen zeer hard om te houren, en zo tasi, dat men deselve maar met moeite kon doen s. ringen.

Verbonden met deze Pas, ben ik gelast de voltooying te melden van den nieuwen Weg van Mosterds Hoek naar de Karoo Poort, en van de Gydow Pass naar het Koude Bokkeveld.

De eerste van deze passen door het Warme Bokkeveld, in eenen directen lyn omtrent 24 mylen lang, vermydende de wendingen van de Oude Weg, is gevoerd over een steile berg ten tusschen het Bokkeveld en de Karoo, door een diepe schuimte langs den zyde van den berg, ander half myl lang, geschaagd door eenen steenen steunmuur, en wordt gevoerd over de langste top van de keten bekend als "Trekpad," waardoor al de schapen en het vee uit de binnendeelen naar de Kaapstad markt gevoerd worden, van daar gaat de zelve langs een gemakkelijke weg af door de Hottentotskloof, naar de poort van de Karoo. Aan de bodem van de Kloof, waar de uitspan plaats is, zullen twee groote waterbakken worden gevormd, openende dus de fonteynen welke lang verstopt zyn.

De Gydow Pas is voltooid in July H. In zes mylen van Mosterds Hoek hebben zich geen natuurlijke hinderpalen van groote moeyelykheid voorgedaan.

De weg bergop is uit de zyde van den berg uitgekapt, en bevestigd met sterke steunmuren.

De Dwars Rivier wordt overspannen door een burg, en verder is de weg beschermd door steunmeuren van twee tot tien voeten hoog.

De geheele lengte van de opening van Mosterds Hoek Pas tot het Koude Bokkeveld is 12 mylen.

De voordeelen welke zullen ontstaan uit het openen van de Mosterds Hoeks Pas en de wegen daar mede verbonden kunnen tegenwoordig niet nauwkeurig berekend worden. De pas zal het groote brandpunt uitmaken van den handel van de Kaapstad met het "Boveland" behalve het openen van de Klein, Middel en Onder Roggevelden, Mantam, Nieuweveld, Warme en Koude Bokkeveld, behoorende tot de vruchtbaarste, maar tot nu toe minst bekende deelen der Kolonie.

Het zal niet verkeerd zyn te melden dat het Bokkeveld in spyt van deszelfs nadeelen, welke nu zullen worden uit den weg geruimd, deszelfs naam heeft bekend gemaakt in Mark Lane als "voort brengende het beste ko en ter wereld" dat natuurlyk, grootelyks zal worden vermeerderd, ten minste in hoeveelheid, door de grootelyks vermeerderde gemakken van uitvoer.

De volgende uittrekselen uit het rapport van den Heer Bain, zyn in het gevoelen van het College te belangryk om te worden uitgelaten.

"Een van de belangrykste voordeelen welke de Nieuwe Weg zal bezitten over den Ouden, is de gewonnen afstand, zoo als de volgende opzate zal toonen.

"Van de Uitspanplaats by den Heer Theron aan Breede Rivier, waar de Oude en Nieuwe Wegen elkander byna regthoekig snyden, is de afstand langs Worcester, Heks Rivier, en naar Carel van der Merwe, naby Karoo Poort,

vyftien uren te paard, dat tegen zes mylen per uur, negentig mylen is.

"Van Theron naar Carel van der Merwe, door Mosterds Hoek, Hottentotskloof, enz., is 36 mylen zynde een besparing van 54 mylen.

"Langs den Ouden Weg waren ten minste 14 Ossen noodig voor ten gewoone vracht, langs den Nieuwen zullen 8 meer dan genoegzaam zyn, behalve het besparen van den waren last van 8 tot 60 Rds. voor voorspannen om de wagens door Heks Riviers Kloof en den Berg op te slepen.

"De reuketting, dat onvermydelijk vereischte van reizen langs den ouden weg, kan geheel worden weg gelaten op den nieuwen, daar de daling negens zo steil is om dezelve oodlig te maken; en de gevaren van verwyl door de diepe en snelle rivieren, welke de oude Weg zoo dikwyl aanbiedt zullen geheel weggelaten zyn op den nieuwen.

"Ik heb dus getracht eenige voordelen te toonen, welke het Publiek zal trekken uit den Mosterds Hoek nieuwen Weg, en daar ik reeds heb bezonnen den voorrang van dezen hoofdweg te maken naar de Bainskloof, Wellington, enz. naar de Kaapstad, zal ik de afstanden melden welke zullen bespaard worden door het aannemen van dezen Weg.

"Van Theron's Uitspanplaats, Breede Rivier, naar de Kaapstad, over Bainskloof, negen en een half uren.

"Van Theron's naar de Kaapstad, over Nieuwekloof dertien en een half uren, toevende een besparing ten voordeele van Bainskloof van vier uren of 24 mylen.

"Deze 24 mylen gevoegd by de 54 mylen gewonnen door Mosterds Hoeks Weg, geven te het geheel van den Nieuwen lyn van de Kaapstad, naar C. van der Merwe de matige besparing van 78 mylen.

"De Ingezeten van Worcester, Goudale, Heks Rivier, Boschjesveld, Kokkema Kloof, enz., zullen gelykelyk worden bevoorrecht door het openen van de Bains Kloof, zoo als de volgende afstanden zullen toonen.

"Van Worcester naar de Kaapstad, door Bains Kloof, 12 uren.

"Van Worcester naar de Kaapstad, door de Nieuwe Kloof, 18 uren, toevende een besparing ten voordeele van den Nieuwen Weg tusschen Worcester en de Kaapstad van 6 uren of 36 mylen.

"Het bekorten van onze Wegen, zal een groote vermeerdering van Producten naar onze markt voeren, welke tegenwoordige kosten van vervoer niet goedmaken, en daar de nieuwe lyn van Weg gebruikbaar zal zyn voor de ligstewagens op verren, wanhoop ik niet binnen weinige jaren, onze lompe Ossenwagens geheel te zullen zien verdwynen voor de voortgang van beschaving."

De eerste December ainst. zal de eerste verjaring zyn van de aankomst van Zyne Excellentie den Gouverneur in ons midden en indien Zyne Excellentie het Collegie wilde verzeren door het openen van den Mosterds Hoeks Pas, in persoon zou het Publiek daaruit groot behagen scheppen.

Ik ben gelast het gevoelen te verklaren van het College over de groote bekwaamheid en inspanningen van den Inspecteur Generaal en Civilen Ingenieur, die den grond heeft opgemeten en het plan heeft bereidt voor dit grooten werk, zoo wel als voor de andere gront berg hinderpalen over de Kolonie, en wiens verlies inderdaad een groote ramp is voor deze Kolonie, en dat geen geschikter naam kan worden gegeven aan den Nieuwen Weg door Mosterds Hoek, dan de "Mitchell's Pas," indien Zyne Excellentie kan goed vinden het goed te keuren.

Ik heb de eer te zyn,

Mynheer,

U. E. gehoorzame Dienaar,

W. DE SMIDT, Sec.

Koloniale Secretary, Kaapstad, 25 Oct. 1848.

GOVERNMENT NOTICE.

Colonial Office, Cape Town,
14th Nov., 1848.

IN directing the Publication of the subjoined Despatch from the Right Hon'ble the Secretary of State, with its annexures,—His Excellency the Governor desires at the same time to remove an erroneous impression, which seems to have gone abroad regarding the views of Her Majesty's Government upon the subject of the introduction into this Colony of offenders sentenced to transportation.

His Excellency wishes it to be understood that Earl Grey's communications relate to two distinct points,—separate in their nature, and taken into consideration by Her Majesty's Government at separate times.

The more recent of Earl Grey's communications is, in form, unofficial, and apprises His Excellency that it has been decided by Her Majesty's Government to send to this Colony a class of persons, who, it was supposed would speedily be sentenced in Ireland for political offences, and that the necessary order in Council for that purpose would be prepared and promulgated without delay.

Being of opinion that the course of proceeding indicated by Earl Grey, in regard to this class of persons, may have been already carried into effect, His Excellency deemed it right to inform the Legislative Council of the intimation he had received,—at the same time to impress upon them and the colony, that times of difficulty,—like that in which the mother country was involved,—demanded every assistance on the part of His Excellency to aid in the removal of that difficulty;—still, that he was profoundly opposed to the Cape of Good Hope being made a Penal Colony for ordinary felons, or for any other, beyond a TEMPORARY MEASURE like the present one.

The other communication from the Right Hon'ble the Secretary of State is the Official Despatch now published, and it amounts to the offer of additional labour for this colony, by means of sending out such convicted persons as have undergone a *probationary term of their punishment*, and have earned a certificate of good behaviour, to serve out the remainder of their sentences in one of Her Majesty's Colonies, amongst which, it is proposed, the Cape of Good Hope should be included,—His Lordship desiring at the same time, before acting on the last measure, to have the opinion of the colonists at large on the subject, offering the measure to their acceptance and not demanding it to be carried out.

By His Excellency's Command,
(Signed) J. A. LE SUEUR,
pro Secretary to Government, absent on duty.

Downing Street, 7th August 1848.

Sir,—I have the honor to transmit to you the enclosed copy of a correspondence laid before Parliament in May last, on the subject of Convict Discipline and Transportation. Many of these papers will probably not be without interest to you, but my immediate object in sending you the accompanying copy of them is to draw your attention to my despatch to the Lieutenant Governor of Van Diemen's Land, No. 66, of the 27th of April last, in which you will find an exposition of the views of Her Majesty's Government respecting the future treatment of offenders, who receive the sentence of transportation.

You are doubtless aware that it has for some time past been resolved that all convicts should, in the first instance, undergo a period of separate imprisonment in this country, varying from 6 to 18 months, followed by labor on public works, either here or at Bermuda, or Gibraltar. By several of the accompanying papers, you will find that the effects of this discipline have as yet been very

satisfactory. The letter from Mr. Kingsford, who has so zealously and efficiently performed his duties as Chaplain at Gibraltar, and which is enclosed in my despatch above referred to, bears testimony to the good and apparently lasting impressions produced on the minds of the prisoners who have fallen under his notice at that station. At Port Phillip the despatches referred to in the margin will show with what rapidity the men who have arrived there under the name of "exiles" have been engaged for the service of the resident proprietors. And similar information has since arrived respecting a party of exiles who landed so lately as December last, at Port Phillip. The settlers in that district have now for a considerable time had an opportunity of observing the character of men of this class, and although the demand for labour is unquestionably great, it is not to be supposed that they would have been so eager to obtain the services of such persons, if there had not been much which was satisfactory in the conduct of those who had fallen under their observation. Whilst such evidences in their favor have been received from Gibraltar and Port Phillip, I enclose for your information a despatch from the Governor of Bermuda, in which you will find that he gives the most gratifying account of a large party of men whom he had selected as deserving of the indulgence of being sent to Van Diemen's Land with tickets of leave, and that he expresses a sanguine anticipation of improvement in their future conduct, and of the addition which they will make to the useful labour of the colony.

Notwithstanding these encouraging circumstances, however, it is not the opinion of Her Majesty's Government that either with a view to the preservation of good order, or to the infliction of an adequate amount of punishment under their original sentences, the men ought to be set entirely at large on reaching the colony to which they may be sent after a period of good conduct. It is considered better that they should rather be allowed tickets of leave. These admit of restricting them to particular districts, and of enforcing the punctual payment of moderate sums in return for the cost of their conveyance, but do not in other respects interfere with the freedom of the men to whom they are granted, nor diminish the ordinary motives to industry and good conduct.

You will further perceive that while it is proposed to require from these persons repayment of the cost of their removal to the colonies to which they may ultimately be sent, because it is conceived that they ought not to receive free passages which cannot be granted to many of those unconvicted of crime who apply for that privilege, it is proposed that whatever sums are thus recovered from them should be applied not to relieve this country from the charge incurred on their account, but for the benefit of the colonies which may receive them, either by sending out free emigrants to meet the great demand for labor which exists in most of these colonies, or in any other manner which may be more suitable to the peculiar circumstances of others of them.

Such being the system under which it is proposed hereafter to proceed, I think it right to point out to you that if the inhabitants of the Cape of Good Hope should be willing to receive men with tickets of leave, they will obtain the advantage of a supply of labor, together with a probable addition to the funds applicable to general emigration, or some other public object of importance; while by the power which is to be reserved of dispersing those men in different districts, together with the reformatory nature of their previous punishment, there is good reason to hope that their presence in moderate numbers will not be found injurious to the general character of the community.

Considering the urgent representations which are constantly received at this office, of the want of an adequate supply of labor, it seems possible that if this system of Convict Discipline were well understood, the colonists might be desirous of receiving men upon the foregoing terms in their last stage of punishment, and after they had earned a favourable character from the authorities under whose control they had been placed. I should be glad, therefore, if you would ascertain, in the manner which may appear to you best suited to the purpose, how far this would be the prevalent opinion in the colony under your Government; and if I should learn from you that the measure would be wished for, I should be prepared to take the necessary steps for including the Cape

in the places into which Convicts holding tickets of leave may be introduced.

I have the honor to be, Sir,
Your most obedient, humble servant,
GREY.

Governor Sir HENRY SMITH, Bart.,
&c. &c. &c.

Bermuda, April 16, 1848.

The Right Honorable EARL GREY,
&c., &c., &c.

My Lord,—I have the honor to forward copies of the Despatch which I addressed to the Lieut.-Governor of Van Diemen's Land with the 203 prisoners who recently proceeded to that destination in the *Bangalore*, as well as a copy of my letter to the Surgeon Superintendent; and of an address which I made to these men on their embarkation.

The ship was detained from the 9th to the 11th by the master, for reasons unconnected with the public service, so that there would be no claim for demurrage during that period.

But I regretted the circumstance less because it afforded some opportunity of judging of the behaviour of the prisoners after their release from the confinement and strict discipline of the hulks.

The surgeon said to the officers of the establishment, on the morning of his departure, that there had not been a single complaint, that he found the people remarkably orderly, clean, helpful, and kind to each other, and intelligent in their ways.

The door of the prison on board the *Bangalore* had been open all day.

I have very little doubt that they will continue to conduct themselves to his satisfaction, and incline to believe that the Colony of Van Diemen's Land will have rarely received 203 adult male passengers by one ship containing a larger number of useful settlers in a new country, than those who will arrive in the *Bangalore*.

Many of them are very skilful tradesmen, and they have all been trained to habits of regular and laborious industry.

They have all too experienced the bad consequences of misconduct, and the advantages of steadiness, and I hope a reflection which I pressed upon them will have its due weight,—that is the great difficulty of recovering any share of trustworthiness and respectability by men in their condition, and the certainty of its total loss by the least relapse to wrong courses.

Your Lordship will observe from my Despatch to Sir William Denison, that they are creditors of the crown for reserve earnings in the considerable sum of £1071.

It should also be explained that beyond that sum there has been paid, or is due, to this Establishment for their labour, by the departments employing them, £492 11 4.

This amount, according to the instructions, could not be carried to their credit, having been earned in what is called the period of probation, that is, during the two first years after conviction; but if they continue to conduct themselves satisfactorily in Australia, perhaps Her Majesty's Government may be pleased to render it available for assisting the passage out of any of their female relatives who may desire to join them.

All the men who find their way into prisons are not irreclaimable, and I have the painful proof before me that calamity and the misguidance of others have their full share in the causes which cast them upon them.

I believe this plan, carefully worked, is happily devised for the encouragement of steadily disposed prisoners, and for the relief of their unfortunate and innocent families.

Knowing that your Lordship will take deep interest in securing to them every possible motive and helpfulness for the re-establishment of their characters, I hope to be excused for these suggestions.

I have omitted to mention that one of the 204 prisoners specified in the list sent to England died before the arrival of the *Bangalore*, and agreeably to the instructions his place was not filled up.

I have, &c.,
(Signed) CHARLES ELLIOT, Governor.

Bermuda, April 9th, 1848.

To HARVEY MORRIS Esq.,
Surgeon Superintendent, *Bangalore*.
Sir,—The 203 prisoners destined for Van Diemen's

and, pursuant to the instructions of Her Majesty's Government, being now embarked in the *Bangalore*, you will require the master to put to sea in the execution of your orders without delay.

The Inclosure No. 1, is a copy of the Order which I issued to this establishment, explanatory of the principles on which these prisoners are to be transferred to Van Diemen's Land.

You will have the goodness to hand it, with your other returns, to His Excellency the Lieutenant Governor of the Colony.

The Inclosure No. 2, is a copy of the address which I have this day made to the prisoners.

The deputy Superintendent of Convicts will hand you a list of the prisoners embarked in the *Bangalore*, as well as lists of 48 men selected for the station of sub-guards.

Relying with confidence upon your judgment and experience, and mindful that these persons are proceeding under every inducement to conduct themselves steadily.

I trust that you will find their behaviour steady, and their management perfectly easy.

I have, &c.,
(Signed) CHARLES ELLIOT.

Bermuda, April 9th, 1848.

To His Excellency Lieut. Governor,
Sir WILLIAM DENISON, Van Diemen's Land,

Sir,—I have the honor to acquaint you that the *Bangalore* will leave these islands to-day, bound to Van Diemen's Land, having on board 203 prisoners whom I have been instructed by Earl Grey to send on to that destination on the privilege of the ticket of leave, if the report of their conduct during the voyage shall seem to you to warrant that favour.

I have distinctly explained this condition to them both by written order, and in person.

They have been further informed that Her Majesty's Government has permitted me to recommend to your favorable notice the names of some of them to a conditional pardon at an early date after their arrival.

But I have not disclosed those names, thinking that uncertainty in that respect may strengthen the other motives to general circumspection throughout the whole body during the voyage and after their arrival in the colony.

The names recommended to your favorable consideration for this act of grace, when you see fit to extend it, have been conspicuously marked in the list by a red cross.

You will observe by the accompanying papers that these prisoners are creditors of the Crown in the considerable sum of £1071 19 11½; and I have directed the Assistant Commissary General in charge to acquaint the Commissary in Van Diemen's Land to that effect, and request him, whenever he may make any payments to those parties by your order, to charge the same to the account of the convict service at Bermuda.

I have also sent forward a guard from this establishment named George Cherry, who has been employed for some months past as a school master, on board one of the hulks, directing him to place himself under the orders of the surgeon superintendent, for the police and instruction of the people during the voyage.

May I request you, if his conduct shall appear to you to merit that consideration, to order him to be paid by the Commissary in Van Diemen's Land at the rate of £40 per annum, from the 1st inst., to the date of his discharge in Van Diemen's Land; this amount also to be charged to convict service at Bermuda.

I have thought it convenient to hand to the surgeon superintendent the copy of the instructions which I issued in November last, announcing to the prisoners in these hulks the considerate intentions of Her Majesty's Government in their behalf, in order that the principles upon which the selection has been made at Bermuda may be clearly understood, and I have requested him to forward that paper to you with his other returns.

With the sincere hope that the results of this experiment may be satisfactory,—

I have, &c.,
(Signed) CHARLES ELLIOT,
Governor of Bermuda.

Address made by Governor ELLIOT to the prisoners proceeding to Van Diemen's Land on the ticket of leave, in the *Bangalore*.

I will not let you leave this place without personally explaining to you, that your lot on arriving at Van Diemen's Land will depend entirely upon the report made of your conduct during the voyage by the surgeon superintendent; all those who behave steadily will land on the ticket of leave, and all those who have misconducted themselves on the voyage, or after their arrival in the colony, will return to the condition of prisoners of the Crown.

You should also know that I have been permitted to recommend some among you to conditional pardon at an early period after your arrival, if they continue to behave correctly.

I hope those whom I have selected will prove by their conduct that they merit this extended clemency of the Queen.

You are now fairly started on the way to freedom and an honest independence; not as beggars, or men utterly without character, but owing to the munificence and guardianship of Her Majesty's Government during your imprisonment, with some helpfulness in your pockets, and with a still more helpful certificate of industrious and orderly habits,—if you see fit to take advantage of it.

It will be your own heavy faults if you throw away these excellent prospects.

Be particularly wary of your conduct on arriving at Van Diemen's Land—avoid evil company and idleness (of which there are enough there as elsewhere) as you would dangerous diseases, and remember steadfastly that the least misconduct by men in your situation must be serious to you.

Encourage each other therefore for right purposes, and recollect that you are only acting justly for the body of your comrades, and prudently for yourselves by discountenancing and denouncing wrong doers.

In your situation the whole must suffer more or less for the misconduct of the few.

Repress it therefore openly, and with manly determination, whenever and by whomsoever of your body you see it is intended.

My last directions to you are few and simple:—

1st. To do exactly what you are ordered, promptly and cheerfully.

2nd. To deliver up the first thief of the smallest trifle to punishment.

3rd. To refrain from quarrels or oaths, or bad language, remembering that they are disgraceful to you as reasonable beings, and serious offences.

And I now, in all your presence, charge the surgeon superintendent to punish the first offender in this or any other respects in the most exemplary manner; severity at first is mercy at last; and habits of good language and good conduct once acquired are as easily followed as habits.

4th. To attend diligently to the schools, to employ your leisure hours in reading good and instructive books, and above all to read your bibles morning and evening.

5th. To maintain those habits of strict cleanliness which you have been taught in this establishment.

As I have said in one of my orders to you, remember that upon your conduct during this voyage, and the satisfaction you give where you are going, will probably depend the hope of your fellow prisoners here for a continuance of these beneficent purposes of Her Majesty's Government.

Office of the Central Board of Roads,
25th October 1848.

THE Central Board of Commissioners of Public Roads have directed it to be notified, for general information, that the new Pass through Mosterd's Hoek, and also the new Gydow Pass, to the Cold Bokkeveld, as well as the new Pass through the Karoo Poort to the Interior of the Colony, will be opened for the use of the public on the 1st of December next by His Excellency the Governor.

In accordance with the request of the Board, His Excellency the Governor has consented that the new Pass through Mosterd's Hoek shall be named "the Michell Pass."

The Board have at the same time ordered the publication of the following Correspondence, in order that the Public generally may be made aware that they have been steadily engaged in the peculiar labors for which they were appointed, viz, in opening Mountain Passes, filling up Ravines, and constructing Bridges over the Rivers which intersect the Main Roads of the Colony.

By order of the Board,
W. DE SMIDT, Secretary.

Office of the Central Board of Commissioners of
Public Roads, Cape Town, 18th Oct. 1848.

SIR,—I am directed by the Central Board of Commissioners of Public Roads to acquaint you, for the information of His Excellency the Governor, that the new line of Road through Mosterd's Hoek, the Warme Bokkeveld, Hottentot's Kloof, &c., being newly completed, will be ready for opening for the use of the Public on the 1st December next. I am further desired to communicate to you the substance of the report, which has been presented to the Board by Mr. Bain, the Inspector of Roads, under whose able superintendence the work has been conducted; and from a perusal of which His Excellency will be enabled to appreciate the difficulties that have been surmounted in the construction of this Pass.

In place of the old road through Mosterd's Hoek, one of the worst and most dangerous in the Colony, a safe and easy Pass has now been substituted.

The constant crossing and recrossing of the Breede River is avoided by the new line, which is carried along the right bank of the river, nearly parallel with it, till it emerges into the Warme Bokkeveld.—For a length of about five and a half miles it is scarped almost entirely out of the solid rock, and is strengthened by a retaining wall, varying from three to forty feet in height.

A massive stone bridge, 36 feet in height, and several stone culverts and viaducts, besides a number of drains of considerable extent, have been rendered necessary by the numerous gullies and ravines which intersect the line. With the exception of a hundred yards, which are not yet completed, the whole of this stupendous work has been constructed in little more than two years, by convict labour. That portion of it, which has been constructed by blasting, has required much labour and exertion, the rock being of a rough quartzose sandstone, frequently containing imbedded pebbles of pure quartz, in many parts exceedingly hard to drill, and so tenacious as to be very difficult to blast.

In connection with this Pass I am desired to announce the completion of the New Road from Mosterd's Hoek to the Karoo Poorts, and of the Gydow Pass to the Cold Bokkeveld.

The former of these passes through the Warme Bokkeveld, in a direct line about twenty-eight miles in length, avoiding the circuitous turnings of the Old Road, and is carried over the precipitous chain of mountains, between the Bokkeveld and the Karoo, by a deep scarp carried up the side of the mountain for one and a half mile, supported by a stone retaining wall, and is conducted to the lowest summit of the chain known as "Trek Pad;" through which all the sheep and cattle pass from the interior to the Cape Town Market; whence it descends by an easy road down Hottentot's Kloof to the poorts of the Karoo. At the bottom of the Kloof, where the outspan places, two large tanks will be constructed, thus opening the springs which have long been choked up.

The Gydow Pass was completed in July last. For six miles from Mosterd's Hoek no natural obstacles, of great difficulty, present themselves on this line of Road.

The road up the mountain is scarped from the hill side, and fortified by high and strong retaining walls.

The Dwaars River is crossed by a bridge, and beyond the Road is defended by retaining walls, varying from two to ten feet in height.

The whole length from the opening of the Mosterd's Hoek Pass to the Cold Bokkeveld is twelve miles.

The advantages which will result from the opening of the Mosterd's Hoek Pass and the roads connected with it can scarcely at present be estimated with any degree of correctness. The pass will form the grand focus of the interior trade from Cape Town and the "Boveland," besides opening up the extensive territories of the Klein, Middel and Onder Roggeveld, Hantam, Nieuweveld, Warm and Cold Bokkevelde, &c., which are among the most fertile and productive, though hitherto the least known districts, of the Colony.

It may not be amiss to mention that the Bokkeveld, despite of all the disadvantages which are now about to be removed, has established its name at Mark Lane as "producing the best wheat in the world," which will, of course, be very greatly increased, in quantity at least, by the greatly increased facilities of export.

The following extracts from Mr. Bain's report are too interesting, in the Board's opinion, to be omitted:

"One of the most important advantages which the

New Road will possess over the Old, is the distance gained, as the following statement will show:

"From the outspan place at Mr. Theron's, Breede River, where the Old and New Roads intersect at right angles, the distance by Worcester, Hex River, and to Carel van der Merwe's, near Karoo Poort, is fifteen hours on horseback; which, at the rate of six miles per hour, amounts to ninety miles.

"From Theron's to Carel van der Merwe's, by Moserd's Hoek, Hottentots Kloof, &c., is six hours or thirty six miles, being a saving of fifty four miles!

"By the Old Road at least fourteen oxen are required for an ordinary load; by the New, eight will be more than sufficient, besides the saving of the heavy tax, of from thirty to sixty Rds. which most travellers are compelled to pay for relays to drag their wagons through Hex River Kloof and up the mountain."

"The lock chain, that indispensable requisite of African travelling by the Old Road, can be entirely dispensed with on the New, as the gradient is in no place so steep as to require one; and the dangers and delays from deep and rapid rivers, which the Old Road so constantly presents, will be found entirely absent from the New."

"Thus have I endeavoured to show some of the advantages the public derive from the Mosterd's Hoek New Road, and as I have already commenced the continuation of this great trunk line, in the direction of Bain's Kloof, Wellington, &c., to Cape Town, I shall state the distances that will be saved by the adoption of this line."

"From Theron's outspan place, Breede River, to Cape Town, via Bain's Kloof, nine and a half hours!

"From Theron's to Cape Town, via New Kloof, thirteen and a half hours, which shows a saving in favor of Bain's Kloof of four hours, or twenty four miles!

"These 24 miles, added to the 54 gained by taking the Mosterd's Hoek Road, give (in the whole of the New line from Cape Town to C. van der Merwe's) the moderate saving of 78 miles."

"The Inhabitants of Worcester, Goudine, Hex River, Bosjesveld, Kogman's Kloof, &c., will, in an especial manner, benefit by the opening of Bain's Kloof, as the following distances will show."

"From Worcester to Cape Town, via Bain's Kloof, 12 hours."

"From Worcester to Cape Town, by New Kloof, eighteen hours, which shows a saving in favor of the new line between Worcester and Cape Town of six hours or 36 miles!"

"The curtailing of our roads will bring a vast influx of produce to market, which, at present will not pay the carriage, and as the new line will be perfectly available for the lightest spring vehicle, I do not despair in a few years of seeing our clumsy ox wagon disappear before the march of civilization."

The first of December next will be the first anniversary of the arrival of His Excellency the Governor among us, and if His Excellency would honor the Board by opening the Mosterd's Hoek Pass in person on that day, the Public would be highly gratified.

I am directed to submit the Board's opinion, in consideration of the great ability and exertions of the Surveyor General and Civil Engineer, who surveyed the ground and prepared the plans for this great work, as well as for the other great mountain Barriers throughout the Colony, and whose loss is indeed a public calamity, that a no more appropriate title could be chosen for the new Road through Mosterd's Hoek, than the "Michell Pass, if His Excellency will be pleased to sanction it.

I have the honor to be,

Sir,

Your most obedient servant,
W. DE SMIDT, Sec.

Colonial Office, 25th October 1848.

SIR,—In reply to your letter of the 18th instant, I am directed by His Excellency the Governor to inform you, that he will have much pleasure in being present to open the Mosterd's Hoek Pass on the 1st December next, and that he entirely concurs with the Commissioners of the Board in the selection which they have made of a name for the new Pass.

I have the honor to be,

Sir,

Your most obedient servant,
JOHN MONTAGU.

Board of Commissioners of

Cape Town, 15th November 1848.

Worthy the attention of the Public.

In the Estate of J. W. VAN DER RIET, Esq., deceased, late Civil Commissioner and Resident Magistrate of Uitenhage.

MRS. the Widow VAN DER RIET, in her capacity of Executrix of the above Estate, has instructed the Undersigned to sell by Auction

ON MONDAY AND TUESDAY,

THE 11th and 12th DECEMBER NEXT

at her Residence in this Town, on favorable terms, 1st. The well-known Mansion, (formerly the Drostdy Premises,) comprising a commodious Dwelling House, with spacious Drawing and Dining Rooms, 3 large Halls, numerous Sleeping Apartments, Kitchen, Pantry, Cellar, Out-offices for Servants, Stabling and every convenience requisite for a respectable Family,—having about 8 acres of rich and productive land attached, part of which is planted with a choice and rare collection of Fruit Trees.

To the Gentleman of fortune, whose health requires restoration, by the enjoyment of a mild and bracing climate, or to the Invalid retiring from the toils of a long and laborious service, passed in the enervating heat of the East, the situation of this Property, in an elevated part of the salubrious and rising Town of Uitenhage, commanding a picturesque view of all its gardens and buildings, bounded by the flowing stream of the Zwart Kops, offers a most tempting inducement.

Uitenhage being from its position on the direct road from the Western to the Eastern Province, and near to the second Port (Algoa Bay) of importance in the Colony, this Property is a most desirable residence, possessing, as it does, accommodation and convenience suitable for a private family, or for an Inn or Boarding Establishment.

2. A Plot of Ground in extent about 3 acres, being a frontage to the Caledon and Selwyn-streets, and the Market-square, and nearly facing the Public Offices, offering to Capitalists and Speculators a promising prospect of an advantageous return for the investment of money.

3. A Piece of Land, nearly opposite or facing Lot No. 1, to which it would be a valuable appendage, its extent being about 15 Acres, capable of being converted into a most agreeable park, valuable Vegetable Garden, or for depasturing cattle.

The whole of the Lands are capable of irrigation, and receive an allowance of Water from the Municipality at a trifling charge.

LIKEWISE

SPLENDID HOUSEHOLD FURNITURE,

of every description, consisting of Mahogany and other Tables, Mahogany Sideboards, Mahogany and other Chairs, two Piano Fortes, a great variety of Pictures, Looking Glasses, Sofas, Wardrobes, Bedsteads, Silver, Stone, Glass, Earthenware, &c. &c. &c.

ALSO

A Carriage on springs, with harness.
Saddle Horses, Fowling pieces,
Horse and Ox Wagons, and 35 head of fine Cattle.
&c. &c. &c.

The Conditions of Sale and plan of the Immoveable Property may be seen at our office (after the 20th instant,) and where further particulars can be obtained. The sale to commence each day at 10 o'clock precisely.

Uitenhage Town, 1st November, 1848.

KAAPSTAD DEN 16DEN NOVEMBER 1848.

Koloniale Secretary, Kaap de Goede Hoop,
14 Nov. 1848.

BY het gelasten van de publicatie van de nevensgaande Depeche van den Hoog-Ed. Secretaris van Staat, met deszelfs bylagen, verlang: Zyne Excellentie de Gouverneur te gelyker tyd eenen verkeerden indruk weg te nemen, welke schynt te zyn uitgegaan ten aanzien van de inzichten van het Gouvernement, op het onderwerp van het invoeren in deze Kolonie, van overtreders veroordeeld tot transportatie.

Zyne Excellentie verlangt bekend te maken dat de communicatie van Graaf Grey, twee geheel onderscheiden punten betreffende afscheidbaar in derzelve aard, en door Haer Majesteits Gouvernement, op onderscheiden tyden in overweging genomen.

De latere communicatie van Graaf Grey is, in vorm, onofficieel, en berigt Zyne Excellentie dat Haer Majesteits Gouvernement heeft besloten eene klasse van personen, die men verwachtte dat spoedig in Ierland zouden gevonden worden, voor publieke overtredingen, naar deze Kolonie te zenden, en dat de noodige Order in Rade tot dat einde zou derzelve zou worden uitgemakt en gepromulgeerd.

Van gevoelen zynde dat de verrigting door Graaf Grey beoogd, ten aanzien van deze klasse van personen, alreeds in werking is gebracht, achtte Zyne Excellentie het zyne pligt den Wetgevenden Raad bekend te maken met de kennisgeving door hem ontvangen, ter zeldere tyd denzelve, en de kolonie voor oogen houdende, dat tyden van moeijelykheid, gelyk die waarin het moederland nu gedompeld was, alle hulp vereischen van de kant van Zyne Excellentie, om te helpen in het weg nemen van de moeijelykheid,—hy echter ten sterkste tegen het maken van de Kaap de Goede tot eene straf kolonie voor ordinaire bandieten was, of voor eenige anderen, verder dan als eene tydelijke maatregel, gelyk de tegenwoordige.

De andere communicatie van den Hoog-Ed. Secretaris van Staat is de officieele Depeche, nu gepubliceerd, en belooft tot het aanbui van meerdere arbeid voor deze kolonie, door middel van het uitzenden van zoodanige veroordeelde personen, die eenen proef tyd van hunne straf hebben doorgestaan, en een certificaat van goed gedrag hebben verdiend, om den verderen tyd van hunne vonnissen in eene van Haer Majesteits Kolonien uit te dienen, onder welke voorgesteld werd de Kaap de Goede Hoop te begrypen; elangende Zyne Lordschap ter zeldere tyd, bevorens hy naar die laatste maatregel te werk ging, het gevoelen van de kolonisten in het algemeen, op dit onderwerp te bekomen, biedende de maatregel aan ter hunner aanneming, en niet vorderende dat dezelve zou worden uitgewerkt.

Ter Ordonnantie van Z. E. de Gouverneur,
(Get.) J. A. LE SUEUR,
Voor den Secretaris des Gouvernements.
Ambtshalve afw. zig.

Downingstreet, 7 Aug 1848.

Gouverneur Sir HENRY SMITH,
enz., enz., enz.

MYNHEER,—Ik heb de eer U-Ed. te doen toekomen de ingesloten copy van eene correspondentie, in Mei 11. aan het Parlement voorgelegd op het onderwerp van Bandieten tucht en transportatie. Velen van deze papieren zullen waarschijnlijk niet onbelangryk voor u zyn, maar myne dadyke bedoeling by het u toezenden van nevensgaande copy van denzelve, is, U-Eds. aandacht te vestigen op myne Depeche aan den Luitenant Gouverneur van Van Diemensland, No. 66, van April 11., waarin gy eene verklaring zult vinden van de inzichten van Haer Majesteit Gouvernement, ten aanzien van de toekomstige behandeling van overtreders, die gevonden worden ter transportatie.

Het is u zeker bekend dat het voor eenige tyd besloten is, dat alle bandieten in de eerste plaats eenen tyd van afgezonderde gevangenisstraf verschillende van 6 tot 18 maanden in dit land zouden doorstaan, gevolgd door arbeid aan de publieke werken, hetzyl hier of op Bermuda, of Gibraltar. Uit verscheiden nevensgaande papieren zult gy zien dat de gevolgen van deze tucht tot nog toe zeer voldoende zyn geweest. De brief van den Heer Kingsford, die zoo yverig en krachtadig zyne pligten als Kapellaan te Gibraltar, heeft volbragt, en welke is ingesloten in myne Depeche, boven bedoeld, draagt getuigenis van de goede en blykbaar standhoudende indrukken, te weeg gebracht op den geest der gedetineerden, die op die post onder zyne opmerking zyn gekomen. Terwyl zoodanige getuigenissen tot hun voordeel zyn ontvangen van Gibraltar en Port Philip, incloser ik tot uw narigt eene Depeche van den Gouverneur van Bermuda, waarin gy zult vinden dat hy de aangenaamste getuigenissen geeft van eene party lieden die hy heeft uitgekozen als verdienende het voorrecht van naar Van Diemensland te worden gezonden, met verlofskaarten (tickets of leave) en dat hy een sterk vooruitzicht bekijgt van verbetering in hun toekomstig gedrag en van de vermeerdering welke zy zullen zyn tot den nuttigen arbeid van de Kolonie.

Niettegenstaande d'ze hemoedigende omstandigheden is Haer Majesteits Gouvernement echter niet van gevoelen, dat, hetzyl niet inzicht om de goede orde te bewaren, of het aandoen van eene voorgaande hooveelheid straf, onder derzelve oorspronkelyke vonnissen deze lieden met eene geheel op vrye voeten moeten worden gesteld, by hune aankomst in de Kolonie, werwaards zy, na een zeker tyd, van goed gedrag zullen worden gezonden. Het is verklyker beschouwd hen liever verlof kaarten te vergaaten. Deze laten toe hen te beperken tot byzondere districten, en aan te dringen op de punctueele betaling van nuttige sommen, in betaling van de kosten van hun vervoer, maar verhinderen verder de vryheid niet van de lieden aan wien zy verleend zyn, noch verminderen de gewone aansprikkingen tot vlyt en goed gedrag.

Gy zult verder zien, dat terwyl het wordt voorgesteld van deze lieden de terugbetaling te vorderen van hun vervoer naar de Kolonien, naar welke zy uiteindelijk worden gezonden, om dat, men oordeelt dat zy geen vrye passage moeten genieten, welke niet kan worden verleend aan velen derzelve, onovertuigd van misdaden, die om dat voortziet aanziek doen, te gelyker tyd wordt voorgesteld, dat alle sommen welke dus van hen worden gecoucoureerd zullen worden aangewend, niet om dit land te verlichten van de kosten voor hen gemaakt, maar ten voordeele van de Kolonien welke hen ontvangen, hetzyl door het uitzenden van vrye Emigranten, om te voldoen aan de groote aanvraag naar arbeid, welke in de meeste der Kolonien bestaat, of op eenige andere wys, zoo als het geschikt zal zyn voor d'omstandigheden van iederen derzelve.

Dit het systema zynde waarop wordt voorgesteld in het toekomstige te werk te gaan, geloof ik het recht U-Ed. aan te toonen, dat, indien de Ingezeten van de Kaap de Goede Hoop, gewillig zyn lieden met verlof kaarten te ontvangen, zy de voordelen zullen bekomen van eenen vervoer, van arbeid, met eene waarschynlyke vermeerdering tot het fonds toepasselyk tot algemeene Emigratie, of eenig ander publiek doel, van belang, terwyl door het vermogen dat gereserveerd wordt om deze lieden in onderscheiden districten te verspreiden, benevens den hervormden aard van hunne vroegere straf, er goede reden is te hoopen, dat hunne tegenwoordigheid in matig getal, niet schadelijk zal worden bevonden voor het algemeene karakter van de maatschappij.

De dringende voorstellen beschonwende welke bestaan, dig op dit bureau worden ontvangen, over het gebrek aan een genoegzame toevvoer van arbeid, schynt het mogelyk dat indien dit stelsel van bandieten tucht wel wierde verstaan, de kolonisten verlangend zouden zyn, lieden te ontvangen, op de voorgaande termen, in het laatste tydperk van hunnen straf tyd, en op zyn een gunst g'getuigenissen bekomen van de overheden onder wier bestuur zy zyn geplaatst geweest. Het zou my daarom aangenaam zyn, indien gy koudt verneemen, op de wyze welke u het meest gepast schynt, hoe verre dit het heerschend gevoelen zou zyn in de kolonie onder uw gouvernement, en indien ik van u hoor dat de maatregel verlangd wordt, zou ik bereid zyn de noodige stappen te nemen, om de Kaap de Goede Hoop te besniten onder de plaatsen waarin bandieten, die verlofskaarten hebben, kunnen worden ingevoerd.

Ik heb de eer te zyn,

Mynheer,

Uw gehoorzame, o. tmoedige dienaar,

GREY.

Bermuda, 5 April 1848.

Den Hoog-Ed. Graaf GREY.

MYNHEER.—Ik heb de eer copyen over te zenden van de Depeches, welke ik heb geaddresserd aan den Luitenant Gouverneur van Van Diemensland, met met de 203 gedetineerden die onlangs aan boord van de *Bangalore* naar hune bestemming zyn vertrokken, zoo wel als eene copy van mynen brief aan den Chirurgyn Superintendent; en van eene aanspraak welke ik aan die lieden heb gedaan by hun vertrek.

Het schip werd van den 9den tot den 11den door den schipper opgehouden, om redenen niet verbonden met de publieke dienst, zoo dat er geene aanspraak kan zyn op legdagen voor dien tyd.

Maar ik betreurde deze omstandigheid te minder, daar het eene gelegenheid gaf om te oordeelen over het gedrag van de gedetineerden, na hun ontslag uit het confinement, en de strenge tucht der hulken.

De Chirurgyn zeide aan de officieren van het etablissement, op den morgen van zyn vertrek, dat er geen enkele klagte was geweest, dat hy het volk byzonder ordelyk, schoon, behulpzaam, en vriendelyk jegens elkander en verstandig in hune wegen had bevonden.

De deur van de gevangenis, aan boord van de *Bangalore*, was den gheelen dag open geweest.

Ik heb geen twyfel of zy zullen zich naar zyn genoegeen blyven gedragen, en ben geinzind te gelooven dat de Kolonie van Van Diemensland zeldzaam 203 volwassen passagiers met een schip zal hebben ontvangen, bevattende een grooter getal nuttige settlers in eenen nieuwe land, dan die welke in de *Bangalore* zullen aankomen.

Velen van hen zyn zeer bekwame ambachtslieden, en zy zyn allen opgeleid tot gewoonten van geregelde en arbeidzame nyverheid.

Zy hebben mede allen de slechte gevolgen onderzonden van wangedrag en de voordeelen van gereeldheid, en ik hoop dat eepe overpeinzing, welke ik op hen heb gedragen, deszelfs behoelyk gewigt zal hen,—dat is de groote moeijelykheden in eenig deel vertrouwen en aanziet te herwinnen door lieden van hunne klasse, en de zekheid van deszelfs geheel verlies in geval van eenen terugkeer tot slechte wegen.

Uwe Lordschap zal zien uit myne depeche aan Sir William Dennison, dat zy creditoren van de kroon zyn, voor gereserveerde diensten, tot de aanzienlyke som van £1071.

Er moet mede verklaard worden, dat er boven dien som aan dit etablissement betaald of verschuldigd is, voor horenen arbeid, door departementen die hen gebrukte £192 11 4.

Dit bedragen volgens de instructie kan niet op hun credit worden gebracht, zynde verdiend gedurende wat genoemd wordt de beproevingstyd, dat is gedurende de eerste jaren na de convictie, maar indien zy zich in Australie naar behooren blyven gedragen, zal Haer Majesteits Gouvernement, dat mischien goetvinden het dienstelyk te maken tot het helpen in de passagie vervoers van eene van hune vrouwelyke nabestaanden, die verlangen zich b. hen te voegen.

Allen die in de gevangenis raken, zijn niet onverbetterlijk en ik heb het smart-lyk bewys voor my, dat rampspoed en misleiding van anderen het volle deel hebben in de oorzaken welke die poorten achter hen sluiten.

Ik geloof dat dit plan, zorgvuldig uitgewerkt zynde, gelukkig is verzonnen voor de aanmoediging van welgezinde gedetineerden, en tot hulp van ongelukkige en ongelukkige huisgezinnen.

Wetende dat Uwe Lordschap diep belang stelt om hen alle mogelijke beweegredenen en hulp te verschaffen, om binnen goeden naam te herstellen, hoop ik dat deze voorzichten zullen verschoond worden.

Ik heb vergeten te melden dat een van de 24 gedetineerden, gemeld in de lijst naar Engeland gezonden, overleden is voor de aankomst van de *Bangalore*, en volgens de instructies is zyne plaats niet aangevuld.

Ik heb, enz.,
(Get.) CHARLES ELLIOT, Gouverneur,
Bermuda, 9 April 1848.

Den Heer HARVEY MORRIS,
Chirurgyn Superintendent *Bangalore*.
Mynheer,—De 23 gedetineerden bestemd naar Van Diemens Land, ingevolge van de instructies van Hare Majesteits Gouvernement, nu aan boord zynde van de *Bangalore*, zult gy den Schipper gelasten overwylt naar zee te gaan, in de volbrenging van uwe orders.

De hylage No. 1 is een copy van de order, welke ik aan dit etablissement heb uitgevaardigd, verklarende de principes waarop deze gevangenen, naar Van Diemensland moeten gevoerd worden.

Gy zult de goedheid hebben dezelfde met uwe andere opzake aan Zyne Excellentie den Gouverneur der kolonie te overhandigen.

De hylage No. 2, is de aanspraak welke ik heden aan de gedetineerden heb gedaan.

De adjunct Superintendent van bandieten zal u een lijst overhandigen van de gedetineerden, geëmbarkerd aan boord van de *Bangalore*, zoo wel als de lijst van 48 lieden verzozen als onderwachters.

Stehende met vertrouwen op uw oordeel en ondervinding en bedenkende dat deze personen uitgaan onder iedere aanmoediging om zich wel te gedragen, vertrouw ik dat gy hun gedrag rustig en hun bestuur gemakkelijk zult vinden.

Ik heb, enz.,
(Get.) CHARLES ELLIOT, Gouverneur,
Bermuda, 9 April 1848.

Zyne Excellentie Luit.-Gouverneur,
Sir WILLIAM DENISON, Van Diemensland.

Mynheer,—Ik heb de eer U-Ed. te berigten dat de *Bangalore* op heden van hier zal vertrekken, bestemd naar Van Diemensland, aan boord hebbende 203 gedetineerden, die ik gelast ben door Graaf Grey, naar die bestemming te zenden onder het privilegie van verlof kaarten, indien het rapport van hun gedrag gedurende de reis u zal toerchypen die gunst te regvaardigen.

Ik heb hen duidelijk deze voorwaarde verklaard, zoowel schriftelijk als by munde.

Zy zijn mede berigt dat Hare Majesteits Gouvernment my heeft veroorloofd aan uwe oplettendheid de namen te recomanderen van sommigen van hen, tot een conditioneel pardon op eenen korten tyd na hunne aankomst.

Maar ik heb deze namen hen niet bekend gemaakt, gelovende dat de onzekerheid op dat opzigt, de andere h weegredenen tot algemeene omzigtigheid, zou versterken door het geheele ligchaam, gedurende de reis en na hunne aankomst in de Kolonie.

De namen ter uwen gunstige overweging aanbevelen, wanneer gy zulks goed vindt, zijn op de lijst opvallend met een rood kruis gemerkt.

Gy zult uit de nevensstaande papieren zien dat deze gedetineerden de crediteurs van de kroon zijn tot de aanzienlyke term van £1071 19 11½ en ik heb den Assistent Commissaris (Generaal), in opzigt, gelast den Commissaris op Van Diemens Land daarvan te berigten en hem te verzoeken wanneer hy eenige betalingen aan die lieden doet op uwe last, hetzelfde te chargeren op rekening van Bandietendienst op Bermuda.

Ik heb mede eenen wachter van dit etablissement medegezonden, genaamd GEORGE CHERRY, die gedurende eenige maanden is gebruikt geweest als een schoolmeester, aan boord van een van de hulken, hem gelastende zich te stellen onder de orders van den chirurgyn superintendent, voor de politie en het onderwys van het volk op de reis.

Mag ik u verzoeken, indien zyn gedrag u zal toerchypen zulke gunst te verdienen, hem door de Commissaris op Van Diemens Land te laten betalen tegen £40 per jaar, van den 1sten dezer, tot den dag van zyn ontslag op Van Diemens Land. Dit bedrag moet mede worden gechargeerd op de Bandieten dienst op Bermuda.

Ik heb het dienstig geoordeeld aan den Chirurgyn Superintendent de copy te overhandigen van de instructies welke ik heb uitgevaardigd in Nov. 11, berigende de gedetineerden in deze hulken de weldadige bedoelingen van Hare Majesteits Gouvernement, ten huinen opzichte, ten einde dat de principes waarop de kens te Bermuda is gedaan, duidelijk mogen verstaan worden, en ik heb hem verzocht U-Ed. dat papier, nevens zyne andere rapporten te doen toekomen.

Met ernstige hoop dat de gevolgen van deze proefneming gunstig zullen zijn.

Heb ik de eer, enz.,
(Get.) CHARLES ELLIOT,
Gouverneur van Bermuda.

Aanspraak door den Gouverneur ELLIOT, aan de gedetineerden, gaande naar Van Diemensland op verlof kaarten, per *Bangalore*.

Ik kan u deze plaats niet laten verlaten zonder in persoon te verklaren, dat uw lot by uwe aankomst op Van Diemensland geheel zal afhangen van het rapport van uw gedrag, gedaan door den Chirurgyn Superintendent; allen die zich wel gedragen, zullen landen op verlof kaarten, en diegenen die zich misdagen gedurende de reis of na derzelver aankomst in de Kolonie, zullen terug keeren tot den staat van gevangenen van den kroon.

Gy moet mede weten dat het my vergund is sommigen uwer te recomanderen tot een conditioneel pardon, op eenen vroegen tyd na uwe aankomst, indien gy u wel blijft gedragen.

Ik hoop dat diegenen die ik uitgekozen heb door hun gedrag zullen toonen dat zy deze uitgestrekte genade van de Koningin verdienen.

Gy zyt nu regt op den weg naar vryheid, en eene eerlyke onafhankelykheid; niet als bedelaars of lieden geheel zonder goeden naam, maar door de weldadigheid en toezicht van Hare Majesteits Gouvernement gedurende uwe gevangenis, met eenige hulp in uwe zakken, en met een n g veel hulpzamer certifficaat van gewoonten van orde en nyverheid, - indien gy daarvan gebruik wilt maken.

Het zal uw eigeu zware schuld zyn, indien gy deze voordeelige vooruitzichten verwerpt.

Wees byzonder oplettend op uw gedrag by uwe aankomst op Van Diemens Land, - ontwyk kwaad gezelschap en ledigheid, (waaraan er daar genoeg is, even als elders) zoo als gy gevaarlyke ziekten wilt ongaan, en herinner u bestendig dat het minste wangedrag van lieden in uwen stand vernielend voor u moet zyn.

Moedig elkander dus aan tot goede einden, en houdt in het oog dat gy alleen dan regtvaardig handelt voor het ligchaam van uwe lotgenooten, en voorzigtig voor uzelf, wanneer gy kwaaddeeners vermydt en aangeeft.

In uwen stand moet het geheel, meer of min, lyden, door het wangedrag van weinigen.

Gaat het daarom openlyk te keer, en met mannelyk besluit wanneer en waar gy ziet dat het door iemand uwer bedoeld wordt.

Myn laatste vermaningen aan u zyn weinig en eenvoudige.

1. Om stiptelyk te doen wat u gelast wordt, spoedig en gewillig.

2. Den eers'en dief, voor de geringste kleinigheid, tot straf over te leveren.

3. U te onthouden van twist en vloeken of booze taal, voor oogen houdende dat dezelve schandelyk zyn voor uals redelyke wezens, en ernstige overtredingen.

En nu in uwer aller tegenwoordigheid gelast ik den Chirurgyn Superintendent, den eersten overtreder in dit of eenig ander opzigt op de voorbedachte wyze te straffen strengheid in den beginne is genade op het einde, en gewoonten van goede taal en goed gedrag eens aangewonnen, worden na' erhand gemakkelijk gevolgd.

4. Vlytig de school by te wonen, uweledige uren door te brengen met het lezen van nuttige en onderrigtende boeken; en boven alles des morgens en des avonds uwen bybel te lezen.

Zoo als ik heb gezegd in een van myne orders aan u, herinner u dat van uw gedrag gedurende deze reis, en de voldoening welke gy zult geven op de plaats waar gy naar toegaat waarschijnlijk de hoop van uwe medegevangenen alhier afhangt, op een voortdurend van de weldadige bedoelingen van Hare Majesteits Gouvernement.

Kantoor van het Centrale College van Commissarissen van Publieke Wegen, Kaapstad, 25 Oct. 1844.

HET Centrale College van Publieke Wegen heeft gelast bekend te maken tot algemeen nariet dat de Nieuwe Pas door de Mosterds Hoek en mede de Nieuwe Gydow Pas, naar het Koude Bokkeveld, zoo wel als de Nieuwe Pas door de Karoo Poort, naar de Binnendeelen der Kolonie, voor het Publiek gebruik zullen worden geopend op den 1 December aanst., door zyne Excellentie den Gouverneur.

Volgens verzoek van het College heeft Zyne Excellentie toegestemd dat de Nieuwe Pas door Mosterds Hoek zal worden genaamd "de Mitchell Pas."

Het College heeft te gelyker tyd de publicatie gelast van de volgende correspondentie, ten einde het publiek moge worden bekend gemaakt, dat hetzelfde bestendig is b zig geweest in de byzondere pligt waarvoor het is aangesteld, t.w.: in het openen van Berg Passen, het opvullen van kloven en het maken van Bruggen over de Rivieren welke de groote wegen der Kolonie doorsnyden.

Namens het College,
W. DE SMIDT, Sec.

Kantoor van het Centrale College van Commissarissen van Publieke Wegen, Kaapstad, 18 Oct. 1848.

Mynheer,—Ik ben gelast door het Centrale College van Commissarissen van Publieke Wegen, U-Ed. bekend te maken, tot nariet van Zyne Excellentie den Gouverneur, dat de Nieuwe lyn van weg door de Mosterds Hoek, het Warme Bokkeveld, Hottentotskloof, enz., - langzams zynde voltooid, op den 1sten December aanst. zal gereed zyn om voor het Publiek te worden geopend. Ik ben verder gelast U-Ed. de zelfstandigheid te melden van het rapport dat aan het College is gerepresenteerd door den Hr. Bain, den Inspecteur van Wegen, onder wiens bekwaam toezicht het werk voltooid is, en uit welks lezing u Excellentie in staat zal zyn de moeyelykeden te begrypen, welke men in het vormen van de Pas moest te b ven komen.

In plaats van den ouden Weg door de Mosterds Hoek, een van de moeyelyke en gevaarlyksten in de Kolonie, is nu eene veilige en gemaklyke Pas daargesteld.

Het gestadig over en weder trekken van de Breederivier is ontgaan door de Nieuwe lyn, gaande langs de linker oever van de rivier, byna evenwydig met de zelve, tot de zelve uitkomt in het Warme Bokkeveld, gedurende eene lengte van byna vyf en eene halve myl, is de zelve byna geheel uit de vaste rots gehouwen, en versterkt door een steenmuur van drie tot veertig voeten hoog.

Een massieve steenen brug van 36 voeten hoog, en verscheiden steenen watergangen en bruggen, benevens talryke waterloozingen van aanzienlyke uitgestrektheid, zyn noodig gemaakt door de talryke geulen en klooven welke de lyn doorsnyden. Met de uitzondering van honderd yards, welke nog niet voltooid zyn, is het geheel van dit ontzettende werk volbragt in weinig meer dan twee jaren, door bandieten arbeid. Dat deel er van dat heeft moeten worden gemaakt door mineren, heeft veel moeite en arbeid gekost, zynde de rots een ruwe quartzachtige zandsteen, bevattende dikwyls klompen van zuivere quartz in veel, deelen zeer hard om te booren, en zoo taai, dat men dezelve maar met moeite kon doen springen.

Verboden met deze Pas, ben ik gelast de voltooying te

melden van den Nieuwen Weg van Mosterds Hoek naar de Karoo Poort, en van de Gydow Pas naar het Koude Bokkeveld.

De eerste van deze passen door het Warme Bokkeveld, in eenen directen lyn omtrent 2½ mylen lang, vermydende de wendingen van de Oude Weg, is gevoerd over een steile bergketen tusschen het Bokkeveld en de Karoo, door een diepe schuinde langs den zyde van den berg, ander half myl lang, geschaagd door eenen steenen steenmuur, en wordt gevoerd over de laagste top van de keten bekend als "Trekpad," waarvoor al de schapen en het vee uit de binnendeelen naar de Kaapstad markt gevoerd worden, van daar gaat dezelve langs een gemaklyke weg af door de Hottentots Kloof, naar de poort van de Karoo. Aan de bodem van de Kloof, waar de uitspan plaats is, zullen twee groote winterbakken worden gevormd, openende dus de fonteynen welke lang verstoppt zyn.

De Gydow Pas is voltooid in July 11. In zes mylen van Mosterds Hoek hebben zich geen natuuryke hinderpalen van groote moeyelykheid voorgedaan.

De weg bergop is uit de zyde van den berg uitgekapt, en bevestigd met sterke steenmuren.

De Dwars Rivier wordt overspannen door een burg, en verder is de weg beschermd door steenmuren van twee tot tien voeten hoog.

De geheele lengte van de opening van Mosterds Hoek Pas tot het Koude Bokkeveld is 12 mylen.

De voordeelen welke zullen ontstaan uit het openen van de Mosterds Hoeks Pas en de wegen daar mede verbonden kunnen tegenwoordig niet naauwkeurig berekend worden. De pas zal het groote brandpunt uit maken van den handel van de Kaapstad met het "Boveland" behalve het openen van de Klein, Middel en Onder Roggevelds, Hantam, Nieuwveld, Warme en Koude Bokkeveld, behoorende tot de vruchtbaarste, maar tot nu toe minst bekende deelen der Kolonie.

Het zal niet verkeerd zyn te melden dat het Bokkeveld in spyt van deszells nadeelen, welke nu zullen worden uit den weg geruimd, deszels naam heeft bekend gemaakt in Mark Lane als "voort brengende het beste koren ter wereld" dat natuuryk, grootelyk zal worden vermeerderd, ten minste in hoeveelheid, door de grootelyk vermeerderde gemakken van uitvoer.

De volgende uittrekselen uit het rapport van den Heer Bain, zyn in het gevoelen van het College te belangryk om te worden uitgelaten.

"Een van de belangrykste voordeelen welke de Nieuwe Weg zal bezitten over den Ouden, is de gewonnen afstand, zoo als de volgende opgave zal toonen.

"Van de Uitspanplaats by den Heer Theron aan Breede Rivier, waar de Oude en Nieuwe Wegen elkander byna regthoekig snyden, is de afstand langs Worcester, Heks Rivier, en naar Carol van der Merwe, naby Karroos Poort, vyftien uren te paard, dat tegen zes mylen per uur, negentig mylen is.

"Van Theron naar Carol van der Merwe, door Mosterds Hoek, Hottentots Kloof, enz., is 6 uren, of 36 mylen zynde eene besparing van 54 mylen.

"Langs den Ouden Weg waren ten minsten 14 Ossen noodig voor een gewoone vracht, langs den Nieuwen zullen s meer dan genoegzaam zyn, behalve, het besparen van den zauren last van 3 tot 60 Rds. voor voorspannen om de wagens door Heks Rivier Kloofen den Berg op te slepen.

"De renketting, dat onvermydelijk vereischte van reizen langs den ouden weg, kan geheel worden weg gelaten op den nieuwen, daar de dalings nergens zoo steil is om dezelve noodig te maken; en de gevaaren van verwyl door de diepe en snelle rivieren, welke de oude Weg zoo dikwyls aanbiedt zullen geheel weggenomen zyn op den nieuwen.

"Ik heb dus getracht eenige voordeelen te toonen, welke het Publiek zal trekken uit den Mosterds Hoek Nieuwen Weg, en daar ik reeds heb begonnen den voortgang van dezen Hoofdweg te maken naar de Bainskloof, Wellington, enz. naar de Kaapstad, zal ik de afstanden melden welke zullen te paard worden door het aannemen van dezen Weg.

"Van Theron's Uitspanplaats, Breede Rivier, naar de Kaapstad, over Bainskloof, negen en een half uren.

Van Theron naar de Kaapstad, over Nieuwekloof dertien en een half uren, te nede eene besparing ten voordeele van Bainskloof van vier uren of 24 mylen.

"Deze 24 mylen gevoegd by de 54 mylen gewonnen door Mosterds Hoeks Weg, geven in het geheel van den Nieuwen lyn van de Kaapstad, naar C. van der Merwe de matige besparing van 78 mylen.

"De lugezetten van Worcester, Goudinie, Heks Rivier, Boschjesveld, Kogmans Kloof, enz., zullen gelykelyk worden bevoordeeld door het openen van de Bains Kloof, zoo als de volgende afstanden zullen toonen.

"Van Worcester naar de Kaapstad, door Bains Kloof, 12 uren.

"Van Worcester naar de Kaapstad, door de Nieuwe Kloof, 18 uren, tooneude eene besparing ten voordeele van den Nieuwen Weg tusschen Worcester en de Kaapstad van 6 uren of 36 mylen.

"Het bekorten van onze Wegen, zal eene groote vermeerdering van Producten naar onze markt voeren, welke tegenwoordige kosten van vervoer niet goedmaken, en daar de Nieuwe lyn van Weg gebruikbaar zal zyn voor de ligste wagens op veeren, wanhoop ik niet binnen weinige jaren, onze lompe Ossenwagens geheel te zullen zien verdwynen voor de voortgang van beschaving."

De eerste December aanst. zal de eerste verjaring zyn van de aankomst van Zyne Excellentie den Gouverneur in ons midden en indien Zyne Excellentie het College wilde vereeren door het openen van den Mosterds Hoeks Pas, in persoon zou het Publiek daaruit groot behagen scheppen.

Ik ben gelast het gevoelen te verklaren van het College over de groote bekwaamheid en inspanningen van den Inspecteur Generaal en Civilen Ingenieur, die den grond heeft opgemeten en het plan heeft bereidt voor dit groot werk, zoo wel als voor de andere groot berg hinderpalen over de Kolonie, en wiens verties indeed een groote ramp is voor deze Kolonie, en dat geen geschikter naam kan worden gegeven aan den Nieuwen Weg door Mosterds Hoek, dan de "Mitchell's Pas," indien Zyne Excellentie kan goed vinden het goed te keuren.

Ik heb de eer te zyn, Mynheer,
U-Ed. gehoorzame Dienaar,
W. DE SMIDT, Sec.

Koloniale Secretary, Kaapstad, 25 Oct. 1848.

CAPE TOWN: Printed and Published for the Contractor

by SAUL SOLOMON, Gazette Office, St. George's-street.

5. The Commission are entrusted by His Excellency with the investigation of all Claims to Land in the Division of Albert; which Claims, as they are received, shall be regularly numbered and entered in a Register, which shall have separate columns for reference to the Reports thereon, and other matters, so as to present briefly a view of the course of proceeding in each case.

6. The Commission are further entrusted with the investigation and provisional decision, on the spot, of all cases of disputed Boundaries between the Lands appertaining to contiguous Farms.

7. The Commission are further charged with the duty of assessing the extent of Land to be ceded under every Claim which they shall decide on recommending as sufficient to warrant a Grant by His Excellency the Governor.

8. The Commission will carefully assess the value of each such extent, for the purpose of fixing the Quitrent.

9. In the performance of these duties, the Commission will be guided generally by the principles contained in the following remarks; always, however, recollecting that it is the wish of the Governor to adopt as liberal a line of policy as His Excellency can with reason follow out in dealing with the Claimants,—so that the Commission are not debarred from bringing to His Excellency's notice even such unsupported, or insufficiently supported, Claims as they may deem worthy of attention, either from the merits of the individual case, or on account of the general welfare of the Division.

10. The only Claim which can be allowed must rest upon fixed occupancy of Land at the date of the annexation of the Division to the Colony, viz., 9th January last; and the number of Cattle or Sheep, &c., and the extent of Cultivation, must be taken by the Commission as the grounds for recommending comparatively the extents to be granted under each Claim. The proof of the fact and extent of such occupancy may be given by certificate of any Field-commandant, Field-cornet, or other respectable Inhabitant, to the satisfaction of the Commission.

11. When two or more Claims are made for the same Land, further proof must be obtained, and each Claim must show on its face a reference to all the opposing Claims affecting it. The Commission will report fully their opinion as to the equitable decision thereof.

12. Many Claimants may have fully occupied a much larger extent than 3000 morgen,—the limit beyond which His Excellency is unwilling to sanction or grant; but in most of such cases it will probably be ascertained that various members of the family are living on the Homestead, and that their Flocks and Herds are separate property, although grazing in common. It is within the duty of the Commission to recommend on a separate Claim, a separate Grant to each Person, of such extent as to make up the quantity fully occupied, stating clearly the circumstances; otherwise, when requested, the excess above 3000 morgen may be put up for public Sale, at an Upset Price of not less than Two Shillings an acre, as fixed by the Regulations of Her Majesty's Secretary of State.

13. In the provisional decision of disputed Boundaries, the Commission are left to their own sense of justice. It will, however, be well to preserve a short note of the grounds of the decision, to be forwarded when the final approval of Government is required.

14. In the assessment of the value of Land, for the purpose of taking a percentage thereof as the fixed Quitrent, the Commission are carefully to avoid the imposition of any unequal burden on the industrious, by the valuation of *past improvements* of any description. They are to assess the value of the Land in a state of Nature, according to its capability of improvement. The Quitrent is to be paid from the date of the annexation of the District to the Colony, viz., 9th January last.

15. In all cases, whenever it can be fairly accomplished, the Land is, if possible, to be so divided as to leave equal portions of Water to equal extents of Ground, whether claimed or unclaimed Government Land, so that a monopoly of the former may not ensure to the adjacent owners an undue use of the latter.

16. The Reports of the Board are to show clearly in one Section the whole of the Servitudes to be inserted in the Grants, beyond the usual Conditions, and any that may be decided on as generally applicable to the whole of the Grants issued in the Division, such as for Water Courses, Roads, &c. &c.

17. The Commission are provisionally to decide on the Reservations necessary for Outspan, Sites of Villages, and other public purposes,—and are, if possible, to provide for the allotment of similar Lands in the vicinity, to meet the Claims to such Reserves.

18. In every clear and undisputed case, the Commission will immediately issue a Land Ticket to the Claimant, and register a Duplicate in the Commission Records. This Ticket should contain a short description of the Land, its situation and extent; it may be made transferable by endorsement, and will be exchanged for a regular Title Deed as soon as possible,—but if lost or mislaid before that time, it must be advertised three months, at the expense of the Claimant, before the regular Title Deed can be issued in his name.

19. All surplus Lands after satisfaction of claims are to be sold by Auction under the Government Regulations dated 15th May 1844. Copy of which is annexed. The Commission will superintend their division into Lots, and report as to the times and places best suited for offering such lands for sale.

20. The Commission will immediately take measures for putting up to public sale such a number of the lots of land in the proposed Villages, as they may judge expedient for the interests of Government, and the improvement of the District,—and for that purpose, they will as soon as possible transmit the usual lists and recommendations as to upset prices, plan of sale, &c., so that the necessary Proclamation may be published.

The Commission will probably find it inconvenient or inexpedient to adhere strictly to the foregoing general rules, which are to be looked on as defining the general

fixed principles, and as containing His Excellency's wishes on the subject, and considerable latitude is consequently authorized; but as it is necessary that the opinions and decisions of the Commission should be guided by some certain general principles, any important deviations from those above explained must be immediately reported, for the approval of His Excellency the Governor.

22. Every facility will be afforded by this Office to aid the Commission in their labors, and you are directed to afford similar assistance in your Department, and especially attend to the immediate transmission of all Reports and Claims.

23. The Reports of the Commission on each Claim are to be forwarded through the Surveyor-General's Department, so as to provide for effectual Registry; and all Correspondence with the Government, connected with this Commission, is to be conducted through the medium of the Surveyor-General.

I have the honor to be,

Sir,

Your obedient Servant,

(Signed) JOHN MONTAGU,
Secretary to Government.

WHAT IS IT A NAME?

THE philosophic axiom, that there is no absolute or
necessary connection between a name and the
thing nominated, has been singularly comprehended,
and most cunningly acted upon, by an *Empirical Pele*
and *Mortal Philosopher* of this City. In as far as he
has surreptitiously imparted to a vile compound of his
own production, the name of my unrivalled perfume for
the *Handkerchief and Boudoir*, and deceitfully imitated
my labels for the same, so closely as to mislead
inattentive buyers. Let the Public, therefore, beware
of such disgracefully avaricious chicane, (whether in
vending physic or perfumery) and remember that I am
the sole proprietor, compounder, and vender, of the un
rivalled perfume, *Real Omar Essence*; and that the
label on every bottle of the genuine article must bear my
signature.

ORDONNANTIE

Vastgesteld door den Gouverneur van de Kolonie de Kaap de Goede Hoop, met advies en consent van den Wetgevenden Raad van dezelve.

Tot het emenderen van de Ordonnantie No. 1, 1840, getiteld "Ordonnantie voor de betere regulatie van het Municipale College voor de Kaapstad en nabyheid daarvan"

ADEMAAL by de 64 sectie van de Ordonnantie No. 1, 1840, getiteld "Ordonnantie voor de betere regulatie van het Municipale College van de Kaapstad en de nabyheid daarvan," is voorzien (onder andere zaken) dat geen commissaris van de gez. Municipaliteit, directelyk of indirectelyk een aannemen zal mogen worden. voor eenig werk te worden gedaan, noch materialen worden geleverd voor de commissarissen van de gez. municipaliteit, voor de einde en uit kracht van de gez. Ordonnantie, — en dat geen commissaris zal vermogen te tenderen voor eenige aanbesteding het zy in zynen eigen naam, of in den naam van, of gezamenlyk met eenig ander persoon, op straffe (onder andere zaken) van te worden beschouwd als hebbende *ipso facto* zyn ambt van commissaris ontruimd, en onverkiesbaar te zyn geworden ter verkiezing, op eenigen anderen tyd om te dienen als zoodanig commissaris: En nademaal, na het passeren van de gez. Ordonnantie No. 1, 1840, eene zekere maatschappij of compagnieschap in de Kaapstad is gevormd, genaamd de "Cape of Good Hope Gaslight Maatschappij, tot het einde om de gez. Stad met Gas te voorzien, — in welke maatschappij of compagnieschap een aantal ingezetenen, verlangende by te dragen tot de veiligheid, gemak en versiering van de gez. Stad, en, onder anderen, zekere van de commissarissen van gez. Municipaliteit, deelhebbers zyn geworden. En nademaal op of omtrent den 4den Maart 1847 een contract behoorlyk is aangegaan tusschen de gez. gasmaatschappij en de commissarissen van de gez. municipaliteit voor het gedeeltyk verlichten van de gez. stad met gas, door de gez. maatschappij, op zekere termen en voorwaarden, en van zekere betaling of belooning in gez. contract vermeld: En nademaal, er twyffelingen bestaan of zoodanige deelhebbers van gez. gasmaatschappij, die ten tyde van het aangaan, van gez. contract, commissarissen van gez. municipaliteit waren, of die, naderhand, en gedurende het bestaan van zoodanig contract, zoodanige commissarissen zyn geworden niet uit kracht van de 64ste sectie, hebben ontruimd, en onverkiesbaar zyn geworden om op eenigen verderen tyd als zoodanig te dienen; en of daarenboven het college van commissarissen waarvan zoodanige deelhebbers als leden hebben blyven dienen, niet van dien tyd af onbehoorlyk is zamengesteld geweest, en deszelfs handelingen en verrigtingen krachteloos geworden: En nademaal het onbevoegd maken van commissarissen zoo dikwyls als het college waarvan zy leden zyn, het zy met of zonder hunne medestemming, zal treden en eenig contract voor werk te worden gedaan, of materialen te worden geleverd door eenige maatschappij waarin zoodanige commissaris deelhebbers zyn, drukkend zou zyn voor de betrokken individuen, en naadeelig voor de publiek belangen zoo wel door het beperken van de keus der huishouders ten aanzien van personen verkiesbaar tot commissarissen, als door het beperken van de gez. commissarissen, in het bevoorden, door deelhebbers te worden, van maatschappijen gevormd tot einde van blykbaar publiek nut. En nademaal het raadzaam is alle daden en verrigtingen van de gez. commissarissen, valide te maken, in zoo verre als de zelve kunnen worden in twyfel getrokken of betwist op de

gronden voormeld, op gelyk gronden, en mede om de gez. Ordonnantie te emenderen, ten op zigte van de zake boven aangehaald, zoo wel als anderen: — Zoo zy het vastgesteld, door de Gouverneur van de Kaap de Goede Hoop, by en met advies en consent van den Wetgevenden Raad, dat alle en iegelyke de voorzeningen van de Ordonnantie voormeld, zoo ver als dezelve, strydig of onbestaanbaar zyn met, eenige van de voorzeningen van deze Ordonnantie, zullen zyn herroepen en dezelve worden gelykelyk herroepen

2. En zy het vastgesteld, dan geen commissaris van de municipaliteit van de Kaapstad vroeger verkozen, zal worden geoordeeld zyn ambt van commissaris te hebben nedergelegd of ontruimd, of in eenige boete of disqualificatie te zyn vervallen, uit reden alleen dat zoodanige commissarissen is of was, een deelhebber van eenige zoodanige maatschappij in deze Kolonie met welke maatschappij, of de directeuren of bestuurders van welke maatschappij het college van commissarissen van de municipaliteit waartoe zoodanige commissarissen behoort, of eenig vroeger college van commissarissen, eenig contract zal hebben aangegaan, noch zal eenige handeling of verrigting van eenig college van commissarissen ter zyde gezet of betwist kunnen worden, alleen uit reden dat allen of eenigen van de commissarissen, of gereputeerde commissarissen, door wien zoodanige handeling of verrigting zal zyn gedaan, een deelhebber was of waren, en eenig zoodanige maatschappij waarmede zoodanige commissarissen als voormeld, eenig contract of gelykstaande handeling of verrigting hebben aangegaan.

3. En zy het vastgesteld, dat geen commissaris van de gez. municipaliteit, van en na het begin en in werking komen van deze Ordonnantie zal worden beschouwd als hebbende de zyn ambt van commissaris nedergelegd, of in eenige boete of verbeurd verklaring hoegenaamd te zyn vervallen, blootelyk uit reden dat het college van commissarissen, waartoe hy behoort, of eenig vroeger college van commissarissen, eenig zoodanig contract zal hebben aangegaan, als in de 64 sectie van de voorsz. Ordonnantie vermeld is, of eenige andere handeling of transactie, met de directeuren of andere bestuurders, van eenige maatschappij in deze Kolonie, waarin zoodanige commissaris een deelhebber zal zyn, of waarin hy anderszins belang zal hebben; noch zal eenige deelhebber, of persoon anderszins belang hebbende in eenige joint stock maatschappij, met welke maatschappij, de commissarissen van de municipaliteit eenig nog bestaand contract zullen hebben aangegaan. Altyd wel verstaan dat geen commissarissen van de gez. municipaliteit, die mede zoodanig deelhebbers is, of andere belang heeft als voormeld, zal vermogen te stemmen als een commissaris op de kwestie, van het maken of aangaan van eenig contract of handelingen, met de maatschappij waarin hy belang heeft; en iedere commissaris die dus zal stemmen, in contraventie van deze beperking, zal voor iedere zoodanige overtreding verbeuren eene som van £100. Altyd wel voorzien dat niets hierin vervat zal strekken, om den voorzitter van gez. commissarissen, zoodanig deelhebber zynde, te beletten eenig zoodanig contract te tekenen als, vereischt wordt by de gez. 64 sectie.

4. En zy het vastgesteld, dat wanneer, uit reden van het getal van eenige deelhebbers die zoodanige commissarissen zyn als voormeld, het ter eeniger tyd zal gebeuren dat er geen genoegzaam getal commissarissen bevoegd om op zoodanige kwestie te stemmen, zal zyn om een *quorum* uit te maken voor de verrigtingen van zoodanige bezigheid, dan zal het onbrekende getal van zoodanige bevoegde commissarissen voor dat einde, en voor geen ander, worden aangevuld door wykmeesters, geen zoodanige deelhebbers zynde, te worden gekozen by ballotage door zoodanige bevoegde commissarissen; en ieder wykmeester dus gekozen zal ten aanzien van de discussie en beslissing van zoodanige kwestie, worden beschouwd en aangezien als of hy een commissaris waren, behoorlyk gekozen.

5. En nademaal bevonden is dat het beperken van de huishouders van ieder afzonderlyk district van de gez. municipaliteit, in het verkiezen van commissarissen, tot de keus van personen, eigenaars zynde van vast eigendom,

gelegen binnen zoodanig district, op een naderegelege wyze het getal personen vermindert waar-dig om aldus te worden verkozen, — Zoo zy het vastgesteld, dat de 10 sectie van de voormelde Ordonnantie zal zyn en by deze wordt herroepen, en dat ieder resident huishouder van de gez. municipaliteit de eigenaar zynde van vast eigendom, daarin gelegen, ter waarde van niet minder dan een duizend ponden sterling, verkiesbaar zal tot commissaris voor eenige der districten van zoodanige municipaliteit, voor de einde van de gez. Ordonnantie.

6. En nademaal het getal van wykmeesters, als vereischt by de Ordonnantie voormeld, on-geryfelyk groot is, en het raadzaam is hetzelfde te verminderen; alsmede voor residentie binnen de wyk waarvoor de wykmeester moet worden verkozen te substitueren, residentie binnen het district waartoe zoodanige wyk behoort, en verder om de wykmeesters in staat te stellen, die letten op en de pligten van hun ambt vol-brengen, om indien het noodig en raadzaam wordt geoordeeld, zekere belooning te ontvan-gen, — Zoo zy het vastgesteld dat van en na het begin en in werking komen van deze Ordon-nantie, een wykmeester, en niet meer, zal worden verkozen voor iedere wyk, by iedere verkiezing van wykmeesters en dat iedere resi-dent huishouder, wonende binnen eenig district van de gez. municipaliteit verkiesbaar zal zyn tot eenen wykmeester voor eenig wyk binnen zoodanige district gelegen; en het zal de com-missarissen van de municipaliteit in der tyd vrystaan, om indien zy zulks goetvinden, eene municipale regulatie op te maken, om aan de onderscheiden wykmeesters van de gez. muni-cipaliteit, op zoodanige manier en vorm en onder zoodanige voorwaarden als het meest regtvaardig en billyk zullen voorkomen, enige soort van belooning te bepalen voor het be-hoorlyk volbrengen door zoodanige wykmees-ters, van hunne onderscheiden pligten; en zoodanige municipale regulatie, behoorlyk geaprobeerd en gepubliceerd zynde, zullen van kracht en verbindend zyn.

7. En zy het vastgesteld, dat deze Ordon-nantie zal beginnen en effect sorteeren, van en de promulgatie daarvan.

GOD BEWARE DE KONINGIN!

GOUVERNEMENTS KENNISGEVING.

Koloniale Secretary, Kaap de Goede Hoop.
25 October 1848.

MET betrekking tot den nevensgaanden brief van dezen datum, geadresseerd aan den Fungerenden Inspecteur Generaal, welke Zyne Excellentie heeft gelast tot algemeen nariet te publiceren, heeft Zyne Excellentie goedgevonden de volgende Heeren aan te stellen tot Leden van het College van Landeryen, in de Afdeling Albert:—
De Hr. MURIEL ROBINSON ROBINSON, President
Kapt. CHRISTOPHER THOMAS BIRD.
Veldkommandant JAN OLIVIER.

Tor Ordonnantie van Z. E. den Gouverneur,
(Get.) JOHN MONTAGU.
Gouvernements Secretaris.

Koloniale Secretary, Kaapstad, 25 Oct. 1848.

Aan den Fungerenden Inspecteur Generaal.

MYNHERR,—Zyne Excellentie hebbende goedgevonden en Fungerenden Inspecteur Generaal, den Hr. ROBINSON, aan te stellen tot President van een Commissie, te worden ingesteld om onderzoek te doen naar de onderscheiden vorderingen van de Landlieden in het district Albert, op de Landeryen door hen bezeten, moet ik op last van Zyne Excellentie den Gouverneur u zyne instructies aan den Hr. ROBINSON toezenden, om zich zoo spoedig mogelijk naar die Afdeling te begeven, en daar een geschikte plaats voor de byeenkomst hebbende bepaald, kennis te geven van de eerste zitting van de Commissie, aan Kapt. C. T. BIRD, en aan Veldkommandant JAN OLIVIER, die mede voor het tegenwoordige tot Leden zijn aangesteld. De Commissie zal zich vervolgens bewegen van plaats tot plaats, zoo als het geryf zal worden bevonden voor het verrigten van bezigheid.

2. De Commissie vergaderd zynde, zal de President de tegenwoordige instructies lezen, en de Secretaris dezelven notuleren, en de Secretaris zal een copy houden, als de algemeene regel van de verrigtingen, tot gereede referentie by iedere zitting.

3. Kapt. C. T. BIRD zal fungeren als Secretaris van de Commissie, en zal de Minuten der verrigtingen bewaren, welke zullen worden gelezen, bevestigd, en des noods, gecorrigeerd en geverifieerd door de onderteekeningen van al de Leden by het openen van de volgende zitting.

4. De Commissie zal onderhevig zijn aan zodanige vermeerdering of verandering van Leden, als van tyd tot tyd raadzaam zal worden bevonden, en ieder Lid, dat distentieert van de Rapporten, zal de vryheid hebben zyne reden aan te teekenen, en dezelven te hechten aan de Minuten en Rapporten.

5. De Commissie is door Zyne Excellentie belast met het onderzoek van alle vorderingen op Land, in de Afdeling Albert, welke vorderingen, naar mate dezelven zullen worden ontvangen, geregeld zullen moeten worden genummerd, en ingeboekt in een register, dat afzonderlyke kolommen zal moeten bevatten, voor referentie tot de Rapporten daarop, zoo dat hetzelfde een kort overzicht geeft van den staat van iedere zaak.

6. De Commissie is verder belast met het onderzoek, en de provisionele beslissing, op de plaats, van alle zaken van betwiste grensscheidingen tusschen de Landeryen behorende tot aangrenzende plaatsen.

7. De Commissie is verder belast met de plicht van het bepalen van de uitgestrektheid van land, te worden afgestaan onder iedere vordering, welke zy zullen besluiten, te recomanderen, als voldoende voor het rechtvaardigen van een vergunning door Zyne Excellentie den Gouverneur.

8. De Commissie zal nauwkeurig de waarde bepalen, van iedere zodanig uitgestrektheid, ten einde de erfpacht te bepalen.

9. In het volbrengen van dezen plicht zal de Commissie in het algemeen moeten te werk gaan naar de principes bevat in de volgende aanmerkingen; echter altyd in het oog houdende dat het het verlangen is van den Gouverneur, de liberaalste lyn van staatkunde te volgen, welke Zyne Excellentie met reden kan volgen, in het handelen met de vorderaars,—zoo dat de Commissie niet is bijlet ter kennis van Zyne Excellentie te brengen, zelfs zodanige ongesteunde, of niet genoegzaam gesteunde vorderingen, als zy der aandacht zullen waardig keuren, hetzy uit reden van de verdiensten van het byzondere geval, of om reden van het algemeene welzijn van de afdeling.

10. De eenige vordering welke kan worde toegelaten moet steunen op gevestigde occupatie van Land, op den datum van het aanhechten van de Afdeling aan de Kolonie t.w. den 9den January II.; en het getal vee of schapen enz., en de uitgestrektheid van bebouwing moeten door de Commissarissen worden aangenomen als een grondslag, voor het recomanderen, in vergelyking, van de uitgestrektheid te worden vergoed onder iedere vordering. Het bewys van de daadzaak en uitgestrektheid van zodanige occupatie, kan worden gegeven by certificaat van eenigen Veldkommandant, Veldkornet, of ander deftig Ingezeten, naar genoegen van de Commissie.

11. Wanneer twee of meer vorderingen voor hetzelfde land worden ingebracht, moet verder bewys worden bekomen, en iedere vordering moet een referentie bevatten van alle tegengestelde vorderingen die daarop betrekking hebben. De Commissie zal volledig deszelfs gevoelen moeten rapporteren tot de behoorlyke beslissing daarover.

12. Vele vorderaars hebben ten vollen een veel grooter uitgestrektheid geoccupeerd dan 3000 morgen,—de uitgestrektheid boven welke de Gouverneur oagezind is te vergunnen, maar in de meeste van zodanige gevallen zal het waarschijnlijk worden bevonden dat onderscheiden leden van de familie op de plaats wonen, en dat hun vee afzonderlyk eigendom is, schoon te zamen weidende. Het is binnen de plicht van de Commissie te recomanderen op een afzonderlyke vordering, een afzonderlyke vergunning aan ieder persoon, van zodanige uitgestrektheid, om de hoeveelheid ten volle geoccupeerd uit te maken, meldende duidelyk de omstandigheden; anders, verzocht wordende, zal het excess boven de 3000 morgen publiek kunnen worden verkocht, tegen een inzet prijs van niet minder dan 2s. per acre, als bepaald by de regulatie van Harer Majesteits Secretaris van Staat.

13. In de provisionele beslissing betwiste terge-

cheidingen, wordt de Commissie overgelaten aan deszelfs eigen gevoel en regtvaardigheid. Het zal echter wel zijn een korter nu a te bewaren van de gronden van de beslissing, om te worden ingezonden wanneer de finale beslissing van het Gouvernement noodig is.

14. In de berekening van de waarde van Landeryen, tot het einde van het nemen van een percentage daarvan, als bepaalde erfpacht, moet de Commissie voorzigtig zijn om het opleggen van ongelijke lasten te vermijden, door het waarden van gemakke verbeteringen van welken aard ook. Dezelve moet de waarde van het land berekenen, in eenen staat der natuur. De erfpacht moet worden betaald van den datum van het aanhechten van het District aan de Kolonie, t.w. den 9den January II.

15. In gevallen waar het gemakkelijk geschieden kan, moet het land, zoo mogelijk, zoo worden verdeeld, om gelyke hoeveelheid water te laten aan gelyke uitgestrektheden Land, hetzy gevorderde of ongevorderde Gouvernements Grond, zoo dat een monopolie van het eerste aan den naasten eigenaar geen onbetamelijke voorregt boven de laatste zal geven.

16. De Rapporten van de Commissie moeten duidelyk toonen, in iedere sectie, al de servituten welke in de vergunning moeten worden ingevoegd, boven de gewoone voorwaarden, en allen die kunnen bepaald worden als algemeen toepasselyk op al de vergunningen, in de Afdelingen uitgegeven, zoo als voor waterloopen, wegen enz.

17. De Commissie moet by voorraad beslissen op de reservatien noodig voor uitspan plaatsen, voor plaatsen van dorpen, en andere publieke einden,—en, zoo mogelijk, voorzien voor de toewyzing van gelyke landen in de nabijheid, om te voldoen aan de vorderingen op zulke reserven.

18. In iedere kleine en onbetwiste zaak zal de Commissie dadelyk een Landticht uitreiken aan den Vorderaar, en een duplicaat registreren in de Notulen van de Commissie. De Ticket moet bevatten een korte beschryving van het Land, deszelfs ligging en uitgestrektheid, dezelve kan transportabel worden gemaakt by endossement, en zal worden veruuld voor een geregeld goudbrief zoo spoedig als mogelijk is,—maar verloren of mislead zynde voor dien tyd, moet het gedurende drie maanden worden geadverteerd op kosten van den Vorderaar, voor de geregeld Goudbrief op zynen naam kan worden uitgevaardigd.

19. Alle overige Landeryen na het voldoen aan de vorderingen, zullen by publieke veiling worden verkocht, onder de Gouvernements regulatie van 15 Mei 1841, waarvan een copy is gecorrigeerd. De Commissie zal het toezigt hebben over derzelver verdeling in perceelen, en rapporteren op de tyden en plaatsen best geschikt om dezelven op te eilen.

20. De Commissie zal dadelyk maatregelen nemen voor het opveilen van zodanige percelen Land in de voorreghoek Dorpen, als dezelve dienstig zal oordeelen voor de belangen des Gouvernements, in de verbetering van het District, en tot dat einde zal dezelven zoo spoedig mogelijk de gewone lysten en aanbevelingen ten aanzien van inzet pryzen, plan van verkoop, enz. moeten inzenden, op dat de noodige Proclamatie kan worden gepubliceerd.

21. De Commissie zal het waarschijnlijk ongelegen of ondienstig vinden zich stiptelyk te houden aan de bovenstaande algemeene regulatie, welke moeten worden behouden als bepallende de algemeene vaste principes, en als bevattende Zyner Excellenties verlangen op het onderwerp, en aanzienlyke ruimte wordt gevolglyk geauthoriseerd, maar daar het noodig is dat de gevorens en beslissingen van de Commissie zullen worden geleid door zekere algemeene principes, moeten alle aanmerkelijke afwykingen van die boven verklaard, dadelyk worden gerapporteerd ter goedkeuring van Zyne Excellentie den Gouverneur.

22. Alle gemak zal door dit Kantoor worden verheend om de Commissie te helpen in hare verrigtingen, en gy wordt gelast gelyk gemak in uw Departement te verleenen, en byzonder te zorgen voor het dadelyk overzenden van alle Rapporten en Vorderingen.

23. De Rapporten van de Commissie, op iedere Vordering moeten worden ingezonden door het Departement van den Inspecteur Generaal, om te voorzien voor de behoorlyke registratie, en alle correspondentie met het Gouvernement, in verband met deze Commissie moet plaats vinden door middel van den Inspecteur Generaal.

Ik heb de eer te zijn,

Mynheer,
Uw onderdanige Dienaar,
(Get.) JOHN MONTAGU,
Gouvernements Secretaris.

Kantoor van het Centrale College van Commissarissen van Publieke Wegen, Kaapstad, 25 Oct. 1848.

MET Centrale College van Publieke Wegen heeft gelast bekend te maken tot algemeen nariet dat de Nieuwe Pas door de Mosterds Hoek en mede de nieuwe Gydow Pas, naar het Koude Bokkeveld, zoo wel als de Nieuwe Pas door de Karoo Poort, naar de Binnendeelen der Kolonie, voor het Publiek gebruik zullen worden geopend op den 1 December ainst., door zyne Excellentie den Gouverneur.

Volgens verzoek van het College heeft Zyne Excellentie toegestemd dat de Nieuwe Pas door Mosterds Hoek zal worden genaamd "de Mitchell Pas."

Het College heeft te gelyker tyd de publicatie gelast van de volgende correspondentie, ten einde het publiek moge worden bekend gemaakt, dat hetzelfde bestendig is bezig geweest in de byzondere plicht waarvoor het is aangesteld, t.w.: in het openen van Berg Passen, het opvullen van Kloven en het maken van Bruggen over de Rivieren welke de grootewegen der Kolonie doorsnyden.

Namens het College,
W. DE SMIDT, Sec.

Kantoor van het Centrale College van Commissarissen van Publieke Wegen, Kaapstad, 18 Oct. 1848.

Mynheer,—Ik heb gelast door het Centrale College van Commissarissen van Publieke Wegen, UE bekend te maken, tot nariet van Zyne Excellentie den Gouverneur, dat de nieuwe lyn van weg door de Mosterds Hoek, het warme

Bokkeveld, Hottentotskloof, enz., onlangs zonde voltooi op den 1sten December ainst., zal geopend zijn om voor het Publiek te worden geopend. Ik heb verder gelast UE, de zelfstandigheid te melden van het rapport dat aan het College is gepresenteerd door den Hr. Bain, den Inspecteur van Wegen, onder wiens bekwame toezicht het werk voltooid is, en uit welks lezing u Excellentie in staat zal zijn de moeyelykheden te begrypen, welke men in het vormen van de Pas moest te beven komen.

In plaats van den ouden Weg door de Mosterds Hoek, een van de moeyelyke en en gevaarlyken in de Kolonie, is nu een veilige en gemakkeleke Pas daargesteld.

Het gestadig over en weder trekken van de Breederivier is ontgaan door de nieuwe lyn, gaande langs de linker oever van de rivier, byna eenwydig met de zelve, tot dezelve uitkomt in het warme Bokkeveld. Gedurende een lengte van byna vyf en een half myl, is de zelve byna geheel uit de vaste rots gehouwen, en versterkt door een steunmuur van drie tot veertig voeten hoog.

Een massive steenen brug van 36 voeten hoog, en verscheiden steenen watergangen en bruggen, benevens talryke waterloozingen van aanzienlyke uitgestrektheid, zijn noodig gemaakt door de talryke geulen en kloven welke de lyn doorsnyden. Met de uitzondering van honderd yards, welke nog niet voltooid zijn, is het geheel van dit ontzettende werk volbragt in weinig meer dan twee jaren, door bandieten arbeid. Dat deel er van dat heeft moeten worden gemaakt door mineren, heeft veel moeite en arbeid gekost, zynde de rots een ruwe quartzachtige zandsteen, bevallende dikwyls klompen van zuivere quartz in ver, deelen zeer hard om te hooren, en zoo taai, dat men dezelve maar met moeite kon doen springen.

Verbonden met deze Pas, ben ik gelast de voltooying melden van den nieuwen Weg van Mosterds Hoek naar de Karoo Poort, en van de Gydow Pas naar het Koude Bokkeveld.

De eerste van deze passen door het warme Bokkeveld in eenen directen lyn omtrent 28 mylen lang, vermynde de wendingen van de Oude Weg, is gevoerd over een steile bergketen tusschen het Bokkeveld en de Karoo, door een diepe schuifte langs den zyde van den berg, ander half myl lang, geschnaagd door eenen steenen steunmuur, en wordt gevoerd over de laagste top van de keten bekend als "Trekpad," waardoor al de schapen en het vee uit de binnendeelen naar de Kaapstad markt gevoerd worden, van daar gaat dezelve langs een gemakkeleke weg al door de Hottentots Kloof, naar de poort van de Karoo. Aan de bodem van de Kloof, waar de uitspan plaats is, zullen twee groote waterbakken worden gevormd, openende dus de fonteynen welke lang verstopt zijn.

De Gydow Pas is voltooid in July II. In zes mylen van Mosterds Hoek hebben zich geen natuurlijke hinderpalen van groote moeyelykheid voorgedaan.

De weg bergop is uit de zyde van den berg uitgekapt, en bevestigd met sterke steunmuuren.

De Dvare Rivier wordt overspannen door een brug, en verder is de weg beschermd door steunmuuren van twee tot tien voeten hoog.

De geheele lengte van de opening van Mosterds Hoek Pas tot het Koude Bokkeveld is 12 mylen.

De voordeelen welke zullen ontstaan uit het openen van de Mosterds Hoeks Pas en de wegen daar mede verbonden kunnen tegenwoordig niet nauwkeurig berekend worden. De pas zal het groote brandpunt uit maken van den handel van de Kaapstad met het "Boveland" behalve het openen van de Klein, Middel en Onder Roggeveld, Hantam, Nieuw veld, Warme en Koude Bokkeveld, behoorende tot de vrbtaarste, maar tot nu toe minst bekende deelen der Kolonie.

Het zal niet verkeerd zijn te melden dat het Bokkeveld in spy van deszelfs nadeelen, welke nu zullen worden uit den weg geruimd, deszelfs naam heeft bekend gemaakt in Mark Lane als "voort brengende het beste koren ter wereld" dat natuurlyk, grootelyk zal worden vermeerderd, ten minste in hoeveelheid, door de grootelyk vermeerderde gemakken van uitvoer.

De volgende uittrekselen uit het rapport van den Heer Bain, zyn in het gevoelen van het College te belangryk om te worden uitgelaten.

"Een van de belangrykste voordeelen welke de Nieuwe Weg zal bezitten over den Ouden, is de gewonnen afstand zoo als de volgende opgave zal toonen.

"Van de Uitspanplaats by den Heer Theron aan Breec Rivier, waar de Oude en Nieuwe Wegen elkaar by reghoekig snyden, is de afstand langs Worcester, Heer Rivier, en naar Carel van der Merwe, naby Karroos Poort vyftien uren te paard, dat tegen zes mylen per uur, negtig mylen is.

"Van Theron naar Carel van der Merwe, door Mosterds Hoek, Hottentots Kloof, enz., is 6 uren, of 36 mylen zynde een besparing van 54 mylen.

"Langs den Ouden Weg waren ten minsten 14 Ossen noodig voor een gewoone vracht, langs den Nieuwen zullen 8 meer dan genoegzaam zijn, behalve het besparen van den zwaren last van 3 tot 60 Rds. voor voorspannen om de wagens door Heks Riviers Kloof en den Berg op te slepen.

"De remketting, dat onvermydelyk vereischte van reizen langs den ouden weg, kan geheel worden weg gelaten op den nieuwen, daar de daling nergens zoo steil is om de zelve noodig te maken; en de gevaren van verwyd door de diepe en snelle rivieren, welke de oude Weg zoo dikwyls aanbiedt zullen geheel weggenomen zyn op den nieuwen.

"Ik heb dus gelychtracht eenige voordeelen te toonen, welke het Publiek zal trekken uit den Mosterds Hoek nieuwen Weg, en daar ik reeds heb begonnen den voortgang van dezen hoofdweg te maken naar de Bainskloof, Wellington, enz. naar de Kaapstad, zal ik de afstanden melden welke zullen bespaard worden door het aannemen van dezen Weg.

"Van Theron's Uitspanplaats, Breede Rivier, naar de Kaapstad, over Bainskloof, negen en een half uren.

Van Theron's naar de Kaapstad, over Nieuwekloof dertien en een half uren, toonende een besparing ten voordeele van Bainskloof van vier uren of 24 mylen.

"Deze 24 mylen gevraagd by de 54 mylen gewonnen door Mosterds Hoeks Weg, geven in het geheel van den Nieuwen lyn van de Kaapstad, naar C. van der Merwe d matige besparing van 78 mylen.

"De Ingezeten van Worcester, Goudinie, Heks Rivier, Boschjesvld, Kogmans Kloof, enz., zullen gelykelyk worden bevoordeeld door het openen van de Bains Kloof, t als de volgende afstanden zullen toonen.

"Van Worcester naar de Kaapstad, door Bains 54 12 uren.

PROCLAMATION

BY HIS EXCELLENCY LIEUT.-GENERAL

SIR HENRY GEORGE WAKELYN SMITH,

Baronet, Knight Grand Cross of the Most Honorable Military Order of the Bath, Colonel of the Second Battalion of the Rifle Brigade, Governor and Commander-in-Chief of the Settlement of the Cape of Good Hope, in South Africa, and of the Territories and Dependencies thereof, and Ordinary, and Vice-Admiral of the same; and Her Majesty's High Commissioner for the settling and adjustment of the Affairs of the Territories in Southern Africa, adjacent and contiguous to the Eastern and North Eastern Frontier of the said Colony, &c. &c. &c.

WHEREAS by one of the Schedules annexed to a certain Proclamation issued by the then Governor of the Colony, Lieut.-General Sir PEREGRINE MAITLAND, K.C.B., on the 30th day of October 1845, certain rates of Toll Duty were proclaimed and made payable at the Toll Gates at the Upper and Lower Tolls at the Military Lines, at Muizenberg, and at Simon's Town;

And whereas it has been represented to me, by the Central Board of Commissioners of Public Roads, that the Rates of Toll Duty in the said Schedule contained do not bear a fair proportion to the heavy outlay required to keep the Roads on which those Tolls are placed in proper repair, and that they should therefore be repealed, and other Rates substituted in lieu thereof:—Now, therefore, under and by virtue of the Provisions of the Ordinance No. 8 of 1843, I do hereby proclaim and make known, that from and after the 1st day of January in the approaching year 1849, and until the 31st day of December 1851, the Toll Duties or Rates specified in the Schedule A, hereto annexed, and none other, shall be demanded and be paid at the Toll Bars or Gates at the Upper and Lower Military Lines, Cape Town, the Muizenberg Toll, and the Simon's Town Toll,—from and after which date the Schedule of Toll Duties aforesaid shall stand repealed.

And whereas, by a second Schedule annexed to the above-mentioned Proclamation, issued by Lieut.-General Sir PEREGRINE MAITLAND, K.C.B., dated the 30th of October 1845, certain Rates of Toll Duty were proclaimed and made payable at the Toll at Sir Lowry's Pass;

And whereas, by a Proclamation issued by the Right Hon'ble Major General Sir HENRY PORTINGEN, Bart., G.C.B., on the 12th day of May 1847, certain Rates of Toll Duty were proclaimed and made payable at the Toll of Houw Hoek; and whereas it has been represented to me by the Central Board of Commissioners of Public Roads that the Rates of Toll Duty in the above-mentioned second Schedule to the Proclamation of Sir P. MAITLAND, dated 30th October 1845, and in the above-mentioned Proclamation of Sir H. PORTINGEN, dated 12th May 1847, are inadequate to defray a fair proportion of the expenses incurred in the Repairs of the Mountain Passes on which they are respectively situated, and that they should therefore be repealed, and other Rates substituted in lieu thereof:—Now, therefore, under and by virtue of the Provisions of the Ordinance No. 8 of 1843, I do hereby proclaim and make known that from and after the 1st day of January in the approaching year 1849, the Toll Duties or Rates specified in the annexed Schedule B, and none other, shall be demanded and be paid at the Tolls at Sir Lowry's Pass and at Houw Hoek, from and after which date the Schedules of Toll Duties aforesaid shall stand repealed.

GOD SAVE THE QUEEN!

Given under my hand and the Public Seal of the Settlement of the Cape of Good Hope, this 27th day of November 1848.

PROCLAMATIE

DOOR ZYNE EXCELLENTIE LUIT.-GENERAAL SIR HENRY GEORGE WAKELYN SMITH, Baronet, Ridder Groot Kruis van de Hoog-Edelen Orde van het Bad, Kolonel van het 2de Battalion Scherpschutters Administrateur van het Gouvernement van de Kolonie de Kaap de Goede Hoop, en den Ressorte van dien, Ordinaris, en Vice-Admiraal van dezelve; en Harer Majesteits Hooge Commissaris voor het afdoen en verreef van de Zaken van het Grondgebied in Zuid Afrika, belendend aan en annex de Oostelyke en Noordelyke Grenzen van de gezegde Kolonie, enz., enz.

NADemaal by eene van de Schedules gehecht aan zekere Proclamatie, uitgevaardigd door den toenmaligen Gouverneur der Kolonie, Luit. Generaal Sir Peregrine Maitland, K.C.B., op den 30 Oct. 1846, zekere Tolgelden zyn geproclameerd en betaalbaar gemaakt aan de Tolhekkers aan de boven en beneden Tollen, aan de Militaire Linies aan Muizenburg en de Simonstad.

En nademaal aan my vertoond is door het College van Commissarissen van Publieke Wegen, dat de Tolgelden in de gem. schedule vervat geen billijke evenredigheid hebben met de zware onkosten vereischt om de wegen waarop

die Tollen geplaatst zyn in goede reparatie te houden, en dat derzelve dus behooren te worden herroepen, en anderen in dezelve plaats gesteld. Zoo is het, dat ik onder en uit kracht van de voorzieningen van de Ordonnantie No. 8, 1843, proclameer en bekend maak, dat van en na den 1sten January in het aankomende jaar, en tot den 31 December 1851, de Tolgelden vermeld in den Schedule A. hier annex, en geen anderen zullen worden gevraagd en betaald aan de tolhekkers of poorten, aan de boven en beneden Militaire Linies, Kaapstad,—de Muizenburg Tol, en de Simonstads Tol, van en na welken datum, de schedule van Tolgelden voormeld zal herroepen zyn.

En nademaal by eene tweede Schedule gehecht aan bovengem. proclamatie, uitgevaardigd door Luit. Generaal Sir Peregrine Maitland, gedateerd 30 October 1845, zekere Tolgelden zyn geproclameerd en betaalbaar gemaakt aan Sir Lowrys Pas.

En nademaal by eene Proclamatie van de Hoog-Ed. Generaal Majoor Sir Henry Pottinger, Bart., G.C.B., op den 12 Mei 1847, zekere Tolgelden zyn geproclameerd en betaalbaar gemaakt aan den Houwhoek;—en nademaal aan my is vertoond door het Centrale College van Commissarissen van Publieke Wegen, dat de tolgelden vervat in de tweede schedule van de proclamatie van Sir Peregrine Maitland, gedateerd 30 October 1845, en in de bovengem. proclamatie van Sir Henry Pottinger van 12 Mei 1847, ongenoegzaam zyn tot het goedmaken van eene billijke evenredigheid van de kosten gemaakt in het repareren van de hergassen waarop dezelve respectively gelegten zyn, en dat derzelve daarom zullen worden herroepen en andere Tolgelden in derzelve plaats gesteld;—Zoo is het, dat ik onder en uit kracht van de voorzieningen van de Ordonnantie No. 8, 1843, by deze proclameer en bekend maak, dat van en na den 1sten dag van January van het aankomende jaar 1849, de Tolgelden vermeld in de annex Schedule B. en geen anderen zullen worden gevraagd en betaald aan Sir Lowrys Pas en Houwhoek, van en na welken datum de Schedule van Tolgelden voormeld zal zyn herroepen.

GOD BEWARE DE KONINGEN!

Gegeven onder myne Hand en het Publieke Zegel, van de Kolonie de Kaap de Goede Hoop, den 27sten Nov. 1848.

THURSDAY, DECEMBER 7, 1848.

PROCLAMATION

BY HIS EXCELLENCY LIEUT.-GENERAL

SIR HENRY GEORGE WAKELYN SMITH,

Baronet, Knight Grand Cross of the Most Honorable Military Order of the Bath, Colonel of the Second Battalion of the Rifle Brigade, Governor and Commander-in-Chief of the Settlement of the Cape of Good Hope, in South Africa, and of the Territories and Dependencies thereof, and Ordinary, and Vice-Admiral of the same; and Her Majesty's High Commissioner for the settling and adjustment of the Affairs of the Territories in Southern Africa, adjacent and contiguous to the Eastern and North Eastern Frontier of the said Colony, &c. &c. &c.

WHEREAS by one of the Schedules annexed to a certain Proclamation issued by the then Governor of the Colony, Lieut.-General Sir PEREGRINE MAITLAND, K.C.B., on the 30th day of October 1845, certain rates of Toll Duty were proclaimed and made payable at the Toll Gates at the Upper and Lower Tolls at the Military Lines, at Muizenberg, and at Simon's Town;

And whereas it has been represented to me, by the Central Board of Commissioners of Public Roads, that the Rates of Toll Duty in the said Schedule contained do not bear a fair proportion to the heavy outlay required to keep the Roads on which those Tolls are placed in proper repair, and that they should therefore be repealed, and other Rates substituted in lieu thereof:—Now, therefore, under and by virtue of the Provisions of the Ordinance No. 8 of 1843, I do hereby proclaim and make known, that from and after the 1st day of January in the approaching year 1849, and until the 31st day of December 1851, the Toll Duties or Rates specified in the Schedule A, hereto annexed, and none other, shall be demanded and be paid at the Toll Bars or Gates at the Upper and Lower Military Lines, Cape Town, the Muizenberg Toll, and the Simon's Town Toll,—from and after which date the Schedule of Toll Duties aforesaid shall stand repealed.

And whereas, by a second Schedule annexed to the above-mentioned Proclamation, issued by Lieut.-General Sir PEREGRINE MAITLAND, K.C.B., dated the 30th of October 1845, certain Rates of Toll Duty were proclaimed and made payable at the Toll at Sir Lowry's Pass;

And whereas, by a Proclamation issued by the Right Hon'ble Major-General Sir HENRY POTTINGER, Bart., G.C.B., on the 12th day of May 1847, certain Rates of Toll Duty were proclaimed and made payable at the Toll of Houw Hoek; and whereas it has been represented to me by the Central Board of Commissioners of Public Roads that the Rates of Toll Duty in the above-mentioned second Schedule to the Proclamation of Sir P. MAITLAND, dated 30th October 1845, and in the above-mentioned Proclamation of Sir H. POTTINGER, dated 12th May 1847, are inadequate to defray a fair proportion of the expenses incurred in the Repairs of the Mountain Passes on which they are respectively situated, and that they should therefore be repealed, and other Rates substituted in lieu thereof:—Now, therefore, under and by virtue of the Provisions of the Ordinance No. 8 of 1843, I do hereby proclaim and make known that from and after the 1st day of January in the approaching year 1849, the Toll Duties or Rates specified in the annexed Schedule B, and none other, shall be demanded and be paid at the Tolls at Sir Lowry's Pass and at Houw Hoek, from and

after which date the Schedules of Toll Duties aforesaid shall stand repealed.

GOD SAVE THE QUEEN!

Given under my hand and the Public Seal of the Settlement of the Cape of Good Hope, this 27th day of November 1848.

WHAT IS IN A NAME?

THE philosophic axiom, that there is no absolute or necessary connection between a name and the thing nominated, has been singularly comprehended, and most cunningly acted upon, by an Empirical Pestle and Mortar Philosopher of this City.—In as far as he has surreptitiously imparted to a vile compound of his own production, the name of my unrivalled perfume for the Houdkerchief and Boudoir, and deceitfully imitated my labels for the same, so closely as to mislead incautious buyers. Let the Public, therefore, beware of such disgracefully avaricious chicane, (whether in vending physic or perfumery) and remember that I am the sole proprietor, compounder, and vender, of the unrivalled perfume, Real Omar Essence; and that the label on every bottle of the genuine article must bear my signature.

rectness of which has been tested and confirmed by their

with their duty and solicitude to provide, beyond doubt,
for the safety of the Assured, and of every one connec-

OPINIONS OF THE ENGLISH PRESS.

"It is not more than eighteen months ago since we
prophesied great and certain success to the PROFESSIONAL
LIFE ASSURANCE COMPANY, which first avowed the prin-
ciple of not disputing policies after the death of the
assured; and the rapid progress of that Company shows
that we were not mistaken in our estimate of public
opinion on this essential point. True it is that it has
many other excellent and exclusive features of its own,
but we do not believe that, without the one upon which
we lay so great a stress, its prosperity could have been
so rapid as it has been."—*London Mercantile Journal*,
26th June, 1848.

"In the Prospectus of the PROFESSIONAL LIFE ASSUR-
ANCE COMPANY, we observe so novel and beneficial a
feature, in the assuring, not only against premature
death, but also against blindness, paralysis, and various
other afflictions disabling the parties from following their
usual business or profession, that we think it worthy of
special notice."—*Douglas Jerrold's Weekly Newspaper*,
May 8, 1848.

"We are glad to find that there is an office in exis-
tence, we mean the PROFESSIONAL LIFE ASSURANCE COM-
PANY, in which the public may insure cheaply, equitably
and safely. This office offers all the advantages of the

best offices, and superadds many others, which con-
vincingly proves that its hopes of success are bottomed
on a desire to benefit the public thoroughly. * * *
Taking into consideration the novel and useful features
of this Company, we think we are fully justified in
recommending it to the support of the public."—*Glou-
cestershire Chronicle*.

"The prominent feature of this institution is to set
aside a portion of the annual profits, in order to form a
fund for the relief of those of its members who may need
assistance, in the event of calamity or disease overtaking
them, when life has fallen into the "sere and yellow
leaf." There is something not less original than useful
in the idea of thus incorporating substantial benefit during
life, with all the other advantages usually connected with
policies of this description."—*John Bull*, May 22, 1847.

Our attention has been recently drawn to the Prospec-
tus of the "Professional Life Assurance Company, con-
necting the Clerical, Legal, Military, Naval, and Medi-
cal Professions," which enters into the subject in a
manner so conspicuous, and illustrates its bearings by
details at once so interesting and convincing, that it
deserves to stand apart from anything like a mere trad-
ing or joint-stock speculation, and to take its place in our
system of social and political economy as an able essay
on what has in fact become a science, in which the whole
body politic is deeply interested. The classes which the
Company embraces are peculiarly those who ought to
take advantage of Life Assurance; and advantages of no
common order are held out to them. * * * With
the ample capital of a million subscribed to meet its
liabilities, and a Board of Directors comprising men of
first-rate eminence, the Company is formed upon a
solid and secure basis. Its tables of rates are calculated
on established data, and combine in their range all the
advantages offered by other companies, in addition to
those which constitute its prominent character."—*Felix
Farley's Bristol Journal*, Sept. 25, 1847.

THE CAPE OBSERVER.

No. 1 to be published on the 2nd January, 1849.

It is intended to establish a new weekly paper under the above title:—the first number to be issued on TUESDAY, the 2nd of January next.

This new periodical will be published in the form and upon the plan of the London Spectator.

The principles of the paper will be essentially liberal in respect of the political questions which in this country, as elsewhere, form the usual subjects of debate among men; but the Editors will, while setting forth these principles in every possible way, consider it their duty that the pages of the Observer be open at all times for the discussion of such questions by parties of every shade of political doctrine.

The present has appeared the most suitable time for the proposed undertaking, inasmuch as the free institutions which have been promised by the Home Government to the people of this Colony will probably not be delayed beyond the middle of next year, and as it is fitting that, when such important changes are contemplated in the government of the country, additional means should be afforded for the free discussion of questions of public interest, and for that freedom of public inquiry, the importance of which is now so fully recognised.

It will be the earnest endeavor of the Editors of the Observer to preserve the privileges and the standing which have been earned for the Press by those who have taken part, before them, in the direction of public opinion at the Cape. In this endeavor,—in the independence of all unworthy influences which will it is hoped, at all times characterize their labors,—and in the propagation through their columns of such doctrines as shall beneficially influence their countrymen in their views of their duty to themselves, to their fellow subjects, and to the world around them,—the Editors trust that sufficient reason will ever be found by the public for giving effectual support to their undertaking.

No communications on any subjects of Theological controversy will be admitted, unless they have immediate reference to political questions which may be at the time under discussion.

The annual subscription to the Observer has been fixed at 25s. sterling. Advertisements will be inserted at the usual rates, and will be received by the Publisher at his Office, No. 59, St. George's-street, until 3 o'clock on the afternoon previous to each day of publication. Communications for the Observer are to be forwarded to the office of the Publisher as above.

Lists for Subscriptions will lie at the Commercial Exchange and other public places from Saturday next, the 9th instant.

NADEMAAL by eene van de Schedules gehecht aan zekere Proclamatie, uitgevaardigd door den toenmaligen Gouverneur der Kolonie, Luit. En nademaal aan my vertoond is door het College van Commissarissen van Publieke Wegen, dat de Tolgelden in de gem. schedule vervat geen billyke evenredigheid hebben met de zware onkosten vereischt om de wegen waarop die Tollen geplaatst zyn in goede reparatie te houden, en dat derselven dus behooren te worden herroepen, en anderen in dezelve plaats gesteld. Zoo is het, dat ik onder en uit kracht van de voorzieningen van de Ordonnantie No. 8, 1843, proclameer en bekend maak, dat van en na den 1sten Januari in het aankomende jaar, en tot den 31 December 1851, de Tolgelden vermeld in den Schedule A. hier annex, en geen anderen zullen worden gevraagd en betaald aan de tolhekkers of poorten, aan de boven en beneden Militaire Linies, Kaapstad,—de Muizenburg Tol, en de Simonstads Tol, van en na welken datum, de schedule van Tolgelden voormeld zal herroepen zyn.

ORDINANCE,

Enacted by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof.

For amending the Law relative to Public Meetings.

WHEREAS by a Proclamation of His Excellency the then Governor, Lord CHARLES HENRY SOMERSET, bearing date the 24th of May 1822, the said Governor saw fit to declare and enact that Public Meetings, convened without the sanction and authority of the Governor for the time being, or—when such sanction or authority cannot be conveniently obtained—without the sanction and authority of the Chief Local Magistrate, for the discussion of Public Measures and Political Subjects, were, and should be deemed to be, contrary to Law: And whereas there is nothing in the state and condition of this Colony which requires or justifies the continuance of a restraint, so inconvenient and injurious, upon that liberty of speech and freedom of discussion which Her Majesty vouchsafes to regard as the birth-right of Her Subjects: And whereas it is expedient to remove the said restraint:—Be it therefore enacted by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof, that the Proclamation aforesaid of the 24th May 1822, and every other law heretofore in force in this Colony, whereby Public Meetings for the discussion of Public Measures and Political Subjects are declared or constituted illegal, unless held with or under the previous sanction and authority of the Governor of the Colony for the time being, or of some other Functionary or Magistrate, shall be repealed, and the same are hereby repealed accordingly.

GOVERNMENT NOTICE.

Colonial Office, Cape of Good Hope,
13th Dec. 1848.

HIS Excellency the Governor has directed the publication, for general information, of the following two communications addressed to Her Majesty's High Commissioner by the Commandant of British Kaffraria.

By Command of His Excellency the Governor,
(Signed) JOHN MONTAGU,
Secretary to Government.

King William's Town, Nov. 23, 1848.

His Excellency the High Commissioner.

Sir,—I have the honor to report, that the Chief Krelli has now fulfilled the voluntary engagement which he entered into, to indemnify the Wesleyan Society and the Government Resident for the destruction of their buildings at Butterworth during the late war.

Krelli has at different times sent me cattle which I have sold by public auction for the sum of £433 17 0.

Although this sum does not reach the original estimate of losses made by the Wesleyan Society and the Government Resident, yet, as I was aware that your Excellency did not wish to press Krelli for the whole amount which he undertook to make good, I caused it to be notified to him, on his sending in the last instalment of cattle, that your Excellency was satisfied with the proofs of good will which he had shown, and that he was released from any further performance of his engagement.

I have transmitted the abovementioned sum to the superintendent of the Wesleyan Missions, with a request that he will hand over to the Government Resident such part of it as will bear proportion to his original estimate of losses.

I have the honor to be,

Sir,
Your Excellency's most obedient
humble servant,

GEO. MACKINNON,
Col. and Chief Comr.

King William's Town, Dec. 3rd, 1848.

His Excellency the High Commissioner.

Sir,—With reference to my letter of the 25th ultimo reporting that the Chief Krelli had fulfilled his engagement to make compensation for the destruction of the Mission Station and Residence at Butterworth, I have now the honor of enclosing the copy of a letter from the Rev. Mr. Shaw, Superintendent of the Wesleyan Missions, by which your Excellency will see that a resolution was passed at the annual district meeting of the Wesleyan ministers to request me to convey to your Excellency their respectful and grateful thanks for the manner in which the matter in question was settled.—Your Excellency will also see by Mr. Shaw's letter that the addition which the funds of the Society have received by the payment of the indemnity has enabled them to resolve on the immediate appointment of a Catechist to reside at a new station in the vicinity of Krelli's residence.

I have, &c.

GEO. MACKINNON,
Col. and Chief Comr.

Graham's Town, Dec. 1st, 1848.

Colonel MACKINNON, Chief Commissioner,
King William's Town.

Sir,—I have had the honor to receive your letter dated November 24th, enclosing Drafts as therein described amounting in all to the sum of £433 17 0, being the amount derived from sales by public auction of the cattle sent in by the Chief Krelli as indemnification for the destruction of the Mission Station and Residence of the Government Agent at Butterworth during the war.

I will take care to pay over to Mr. W. Fynn his proportionate dividend, according to the estimate of losses originally submitted to you and now referred to in your letter; the instructions contained in which on this point will be strictly observed.

As the Wesleyan ministers of this division, including those stationed in the Eastern Province and Kaffraria happen to be in town attending our annual district meeting, I read your communication to them, when a resolution was immediately passed unanimously, desiring me to convey to you our sincere thanks for your kind and prompt attention to this business; and we request also that you will do us the favour to convey to His Excellency the High Commissioner our respectful and grateful thanks, for the manner in which this matter has been settled so entirely to our satisfaction.

I take this opportunity of informing you, that the assistance thus afforded in the heavy expenses now to be incurred by the society in the re-erection of the destroyed buildings on the removed stations, has induced us to resolve on the immediate appointment of a Catechist to a new station in the immediate vicinity of Krelli's residence, preparatory to our compliance with the often repeated request of that Chief that we would send him a missionary; and which we design to do at as early a period as possible. Meantime a European Catechist who speaks the Kafir language, will proceed to that part of the country at once; and under the direction of the Rev. Mr. Gladwyn, and with the concurrence of the Chief, will select a site for the proposed mission; the precise locality will be duly reported to you through Mr. W. Fynn, the Assistant Commissioner in Krelli's Tribe.

I have, &c.,

W. SHAW,
General Superintendent Wesleyan
Missions, S. E. Africa.

GOVERNMENT NOTICE.

Colonial Office, December, 1848.

WITH reference to the Government Notice of the 14th October last, publishing the Regulations, under which Military Settlers may obtain land in this Colony,—His Excellency the Governor directs the publication of the accompanying despatch which has been subsequently received from Earl GREY, together with a copy of the new Regulations on the subject, which will hereafter apply to officers who may be disposed to settle in the Colony.

By His Excellency's Command,
(Signed) JOHN MONTAGU,
Secretary to Government.

Downing-street, 18th August 1848.

SIR,—It has been represented to Her Majesty's Government, that the advantages which have hitherto been held out to officers disposed to settle in the Colonies, can scarcely be considered as a sufficient inducement to them to take that step, and in corroboration of that representation, it has been stated that in each of the last two years only four officers have applied for permission to retire from the Army, for the purpose of becoming permanent residents in the colonies.

As the settlement of Military and Naval Officers in the Colonies is calculated to be highly beneficial both to themselves and to the colonies, I have come to the conclusion that some superior encouragements ought to be held out to persons of that class, and considering that the granting of land for this purpose constitutes, in truth, but a very small contribution on the part of the colonies to the expense of maintaining a ——— portion of the Army and Navy, for the defence of the Colonial Possession of the Crown, as well as of the Empire generally, I have now, with the concurrence of the Lords Commissioners of Her Majesty's Treasury, to authorize you to double the amount hitherto allowed to be remitted in the purchase of land by the officers of the Army and the Navy, and I transmit herewith, for your information and guidance, a copy of the new Regulations, which have been issued on the subject.

I have &c. &c.,
(Signed) GREY.

Governor Lieut.-General
Sir H. G. SMITH, &c. &c. &c.,
Cape of Good Hope.

INFORMATION FOR THE USE OF MILITARY AND NAVAL OFFICERS PURPOSING TO SETTLE IN THE BRITISH COLONIES.

1. The Colonies in which Military and Naval Officers are allowed privileges in the acquisition of public lands are the following:—First, The Australian Settlements, consisting of New South Wales, Van Diemen's Land, South Australia, Western Australia, and the Northern Province of New Zealand; Secondly, Ceylon; Thirdly, The Cape of Good Hope; and Fourthly, Nova Scotia and Cape Breton, the only province in North America where privileges are still allowed.

2. In the different Australian Settlements, in Ceylon and at the Cape of Good Hope, land is disposed of by sale only; but Officers purchasing land are allowed a remission of the purchase money, according to the under-mentioned scale:

Field Officers, of 25 years' service and upwards, in the whole.....	£600
Field-Officers, of 20 years' service and upwards, in the whole.....	500
Field Officers, of 15 or less years' service in the whole.....	400
Captains, of 20 years' service and upwards, in the whole.....	400
Captains, of 15 years' service or less, in the whole.....	300
Subalterns, of 20 years' service and upwards, in the whole.....	300
Subalterns, of 7 years' service and upwards, in the whole.....	200
Subalterns, under 7 years' standing, are not entitled to any remission in the purchase of Land.	

Regimental Staff Officers, and Medical Officers of the Army and Navy, are allowed the benefit of this Rule.

In Nova Scotia and Cape Breton, allotments of land are granted to Officers on the following scale and conditions:—
To a Lieutenant-Colonel..... 1200 acres
To a Major..... 1000 acres
To a Captain..... 800 acres
To a Subaltern..... 500 acres

3. Officers of the Army or Navy, proposing to proceed to the Colonies, in order to take advantage of this indulgence, should provide themselves with certificates from the Office of the Commander-in-Chief, or of the Lords Commissioners of the Admiralty, or of the Master General of the Ordnance, showing that their emigration has been sanctioned, and stating exactly their rank and length of service. No document from the Office of the Secretary of State is necessary.

4. Officers on half-pay, residing in the Colony where they propose to settle, are admitted to the privileges of Military and Naval Settlers, without referring to this Country for Testimonials, provided they can satisfy the Governor that there is no objection to their being allowed the indulgence, and that the statement of their rank and length of service is accurate; and provided, if they belong to the Navy, they produce the letter of leave of absence from the Admiralty.

5. Military Chaplains, Commissariat Officers, and Officers of any of the Civil Departments of the Army;

Parsers, Chaplains, Midshipmen, Warrant Officers of every description, and Officers of any of the Civil departments of the Navy, are not allowed any privileges in respect of land. Although members of these classes may have been admitted formerly, and under different circumstances, they are now excluded. Mates in the Royal Navy rank with Ensigns in the Army, and Mates of three years' standing, with Lieutenants in the Army, and are entitled respectively to corresponding privileges in the acquisition of lands.

6. Gentlemen who have ceased to belong to Her Majesty's Service are not allowed the advantages to which they were entitled while in the Army or Navy. This rule, however, is not to affect Officers who desire to quit the Service, for the express purpose of settling in the Colonies; it is only required, that when they resign their Commissions, they should apply for a certificate from the Commander-in-Chief, or from the Lords Commissioners of the Admiralty, or from the Master General of the Ordnance, that they do so with a view of emigrating, and such certificate, if produced to the Governor of any of the Colonies before-mentioned within one year from its date, but not otherwise, will be sufficient warrant for allowing the bearer the same advantages as officers who are still in Her Majesty's Service.

7. An actual residence of two years in the Colony must be proved before the Titles can be granted, except in cases in which death has occurred before the expiration of that period.

8. For the convenience of Officers, the following heads are subjoined of the Rules for the sale of Land in the Australian Settlements:—

All Lands are disposed of by sale alone, and must have been once at least exposed to public auction.

The lowest upset price is not less than £1 per acre; but the Government has power to raise the same by Proclamation, though not again to reduce it.

The lands are distinguished into three different classes; viz. Town Lots, Suburban Lots, and Country Lots.

Upon Town and Suburban Lots, as well as upon a proportion not exceeding one-tenth of the whole of the Country Lots offered for sale at any auction, the Governor has the power of naming a higher than the general or lowest upset price: these to be designated "Special Country Lots."

Town and Suburban Lots are in no case disposed of except by public Auction; but Country Lots, which have already been put up to public auction, and not sold, may be disposed of afterwards by private contract at the upset price.

No Lands are sold by private contract, except for ready money. When sold by public auction, one-tenth at least of the whole purchase money must be put down, and the remainder within one calendar month, or the deposit is forfeited.

Lands are put up for sale in lots not exceeding one square mile in extent.

9. In Ceylon, Land is sold by auction at an upset price, which is to be fixed by the Governor, but which is not to be less than £1 per acre. Before the Lands are exposed for sale, they will be surveyed by the Government and duly advertised.

10. The several prices above-mentioned are of course subject to a revision at any time by the proper authorities, and the pecuniary amount of the Remission made to Officers cannot be increased on account of an increased value set upon the Lands.

August, 1848.

Resident Magistrate's Office,
Uitenhage, 1st December, 1848.

PROCLAMATION

BY HIS EXCELLENCY LIEUT.-GENERAL
SIR HENRY GEORGE WAKELYN SMITH,

Baronet, Knight Grand Cross of the Most Honorable Military Order of the Bath, Colonel of the Second Battalion of the Rifle Brigade, Governor and Commander-in-Chief of the Settlement of the Cape of Good Hope, in South Africa, and of the Territories and Dependencies thereof, and Ordinary, and Vice-Admiral of the same; and Her Majesty's High Commissioner for the settling and adjustment of the Affairs of the Territories in Southern Africa, adjacent and contiguous to the Eastern and North Eastern Frontier of the said Colony, &c. &c. &c.

WHEREAS by one of the Schedules annexed to a certain Proclamation issued by the then Governor of the Colony, Lieut.-General Sir PEREGRINE MAITLAND, K.C.B., on the 30th day of October 1845, certain rates of Toll Duty were proclaimed and made payable at the Toll Gates at the Upper and Lower Tolls at the Military Lines, at Muizenberg, and at Simon's Town;

And whereas it has been represented to me, by the Central Board of Commissioners of Public Roads, that the Rates of Toll Duty in the said Schedule contained do not bear a fair proportion to the heavy outlay required to keep the Roads on which those Tolls are placed in proper repair, and that they should therefore be repealed, and other Rates substituted in lieu thereof:—Now, therefore, under and by virtue of the Provisions of the Ordinance No. 8 of 1843, I do hereby proclaim and make known, that from and after the 1st day of January in the approaching year 1849, and until the 31st day of December 1851, the Toll Duties or Rates specified in the Schedule A, hereto annexed and none other, shall be demanded and be paid at the Toll Bars or Gates at the Upper and Lower Military Lines, Cape Town, the Muizenberg Toll, and the Simon's Town Toll,—from and after which date the Schedule of Toll Duties aforesaid shall stand repealed.

And whereas, by a second Schedule annexed to the above-mentioned Proclamation, issued by Lieut.-General Sir PEREGRINE MAITLAND, K.C.B., dated the 30th of October 1845, certain Rates of Toll Duty were proclaimed and made payable at the Toll at Sir Lowry's Pass;

And whereas, by a Proclamation issued by the Right Honorable Major-General Sir HENRY POTTINGER, Bart., G.C.B., on the 12th day of May 1847, certain Rates of Toll Duty were proclaimed and made payable at the Toll of Houw Hoek; and whereas it has been represented to me by the Central Board of Commissioners of Public Roads that the Rates of Toll Duty in the above-mentioned second Schedule to the Proclamation of Sir P. MAITLAND, dated 30th October 1845, and in the above-mentioned Proclamation of Sir H. POTTINGER, dated 12th May 1847, are inadequate to defray a fair proportion of the expenses incurred in the Repairs of the Mountain Passes on which they are respectively situated, and that they should therefore be repealed, and other Rates substituted in lieu thereof:—Now, therefore, under and by virtue of the Provisions of the Ordinance No. 8 of 1843, I do hereby proclaim and make known that from and after the 1st day of January in the approaching year 1849, the Toll Duties or Rates specified in the annexed Schedule B, and none other, shall be demanded and be paid at the Tolls at Sir Lowry's Pass and at Houw Hoek, from and after which date the Schedules of Toll Duties aforesaid shall stand repealed.

GOD SAVE THE QUEEN!

Given under my hand and the Public Seal of the Settlement of the Cape of Good Hope, this 27th day of November 1848.

(Signed) H. G. SMITH.

By Command of His Excellency the Governor.

**THE CAPE OF GOOD HOPE
OBSERVER.**

No. 1 to be published on the 2nd January, 1849.

It is intended to establish a new weekly paper under the above title:—the first number to be issued on TUESDAY, the 2nd of January next.

This new periodical will be published in the form and upon the plan of the London Spectator.

The principles of the paper will be essentially liberal in respect of the political questions which in this country, as elsewhere, form the usual subjects of debate among men; but the Editors will, while setting forth these principles in every possible way, consider it their duty that the pages of the Observer be open at all times for the discussion of such questions by parties of every shade of political doctrine.

The present has appeared the most suitable time for the proposed undertaking, inasmuch as the free institutions which have been promised by the Home Government to the people of this Colony will probably not be delayed beyond the middle of next year, and as it is fitting that, when such important changes are contemplated in the government of the country, additional means should be afforded for the free discussion of questions of public interest, and for that freedom of public inquiry, the importance of which is now so fully recognised.

It will be the earnest endeavor of the Editors of the Observer to preserve the privileges and the standing which have been earned for the Press by those who have taken part, before them, in the direction of public opinion at the Cape. In this endeavor,—in the independence of all unworthy influences which will it is hoped, at all times characterize their labors,—and in the propagation through their columns of such doctrines as shall beneficially influence their countrymen in their views of their duty to themselves, to their fellow subjects and to the world around them,—the Editors trust that sufficient reason will ever be found by the public for giving effectual support to their undertaking.

No communications on any subjects of Theological controversy will be admitted, unless they have immediate reference to political questions which may be at the time under discussion.

The annual subscription to the Observer has been fixed at 25s. sterling. Advertisements will be inserted at the usual rates, and will be received by the Publisher at his Office, No. 59, St. George's-street, until 3 o'clock on the afternoon previous to each day of publication. Communications for the Observer are to be forwarded to the office of the Publisher as above.

Lists for Subscriptions will lie at the Commercial Exchange and other public places from Saturday next, the 9th instant.

THE Undersigned has received instruction from Mrs. HARRIS, to submit to Public Competition, on

Thursday, the 21st inst.

At 10 o'clock, that compact and desirable Estate, known by the name of "Hersehel," near the rising village Claremont.

The HOUSE is large and commodious, abundantly supplied with excellent Water all the year round, and for health and beauty of situation can hardly be surpassed by any other in the Colony. From its extent it is remarkably well calculated for a Lodging House; and its healthy situation is well adapted for a School, one having been carried on by the present Proprietor for some years, with success.

Likewise, the whole of the Drawing, Dining, School and Bedroom Furniture, comprising Mahogany Chairs, Tables, Carpets, Sofas, PIANOFORTES, Iron and other Bedsteads, Wardrobes, Wash Stands, Toilette Glasses, GLOBES, Maps, Kitchen Utensils, and many other useful Articles, too numerous to particularise; also a Cow, Donkey, &c. &c.

MR. CAUVIN will sell on SATURDAY, the 16th instant, at 12 o'clock, on the Steep of the Commercial Exchange, several pieces of VALUABLE BUILDING and GARDEN GROUND, situated at Kalk Bay.

This place being unrivalled for the salubrity of its air, offers an excellent opportunity for the profitable investment of Capital, as the construction of a few Cottages would be highly remunerative to the intended purchaser, it being well-known with what eagerness the invalid repairs thither to experience the renovating effects of its climate.

Small houses would also find good Tenants from among the hundreds of Fishermen, who annually resort thither, and have expressed their anxiety to obtain dwellings.

A plan of the Allotments may be seen at the Auctioneers'.

CAUTION.

Peakome's Saddles.

PEAKOME, Saddler, 7, Princes Street, Cavendish Square, London, England: Inventor of the Union Flap Somerset Saddle (so universally approved) first manufactured by PEAKOME, expressly for the late Lord CHARLES SOMERSET, whom he had the honour of serving for many years.

ESTABLISHED NEARLY HALF A CENTURY.

Messrs. PEAKOME, grateful for the patronage their Saddlery has received in India and the Cape of Good Hope, for so many years,—feel bound in justice to themselves to make known, that large quantities of Saddles are exported from England as PEAKOME'S SADDLES, which are not of their make, but spurious imitations. Gentlemen are respectfully informed that PEAKOME'S name and address (as well as the printed label) is stamped on the Flaps of all their Saddles, without which none are genuine, and to pirate which will subject the parties to legal proceedings. The great superiority of PEAKOME'S SADDLES consists in their

Formation, Material, Workmanship, and Durability.

The principle upon which they are constructed is PEAKOME'S sole invention, who after years of application and great experience in the trade, reduced to scientific rules, plans for their Formation, to combine Uniformity of appearance in the Saddle,—ease and comfort to Rider,—and security to the Horse's back from injury.

Peakome's Ladies' Saddles.

famed both for comfort and beauty, are manufactured entirely upon the same principle.

N.B.—Messrs. PEAKOME respectfully state they are compelled to decline orders from abroad unless accompanied by an order for payment when shipped, to some agent or mercantile house in London.

Gouvernements Secretaris

King Williams Town.

MYNHEER—Ik heb de eer te rapporteren dat het Oppelhoofd Krelhi nu de vrywillige verbintenis heeft volbragt welke hy heeft aangegien, om het Wesleyaansche genootschap, en den Gouvernements Resident schadeloos te stellen voor de verieling van hunne gebouwen, te Butterworth, gedurende den laatsten oorlog.

Krelhi heeft my op onderscheiden tyden vee gezonden, dat ik by publieke veiling heb verkocht voor de som van £433 17 0.

Ofschoon deze som de oorspronkelyke begrooting van verliezen niet bereikt, gemaakt door het Wesleyaansche Genootschap en den Gouvernements Resident, echter, daar ik wist dat Uwe Excellentie niet verlangde Krelhi te stricken voor het geheele bedrag dat hy had beloofd goed te maken, heb ik hem doen kennis geven, dat indien hy de laatste termyn van het vee inzond, Uwe Excellentie voldaan zou zyn met de bewyzen van goeden wil door hem betoond, en dat hy ontslagen was van alle verdere volbrenging van zyne verbintenis.

Ik heb den bovengemelden som doen toekomen aan den Superintendent der Wesleyaanche Zendingen, met het verzoek dat hy aan den Gouvernements Resident, zoodanig deel daarvan zal restitueren, als evenredig zal zyn aan de oorspronkelyke beraming van kosten.

Ik heb de eer te zyn, enz.,

Uwe Excellenties onderdaanige en ootmoedige Dienaar,

GEO. MACKINNON,
Kolonel en Hoofd Commissaris.

King William's Town, 3 Dec. 1848.

MYNHEER—Met betrekking tot mynen brief van den dezer, rapporterende dat het Oppelhoofd Krelhi voldaan had aan zyne verbintenis om schadevergoeding te doen voor

de veranieling van de Zendingen post en de Residentie aan Butterworth, heb ik nu de eer de Copy in te sluiten van eenen brief van den Wel-erw. Hr. Shaw, Superintendent van de Wesleyaansche Zendingen, waarbij uwe Excellentie zal zien dat een resolutie is gepasseerd by de Jaarlyke Districts Byeenkomst van de Wesleyaansche Leeraars, my verzoekende uwe Excellentie bunne hartelykste en oerbiedigste dankbetuigingen te doen toekomen, voor de wyze waarop de zaak in kwestie is afgedaan. Uwe Excellentie zal mede zien uit den brief van den Hr. Shaw, dat de vermeerdering welke het fonds van het genootschap heeft genoten, door het ontvangen van de schadevergoeding, hetzelfde heeft doen besluiten tot de dadelyke aanstelling van eenen Catechiseermeester, om te resideeren op de statie, in de nabijheid van de verblyfplaats van het Opperhoofd Krelil.

Ik heb, enz.,
(Get.) GEO. MACKINNON:

Copy.

Grahamstad, 1 December 1848.

MYNHEER.—Ik heb de eer gehad uwen brief te ontvangen van den 21 November, incloserende wissels als daarin beschreven, beloopende te samen tot de som van £433 17 0 zynde het bedrag ontvangen van verkooping van publieke veiling van het vee ingezonden door het Opperhoofd Krelil, als schadevergoeding voor de vernieling van de Zendingen Post en de residentie van den Gouvernements Agent, aan Butterworth, gedurende den oorlog.

Ik zal zorgen aan den Heer Fynn zyn evenredig deel te betalen, volgens de begroting van verliezen, oorspronkelijk aan U.E. ingediend, en nu bedoeld in uwen brief, de instructie van welken stiptelyk zullen worden in acht genomen.

Daar de Wesleyaansche Leeraars van deze afdeeling, bevattende die gestationeerd in de oostelyke afdeeling en in Kafferland, toevallig in de Staal zyn, tot bywooning van onze jaarlyke Districts vergadering heb ik uwe communicatie aan hen voorgelezen, toen een besluit dadelyk en eenstemmig is gepasseerd, my gelastende u onze hartelyke dank te betuigen voor uwe vriendelyke en spoedige oplettenheid op deze zaak, en wy verzoeken mede dat gy ons de gunst wilt doen aan Zyne Excellentie den Hoog-Commissaris, om eerbiedigste dank te betuigen voor de wyze waarin deze zaak is afgedaan zoo geheel tot onze voldoening.

Ik neem deze gelegenheid waar U.E. te berigten dat de hulp dus verstrekt in de zware kosten nu te worden gemaakt door het genootschap, in het wederoprikten van de vernielde gebouwen op de hervatte posten, ons heeft doen besluiten tot het dadelyk aanstellen van eenen cathechezeer meester tot eenen nuwe post in de onmiddelyke nabijheid van Krelis verblyfplaats, als een voorbereiding tot onze vervulling van het herhaald aanzoek van gez. Opperhoofd, dat wy hem eenen zending zonden zenden, en het geen my voornemens zyn zoo spoedig als mogelijk te doen.

Inmiddels zal een Europeische Catechiseermeester, die de Kaffer taal spreekt zich overwyld naar dat deel des lands begeven, en onder de leiding van de Erw. fir. GLEDWYN, om met de toestemming van het Opperhoofd, zullen wy een plaats kiezen voor de voorgestelde zending; de juiste plaats zal u nauwkeurig worden gerapporteerd, door middel van den Heer Fynn, den Assistent Commissaris in Krelis Stam.

Ik heb, enz.,
W. SHAW,
Generale Superintendent van de
Wesleyaansche Zendingen in Z. O. Afrika

GOVERNMENT NOTICE.

Colonial Office, Cape of Good Hope,
15th December 1848.

A Light House having been erected at Cape Agulhas, near the southernmost point of the Continent of Africa, the following Sailing Instructions for vessels approaching that point, which have been drawn up by T. MACLEAR, Esq., F. R. S., Her Majesty's Astronomer Royal at the Cape of Good Hope, and which include a description of the land and shore about Agulhas,—instructions for anchoring in Struys Bay,—and a description of the construction of the Light Apparatus, are by direction of His Excellency the Governor published for general information.

His Excellency has further desired it to be notified that, the works being now completed, the Lantern will be lighted on the 1st of March next; and will, thereafter, continue to be lighted every evening at sunset.

By His Excellency's Command,
(Signed) JOHN MONTAGU,
Secretary to Government.

CAPE AGULHAS LIGHT.

It has been thought advisable to reverse the logical order of the matter connected with the establishment of this Light, so that what is most wanted should appear first, and further information be had by reference to the particular heads.

The adopted arrangement is as follows:—

1. General Sailing Instructions for Passing Agulhas.
2. Description of the Land and Shore about Agulhas.
3. Instructions for anchoring in Struys Bay, Currents, Tides, &c.
4. Description of the Construction of the Light Apparatus.

1.—General Sailing Instructions for Passing Agulhas.

Latitude of the Light, — — — 24 49 45.7 h. m. s.
Longitude, East of Greenwich, — — — 10 0 40 = 1 20 2.67
Longitude, East of the Cape Observatory, — 1 31 55 = 0 6 7.67
Height of the Light above the mean level of the Sea, 131 English feet.
Magnetic Variation 29° 20' W.

The Light can be seen in clear weather in any direction seaward, between East and North West by West, at the distance of six leagues from a deck 15 feet high. It is a steady white Light.

All the bearings mentioned are Magnetic, and all the distances expressed in miles are Geographical, unless the contrary is stated.

If a vessel from the Eastward passes Struys' Point at the distance of 5 miles from the shore, and steers a W. by S. course exactly, she will pass the most Southerly projection of the Northumberland point reef at the distance of 4½ miles, and the Light at the distance of 5½ miles, and clear Gunner's Quoin. This is the limit Northward within which no sailing vessel should be found. It secures every advantage that could possibly be obtained by a closer course, and at that distance the Light will be brilliant.

Precautions:—In clear weather, the Light may be seen, when 5 or 6 miles Eastward of Struys Point, from a look-out at the height of 35 feet; and if the vessel then should chance to be close in shore, by steering the above course, she might touch the shoal off Struys Point. To guard against this, when the Light is first seen, it should be brought immediately to bear W. by N.; and keeping this bearing of the Light, the vessel will pass 2 miles to the Southward of any danger respecting Struys' Point.

Care should be taken when approaching the land before the Light is discovered, for in hazy weather, or from spray in a fresh breeze, combined with the distance of Struys Point (about 15 miles), the Light may be faint or altogether obscured, and the vessel may get within the line of danger. Under these circumstances, the Lead should not be neglected, and the depth should not be less than 20 fathoms, without putting about immediately to the South.

The like precautions are required in the day time, particularly in foggy weather; for the high land of Agulhas may be invisible, while the sand hills of Struys Bay and the breakers off Northumberland Point are distinctly seen. On these occasions it is difficult to determine whether the vessel is to the Eastward or Westward of Struys Point; because the shore features of the Bay Eastward of that Point, are similar to those of Struys Bay, although the extent is less.

Sailing vessels in particular should adhere to the rules, for if it should fall

calm, the heavy swell which constantly rolls towards the shore would carry them with it, and the only resource, that of anchoring, would probably be of no avail from the rocky nature of the bottom, combined with the swell. The "St. Mungo" is said to have been wrecked in this way.

Coming from the Westward, the Light will be seen first on a S. 57° 15' E. bearing. The extreme end of the low ground called Gunner's Quoin Point bears N. 52° 30' W. from the Light House, distant 19½ miles, but is not visible from it. The sea was remarked breaking a long way off the Point,—it will therefore be necessary to keep off until the Light becomes visible.

With the precautions here given, there will be as little danger in rounding Agulhas as in rounding the Cape of Good Hope, or indeed any other headland.

2.—Description of the Land and Shore about Agulhas.

Cape Agulhas is defined to be the rocky projection from the South East corner of the Agulhas Promontory, the centre of which Promontory is about ¼th of a mile Westward of the projection, and about 200 yards more Southerly, being the most Southern part of Africa.

Description of the Land.—The features of the land about Agulhas distinguish it from the neighbouring head lands. A ridge-shaped undulating clump, rising from the flat ground, is separated into four ridge-shaped hills by irregular ravines running nearly true East and West. The middle ridges enter, wedge-like, at the East-end, and are lost towards the centre, where the ravine widens to a mile in breadth. The middle ridges are the lowest, the Northern and Southern are nearly of equal height.

Viewed at a distance from the Seaward, Easterly or Westerly, the North and South elevations being seen nearly end on, resemble two oblong hummocks; but the former extending more easterly appears the highest as seen from the Eastward.

Viewed at a distance from the Southward, the south ridge masks the others, save at their East end; but the ravines being hid, the whole appear to be united (only the South and middle ridges are noticed on the Chart. They are all given on Col. MICHELL's plan.)

The highest part of the South ridge is 455 feet above the level of the sea, and its true meridional distance from the shore is almost exactly one mile. From this point the descent Eastward is rather gradual. Westward the descent is at first steep, then slightly undulates. Southward it is steep, then undulates to within 300 yards of the shore, where the ground becomes flat.

On the first undulation from the shore, which is about 55 feet above the level of the sea, nearly true South of the highest point before mentioned, and N. 39° W., 520 yards from Cape Agulhas, the Light House is built.

This spot was selected by the Masters of H. M. Ships *President*, *Brilliant*, and *Rosamond*, (Messrs. REES, RUSSEL, and ASHTON), under the command of Capt. FOOTE, R. N., in conjunction with Lieut.-Colonel MICHELL.

The Light commands to seaward between E. and N. W. by W., or more correctly, E. to N. 57° 15' W.

Description of the Shore—West of the Agulhas Promontory the shore bends North-westerly, then round to the headland called Gunner's Quoin, forming an irregular shallow incursion of about 19 miles in breadth. Immediately to the E. N. E. of the Promontory are two deep indentations. The first called St. Mungo's Inlet. The next is deeper and wider, and the projection which separates them is called St. Mungo's Point. From the last inlet the shore runs jagged to the dangerous projection called Northumberland Point, the site of the wreck of the ship "Duke of Northumberland," which Point forms the west horn of Struys Bay.

The whole of the beach, from the west of the Agulhas Promontory to Northumberland Point, consists of rugged sand stone and quartz rocks, or rocky reef, perfectly impracticable even for a boat. At the Promontory groups of rock prevail; at the Cape, rocks and rocky reef, extending out a third of a mile. At the inlets, flat rocky reef exposed at low water for a third of a mile; thence rocky to Northumberland Point, where it is sand and reef.

Exposed to the uninterrupted oscillations of the Southern Ocean, the sea breaks heavy on this iron bound shore, particularly during Southern winds. A vessel touching upon it, has not the slightest chance of escaping destruction.

The coast between Northumberland Point, and Struys Point, viz., of Struys Bay, is low and sandy, but a short distance from the beach, there is a line of sand hills varying from 50 to 150 feet in height, some of them covered with dark coloured bush, a feature that distinguishes the coast from Struys Point to the next Point eastward of it. There is no high land sufficiently near to interfere with the distinguishing character of the hills Northward of Agulhas, as viewed from the seaward.

Northumberland Point bears East from the Light 3½ miles. It is low and sandy immediately on the beach; but a very dangerous ledge of rocks extends S. 37° 30' E., 1 mile from the Point, and a detached rock was fixed by intersection while breasting, which places it S. 55° 30' E., 1½ mile from the Point; and S. 81° 40' E., 4½ miles from the Light. The extreme of Northumberland

Point reef bears S. 77° 30' E., 3½ miles nearly from the Light. Westward from the Point the reefs extend about one-third of a mile and break heavily when the wind is from the S. E. In one or two places it breaks further out, but in no place exceeds half a mile.

Struys Point is the outer extreme of a number of sand hills, and as before stated, forms the Eastern horn of Struys Bay. It bears from Northumberland Point, which is the Western horn, N. 79° 30' E., 11 miles (estimated), and N. 82° 20' E., 15 miles from the light house. This Point is more dangerous than Northumberland Point, inasmuch as the reefs lie much further off the shore, and there is no high land to enable the mariner to determine his position. Circumstances did not allow of this Point being included in the Agulhas survey; but during a strong South-easter it was remarked from the summit of the sand hills near the Point, that the reef extended seaward about 3 miles, and was then breaking with fury.

Like Northumberland Point, the color of the water off this Point changes to seaward from brown to light, then dark green; from which it may be inferred, together with the known shallowness of the water off Northumberland Point, that the Lead as well as the color of the water, will always warn a ship of the approach of danger.

Struys Bay is formed by Struys Point to the East and Northumberland Point to the West. The landing place is in a small bay or cove to the N. W. of Northumberland Point, sheltered by a projecting shelf of shingle from each extremity of the cove. The jetty, constructed from pieces of wreck, renders the landing easy; but at the outer horns of the shingle there is only water sufficient for a boat at quarter flood in fine weather. Three or four huts at the head of the jetty, point out its position from the Bay. Immediately in the neighbourhood, on higher ground, is a stone dwelling house, with a signal staff a few yards behind it, termed the telegraph staff on the chart.

The marks for anchoring are the large stone house near the beach W. ¼ S., and the sandy extreme of Northumberland Point S. W. by S., in 5 fathoms sand. Here the bottom is clear, while to the westward and nearer to the reef where the water is smoother the bottom is foul,—rocks interspersed with patches of sand. The latter is unsafe, the cable is liable to snap from fouling the rocks, an accident that befel H. M. Vessel "Dee," while, lying there in a light South westerly wind accompanied by the usual swell.

Directions for Anchoring.—Vessels from the westward intending to anchor in this bay, should not bring the light house to bear more Westerly than W. by N. ¼ N., until Northumberland Point bears N. W. ¼ N. Then steer N. N. E. or N. E. by N. until the stone house before mentioned bears W. N. W. This will lead clear of the outer detached reefs off Northumberland Point. Proceed then to N. W. and bring the anchorage marks on.

The light will not be visible from this anchoring ground, owing to the swell of the intervening land.

Precautions respecting Struys Bay—Shelter may be obtained in this bay during Westerly and North Westerly winds only. None is afforded with the wind between S. W. round to the Southward and East. With any of the latter winds it is unsafe if not impossible to ride in this bay, for the sea rises to such an extent as to break in 7 or 8 fathoms, a circumstance that was remarked on two occasions while H. M. Steamer "Dee" was standing off waiting for the weather to moderate to enable her to anchor. At the time of anchoring, although the wind had subsided for several hours, the water nearly broke in 7 fathoms where the anchor was let go; and at the place from whence she had put to sea three days before in 4½ fathoms, the sea was breaking heavily. As a general rule, vessels seeking shelter in this bay in a N. W. gale, should put to sea immediately after it subsides: for the wind frequently changes in a few hours from a strong N. W. to a S. E. or South point; in which case it is very difficult to work out in consequence of the heavy sea that rises with these winds.

Currents.—During the examinations of the Coast (Sept. 1848) no current was observed in Struys Bay, nor about the coast 2½ miles from the shore, as far to the westward of Agulhas as the letter E. on the chart: but it was confidently asserted by fishermen, and the residents at Struys Bay, that a very strong current frequently sets to the Northward round Northumberland Point.

Tides.—Circumstances did not allow of the Tides being observed with due accuracy. Two copper plugs were let into rocks S. W. of the Light House to mark the high and low water points nearly at Spring Tides. The comparisons with these plugs on October 15, 16, 18, 19, 28, 29, (1848), and an observation at the jetty in Struys Bay, on October 28, give the establishment, and rise and fall, nearly similar to what prevails in Table Bay and Simon's Bay.

Magnetic Variation.—This was determined by means of two Magnets, on the flat ground between the Light House and Beach. The result (29° 20' W.) has been employed for the compass bearings, given in these Instructions.

4.—Description of the Light Apparatus.

This Light is of the first or most brilliant class, and is the work of Mr. HENRY LE PAUTE. It is constructed upon what is technically called the Dioptric principle.

A hollow cylinder with a paraboloid top of about 10 feet in circumference, and 10 feet in height, is composed (omitting a door way) of 28 horizontal tiers of glass and reflectors, firmly fixed in a metallic frame work of six compartments; so that each tier is divided into six circular segments.

The centre tier is a large hoop-shaped plano convex lens, 11 inches in depth. Next, 8 tiers of circular prisms above and 8 below the centre lens. Then 7 tiers of reflectors above and 4 tiers below. Three-fourths of the circumference of the cylinder is formed by this combination. The remaining quadrant which is towards the land, and its centre due North, serves for the door way into the cylinder; but the door is lined with two large concave metallic reflectors, each two feet in breadth and three feet in height.

The burner consisting of four concentric Argand Wicks, 4 inches in diameter, is placed in the centre of the cylinder in the focus of the large lens. It is supplied with oil by a force pump driven by clock-work; and there is a simple contrivance, which gives notice by the ringing of bell when the reservoir requires to be replenished.

The frame work of the Lenticular (the name given to the whole combination) is firmly attached to a cast-iron circular floor, supported by a stem of cast iron; the lower end of which is let into a block of granite resting upon the crown of the supporting dome, where it (the stone) is surrounded by masonry.

The theory of the Lenticular may be understood, as follows:—The burner lying in the focus of the plano-convex lens, the rays of light that impinge upon the inner plane surface, emerge outside horizontal.

The bases of the prisms are perpendicular inside; their upper planes are horizontal, and their hypobothousal planes outside slant downwards and inwards. The depth of each base successively diminishes from 3 inches to 1½ inch in depth, in the order from the centre lens upwards and downwards, which is the order of the increasing inclination of the impinging rays from the burner. The effect of the prismatic form, is to turn the rays, and to send them out hori-

zontal, upon the same principle by which objects in a horizontal direction in front of a Camera Lucida are seen by looking down into it.

The tiers of reflectors commence at the height and depression where the still greater inclination of the impinging rays from the burner would cause a prism to decompose them in the horizontal direction into the prismatic or rainbow colours. The reflectors are concave towards the lens, their curvatures increasing as they recede from the centre lens. They reflect the rays that fall upon them to the prisms, whence they are sent out horizontal.

The two large reflectors behind on the inside of the door return the rays from their direction to the large lens, through which they escape horizontal.

Thus all the light from the burner, save the small quantity that escapes up the chimney glass, is bent into one brilliant horizontal sheet to overspread the horizon.

This splendid specimen of skill is protected by a Lantern 10½ feet in diameter or 33 feet in circumference, glazed with thick plate glass, and surmounted by a copper dome, from which a lightning conductor of wire rope descends to the ground.

The Light House was planned by Lieut. Colonel MICHELL, the late talented Surveyor General at the Cape, who made a journey to Paris for the express purpose of selecting the Lenticular Apparatus.

It may be proper to mention, that the Tower of the Light House is to be painted, and will show alternate horizontal bands of white and red, two of each.

Messrs. REES, CARR, and SKRAD of H. M. Ships *President*, *Nimrod*, and *Dee*, respectively, particularly Mr. SKRAD, provided a large portion of the Sailing Instructions. These, with the remainder by myself, I have arranged and compared carefully with the Chart recently constructed from measurement and rigorous trigonometric calculation. The other matter is by myself, and I hold myself responsible for the accuracy of the whole.

I may add, that one of the trigonometric stations in the measurement of the Arc of the Meridian is on the highest point of the hill above the Light House; by means of which, the Latitude and Longitude of the Light House are derived from the position of the Observatory. Thus the Light is in an exact Geographical Point.

GOVERNMENT NOTICE.

Colonial Office, Cape of Good Hope, 19th December 1848.

THE Excellency the Governor has been pleased to direct the Publication, for the information and guidance of the Resident Magistrates throughout the Colony, of the following queries made by the Resident Magistrate, Uitenhage, respecting the discretionary power vested in that office in granting Licences for the Sale of Wines, &c., and the opinion of Her Majesty's Attorney General on the points raised.

By Command of His Excellency the Governor,

(Signed) JOHN MONTAGU,
Secretary to Government.

"As the time is rapidly approaching for determining the applications for Licences, and as I find these applications are upon the increase in this Division, I trust I shall be excused for troubling you on the subject.

"The difficulties which surround the question, especially so far as it involves the exercise of any, and what, discretionary power, on the part of the Magistrate, from the peculiar wording of the latter parts of the 11th and 15th sections of Ordinance No. 29, of 1846, and the prejudices of the public generally, with regard to the Licensing system, induce me to request you will be good enough to favor me with your opinion on the following points, in addition to those brought to your notice in my official communication of the 6th ultimo.

Resident Magistrate's Queries.

1. Can the Magistrate, by Law, exercise any discretion with regard to the granting of Wholesale Licences, or is the Distributor bound to grant every application made for a Wholesale Licence, under the 7th section of Ordinance No. 29, of 1846?

2. If no objections are made in Court, under the 11th section, and applicants produce the certificates required under the 15th section, recommending the application for a Tap, Canteen, or Public-house, can the Magistrate legally refuse it, upon what shall appear to him to be sufficient grounds, such as the necessity of restricting the number of Licensed Houses, &c., or is he bound to grant all applications made to him under this section, if no objections are lodged, and the parties are furnished with the required certificates?

3. If written, but not oral, objections are made by a part of the community against the granting of any Licences, can they be entertained, if the parties are furnished under the 11th section with the requisite certificate?

4. Or can the Magistrate, in the exercise of his discretion, limit the number of Taps, Canteens, or Public-houses?

5. If the application is restricted to the keeping of an Inn, Hotel, or Boarding House, and the applicant produces the Certificate required under the 15th section, is the Magistrate legally bound to grant it, if no parties appear to object to it, or can he exercise his discretion, and grant a certain limited number only, notwithstanding?

For instance, the place may be at the Quagga's Flat, 48 miles distant from this place, and 18 miles from Sidbury, not under the surveillance of the Police; and as I mentioned in my report on Mr. Adecock's application, "there is no doubt that in the country Inns and Canteens are confounded." In such cases, can the Magistrate refuse, if he considers there are grounds, such as I have stated, although the parties have complied with the requisites of the law?

(Signed) H. TENNANT.

The Attorney General's opinion.

I conceive that the Magistrate has no discretion.

The Chief Justice and the Secretary to Government differ upon this point, the former holding that the Magistrate can only refuse, upon objections preferred by some competent person. My view is that the Magistrate may act on his own knowledge.

Objectors must, I conceive, attend in person, or be wholly disregarded.

I have said, that in my opinion, he may.

I see no reason for distinguishing these places from Taps. They may be limited, as it strikes me.

NOTE.—The distressing uncertainty to their province and powers which many Magistrates experience, points the necessity of some further legislation to clear up the points by which they are so much embarrassed.

(Signed) W. PORTER.

PROCLAMATION

BY HIS EXCELLENCY LIEUT.-GENERAL

SIR HENRY GEORGE WAKELYN SMITH,

Baronet, Knight Grand Cross of the Most Honorable Military Order of the Bath, Colonel of the Second Battalion of the Rifle Brigade, Governor and Commander-in-Chief of the Settlement of the Cape of Good Hope, in South Africa, and of the Territories and Dependencies thereof, and Ordinary, and Vice-Admiral of the same; and Her Majesty's High Commissioner for the settling and adjustment of the Affairs of the Territories in Southern Africa, adjacent and contiguous to the Eastern and North Eastern Frontier of the said Colony, &c. &c. &c.

WHEREAS by one of the Schedules annexed to a certain Proclamation issued by the then Governor of the Colony, Lieut.-General Sir PEREGRINE MAITLAND, K.C.B., on the 30th day of October 1845, certain rates of Toll Duty were proclaimed and made payable at the Toll Gates at the Upper and Lower Tolls at the Military Lines, at Muizenberg, and at Simon's Town;

And whereas it has been represented to me, by the Central Board of Commissioners of Public Roads, that the Rates of Toll Duty in the said Schedule contained do not bear a fair proportion to the heavy outlay required to keep the Roads on which those Tolls are placed in proper repair, and that they should therefore be repealed, and other Rates substituted in lieu thereof:—Now, therefore, under and by virtue of the Provisions of the Ordinance No. 8 of 1843, I do hereby proclaim and make known, that from and after the 1st day of January in the approaching year 1849, and until the 31st day of December 1851, the Toll Duties or Rates specified in the Schedule A, hereto annexed and none other, shall be demanded and be paid at the Toll Bars or Gates at the Upper and Lower Military Lines, Cape Town, the Muizenberg Toll, and the Simon's Town Toll,—from and after which date the Schedule of Toll Duties aforesaid shall stand repealed.

And whereas, by a second Schedule annexed to the above-mentioned Proclamation, issued by Lieut.-General Sir PEREGRINE MAITLAND, K.C.B., dated the 30th of October 1845, certain Rates of Toll Duty were proclaimed and made payable at the Toll at Sir Lowry's Pass;

And whereas, by a Proclamation issued by the Right Hon'ble Major-General Sir HENRY POTTINGER, Bart., G.C.B., on the 12th day of May 1847, certain Rates of Toll Duty were proclaimed and made payable at the Toll of Houw Hoek; and whereas it has been represented to me by the Central Board of Commissioners of Public Roads that the Rates of Toll Duty in the above-mentioned second Schedule to the Proclamation of Sir P. MAITLAND, dated 30th October 1845, and in the above-mentioned Proclamation of Sir H. POTTINGER, dated 12th May 1847, are inadequate to defray a fair proportion of the expenses incurred in the Repairs of the Mountain Passes on which they are respectively situated, and that they should therefore be repealed, and other Rates substituted in lieu thereof:—Now, therefore, under and by virtue of the Provisions of the Ordinance No. 8 of 1843, I do hereby proclaim and make known that from and after the 1st day of January in the approaching year 1849, the Toll Duties or Rates specified in the annexed Schedule B, and none other, shall be demanded and be paid at the Tolls at Sir Lowry's Pass and at Houw Hoek, from and

after which date the Schedules of Toll Duties aforesaid shall stand repealed.

GOD SAVE THE QUEEN!

Colony of the Cape of Good Hope, to wit.

BE it remembered, that **ELIZABETH SMITH**, the Defendant in this suit, has been summoned to answer **JAMES SMITH**, the Plaintiff in this suit, in an action to obtain the dissolution of the Bonds of Marriage subsisting between the said Plaintiff and the said Defendant, by reason of Adultery committed by the said Defendant, &c.

And be it further remembered, that, afterwards, that is to say, on the Fifth day of December, in the year of our Lord, One Thousand Eight Hundred and Forty-eight, at Cape Town, before the Hon'ble Sir JOHN WYLDE, LL.D. And the said Defendant, although duly therunto required, comes not, but makes default. Peakome's Saddles.

PEAKOME, Saddler, 7, Princes Street, Cavendish Square, London, England: *Inventor* of the Union Flap Somerset Saddle (so universally approved) first manufactured by PEAKOME, expressly for the late Lord CHARLES SOMERSET, whom he had the honour of serving for many years.

ESTABLISHED NEARLY HALF A CENTURY

Messrs. PEAKOME, grateful for the patronage their Saddlery has received in India and the Cape of Good Hope, for so many years,—feel bound in justice to themselves to make known, that large quantities of Saddles are exported from England as PEAKOME'S SADDLES, which are not of their make, but spurious imitations. Gentlemen are respectfully informed that PEAKOME'S name and address (as well as the printed label) is stamped on the Flaps of all their Saddles, without which none are genuine, and to pirate which will subject the parties to legal proceedings. The great superiority of PEAKOME'S SADDLES consists in their

Formation, Material, Workmanship, and Durability.

The principle upon which they are constructed is PEAKOME'S sole invention, who after years of application and great experience in the trade, reduced to scientific rules, plans for their Formation, to combine Uniformity of appearance in the Saddle,—ease and comfort to Rider,—and security to the Horse's back from injury.

Peakome's Ladies' Saddles.

famed both for comfort and beauty, are manufactured entirely upon the same principle.

N.B.—Messrs. PEAKOME respectfully state they are compelled to decline orders from abroad unless accompanied by an order for payment when shipped, to some agent or mercantile house in London.

WHAT IS IN A NAME;

THE philosophic axiom, that there is no absolute or necessary connection between a name and the thing nominated, has been singularly comprehended, and most cunningly acted upon, by an Empirical Pestle and Mortar Philosopher of this City.—In as far as he has surreptitiously imparted to a vile compound of his own production, the name of my unrivalled perfume for the Handkerchief and Boudoir, and deceitfully imitated my labels for the same, so closely as to mislead incautious buyers. Let the Public, therefore, beware of such disgracefully avaricious chicane, (whether in vending physic or perfumery) and remember that I am the sole proprietor, compounder, and vender, of the unrivalled perfume, *Real Omar Essence*; and that the label on every bottle of the genuine article must bear my signature.

GOVERNMENT NOTICE.

*Colonial Office, Cape of Good Hope,
15th December 1848.*

A Light House having been erected at Cape Agulhas, near the southernmost point of the Continent of Africa, the following Sailing Instructions for vessels approaching that point, which have been drawn up by T. MACLEAR, Esq., F. R. S., Her Majesty's Astronomer Royal at the Cape of Good Hope, and which include a description of the land and shore about Agulhas,—instructions for anchoring in Struys Bay,—and a description of the construction of the Light Apparatus, are by direction of His Excellency the Governor published for general information.

His Excellency has further desired it to be notified that, the works being now completed, the Lantern will be lighted on the 1st of March next; and will, thereafter, continue to be lighted every evening at sunset.

By His Excellency's Command,
(Signed) **JOHN MONTAGU,**
Secretary to Government.

CAPE AGULHAS LIGHT.

It has been thought advisable to reverse the logical order of the matter connected with the establishment of this Light, so that what is most wanted should appear first, and further information be had by reference to the particular heads.

The adopted arrangement is as follows:—

1. General Sailing Instructions for Passing Agulhas.
2. Description of the Land and Shore about Agulhas.
3. Instructions for anchoring in Struys Bay, Currents, Tides, &c.
4. Description of the Construction of the Light Apparatus.

1.—General Sailing Instructions for Passing Agulhas.

Latitude of the Light,	-	-	-	34	49	45.7	b.	m.	s.	
Longitude, East of Greenwich,	-	-	-	50	0	40	=	1	20	2.67
Longitude, East of the Cape Observatory,	-	-	-	1	31	55	=	0	6	7.67

Height of the Light above the mean level of the Sea, 131 English feet.

Magnetic Variation $29^{\circ} 20' W.$

The Light can be seen in clear weather in any direction seaward, between East and North West by West, at the distance of six leagues from a deck 15 feet high. *It is a steady white Light.*

All the bearings mentioned are Magnetic, and all the distances expressed in miles are Geographical, unless the contrary is stated.

If a vessel from the *Eastward* passes Struys' Point at the distance of 5 miles from the shore, and steers a W. by S. course exactly, she will pass the most Southerly projection of the Northumberland point reef at the distance of $4\frac{1}{2}$ miles, and the Light at the distance of $5\frac{1}{2}$ miles, and clear Gunner's Quoin. This is the limit *Northward* within which no sailing vessel should be found. It secures every advantage that could possibly be obtained by a closer course, and at that distance the Light will be brilliant.

Precautions:—In clear weather, the Light may be seen, when 5 or 6 miles Eastward of Struys Point, from a look-out at the height of 35 feet; and if the vessel then should chance to be close in shore, by steering the above course, she might touch the shoal off Struys Point. To guard against this, when the Light is first seen, it should be brought immediately to bear W. by N.; and keeping this bearing of the Light, the vessel will pass 2 miles to the Southward of any danger respecting Struys' Point.

Care should be taken when approaching the land before the Light is discovered, for in hazy weather, or from spray in a fresh breeze, combined with the distance of Struys Point (about 15 miles), the Light may be faint or altogether obscured, and the vessel may get within the line of danger. Under these circumstances, the Lead should not be neglected, and the depth should not be less than 20 fathoms, without putting about immediately to the South.

The like precautions are required in the day time, particularly in foggy weather; for the high land of Agulhas may be invisible, while the sand hills of Struys Bay and the breakers off Northumberland Point are distinctly seen. On these occasions it is difficult to determine whether the vessel is to the Eastward or Westward of Struys Point; because the shore features of the Bay Eastward of that Point, are similar to those of Struys Bay, although the extent is less.

Sailing vessels in particular should adhere to the rules, for if it should fall calm, the heavy swell which constantly rolls towards the shore would carry them with it, and the only resource, that of anchoring, would probably be of no avail from the rocky nature of the bottom, combined with the swell. The "St. Mungo" is said to have been *wrecked in this way*.

Coming from the Westward, the Light will be seen first on a S. 57° 15' E. bearing. The extreme end of the low ground called Gunner's Quoin Point bears N. 52° 30' W. from the Light House, distant 19½ miles, but is not visible from it. The sea was remarked breaking a long way off the Point,—it will therefore be necessary to keep off until the Light becomes visible.

With the precautions here given, there will be as little danger in rounding Agulhas as in rounding the Cape of Good Hope, or indeed any other headland.

2.—Description of the Land and Shore about Agulhas.

Cape Agulhas is defined to be the rocky projection from the South East corner of the Agulhas Promontory, the centre of which Promontory is about $\frac{1}{4}$ th of a mile Westward of the projection, and about 200 yards more Southerly, being the most Southern part of Africa.

Description of the Land.—The features of the land about Aguilas distinguish it from the neighbouring head lands. A ridge-shaped undulating clump, rising from the flat ground, is separated into four ridge-shaped hills by irregular ravines running nearly true East and West. The middle ridges enter, wedge-like, at the East-end, and are lost towards the centre, where the ravine widens to a mile in breadth. The middle ridges are the lowest, the Northern and Southern are nearly of equal height.

Viewed at a distance from the Seaward, Easterly or Westerly, the North and South elevations being seen nearly end on, resemble two oblong hummocks: but the former extending more easterly appears the highest as seen from the Eastward.

Viewed at a distance from the Southward, the south ridge masks the others, save at their East end; but the ravines being hid, the whole appear to be united (only the South and middle ridges are noticed on the Chart. They are all given on Col. MICHELL's plan.)

The highest part of the South ridge is 455 feet above the level of the sea, and its true meridional distance from the shore is almost exactly one mile. From this point the descent Eastward is rather gradual. Westward the descent is at first steep, then slightly undulates. Southward it is steep, then undulates to within 300 yards of the shore, where the ground becomes flat.

On the first undulation from the shore, which is about 55 feet above the level of the sea, nearly true South of the highest point before mentioned, and N. 30° W., 520 yards from Cape Agulhas, the Light House is built.

This spot was selected by the Masters of H. M. Ships *President*, *Brilliant*, and *Rosamond*, (Messrs. RIES, RUSSEL, and ASHTON), under the command of Capt. FOOTE, R. N., in conjunction with Lieut.-Colonel MICHELL.

The Light commands to seaward between E. and N. W. by W., or more correctly, E. to N. $57^{\circ} 15' W.$

Description of the Shore—West of the Agulhas Promontory the shore bends North-westerly, then round to the headland called Gunner's Quoin, forming an irregular shallow incurvation of about 19 miles in breadth. Immediately to the E. N. E. of the Promontory are two deep indentations. The first called St. Mungo's Inlet. The next is deeper and wider, and the projection which separates them is called St. Mungo's Point. From the last inlet the shore runs jagged to the dangerous projection called Northumberland Point, the site of the wreck of the ship "Duke of Northumberland," which Point forms the west horn of Struys Bay.

The whole of the beach, from the west of the Agullas Promontory to Northumberland Point, consists of rugged sand stone and quartz rocks, or rocky reef, perfectly impracticable even for a boat. At the Promontory groups of rock prevail; at the Cape, rocks, and rocky reef, extending out a third of a mile. At the inlets, flat rocky reef exposed at low water for a third of a mile; thence rocky to Northumberland Point, where it is sand and reef.

Exposed to the uninterrupted oscillations of the Southern Ocean, the sea breaks heavy on this iron bound shore, particularly during Southern winds. A vessel touching upon it, has not the slightest chance of escaping destruction.

The coast between Northumberland Point, and Struys Point, viz., of Struys Bay, is low and sandy, but a short distance from the beach, there is a line of sand hills varying from 50 to 150 feet in height, some of them covered with dark coloured bush, a feature that distinguishes the coast from Struys Point to the next Point eastward of it. There is no high land sufficiently near to interfere with the distinguishing character of the hills Northward of Agulhas, as viewed from the seaward.

Northumberland Point bears East from the Light $3\frac{1}{2}$ miles. It is low and sandy immediately on the beach; but a very dangerous ledge of rocks extends S. $37^{\circ}.30'$ E., 1 mile from the Point, and a detached rock was fixed by intersection while breaking, which places it S. $58^{\circ}.30'$ E., $1\frac{1}{2}$ mile from the Point; and S. $81^{\circ}.40'$ E., $4\frac{1}{2}$ miles from the Light. The extreme of *Northumberland Point* reef bears S. $77^{\circ}.30'$ E., $3\frac{1}{10}$ miles nearly from the Light. Westward from the Point the reefs extend about one-third of a mile and break heavily when the wind is from the S. E. In one or two places it breaks further out, but in no place exceeds half a mile.

Struys Point is the outer extreme of a number of sand hills; and as before stated, forms the Eastern horn of Struys Bay. It bears from Northumberland

Point, which is the Western horn, N. 79°.30' E., 11 miles (estimated), and N. 82°.20' E., 15 miles from the light house. This Point is more dangerous than Northumberland Point, inasmuch as the reefs lie much further off the shore, and there is no high land to enable the mariner to determine his position. Circumstances did not allow of this Point being included in the Agulhas survey; but during a strong South-easter it was remarked from the summit of the sand hills near the Point, that the reef extended seaward about 3 miles, and was then breaking with fury.

Like Northumberland Point, the color of the water off this Point changes to seaward from brown to light, then dark green; from which it may be inferred, together with the known shallowness of the water off Northumberland Point, that the Lead as well as the color of the water, will always warn a ship of the approach of danger.

Struys Bay is formed by Struys Point to the East and Northumberland Point to the West. The landing place is in a small bay or cove to the N. W. of Northumberland Point, sheltered by a projecting shelf of shingle from each extremity of the cove. The jetty, constructed from pieces of wreck, renders the landing easy; but at the outer horns of the shingle there is only water sufficient for a boat at quarter flood in fine weather. Three or four huts at the head of the jetty, point out its position from the Bay. Immediately in the neighbourhood, on higher ground, is a stone dwelling house, with a signal staff a few yards behind it, termed the telegraph staff on the chart.

3. Instructions for Anchoring in Struys Bay, Currents, Tides, &c.

The marks for anchoring are the large stone house near the beach W. $\frac{1}{2}$ S., and the sandy extreme of Northumberland Point S. W. by S., in 5 fathoms sand. Here the bottom is clear, while to the westward and nearer to the reef where the water is smoother the bottom is foul,—rocks interspersed with patches of sand. The latter is unsafe, the cable is liable to snap from fouling the rocks, an accident that befel H. M. Vessel "Dee," while, lying there in a light South-westerly wind accompanied by the usual swell.

Directions for Anchoring.—Vessels from the westward intending to anchor in this bay, should not bring the light house to bear more Westerly than W. by N. $\frac{1}{2}$ N., until Northumberland Point bears N. W. $\frac{1}{2}$ N. Then steer N. N. E. or N. E. by N. until the stone house before mentioned bears W. N. W. This will lead clear of the outer detached reefs off Northumberland Point. Proceed then to N. W. and bring the anchorage marks on.

The light will not be visible from this anchoring ground, owing to the swell of the intervening land.

Precautions respecting Struys Bay.—Shelter may be obtained in this bay during Westerly and North Westerly winds only. None is afforded with the wind between S. W. round to the Southward and East. With any of the latter winds it is unsafe if not impossible to ride in this bay, for the sea rises to such an extent as to break in 7 or 8 fathoms, a circumstance that was remarked on two occasions while H. M. Steamer "Dee" was standing off waiting for the weather to moderate to enable her to anchor. At the time of anchoring, although the wind had subsided for several hours, the water nearly broke in 7 fathoms where the anchor was let go; and at the place from whence she had put to sea three days before in 4 $\frac{1}{2}$ fathoms, the sea was breaking heavily. As a general rule, vessels seeking shelter in this bay in a N. W. gale, should put to sea immediately after it subsides: for the wind frequently changes in a few hours from a strong N. W. to a S. E. or South point; in which case it is very difficult to work out in consequence of the heavy sea that rises with these winds.

Currents.—During the examinations of the Coast (Sept. 1848) no current was observed in Struys Bay, nor about the coast $2\frac{1}{2}$ miles from the shore, as far to the westward of Agulhas as the letter E. on the chart: but it was confidently asserted by fishermen, and the residents at Struys Bay, that a very strong current frequently sets to the Westward round Northumberland Point.

Tides.—Circumstances did not allow of the Tides being observed with due accuracy. Two copper plugs were let into rocks S. W. of the Light House to mark the high and low water points nearly at Spring Tides. The comparisons with these plugs on October 15, 16, 18, 19, 28, 29, (1848), and an observation at the jetty in Struys Bay, on October 28, give the establishment, and rise and fall, nearly similar to what prevails in Table Bay and Simon's Bay.

Magnetic Variation.—This was determined by means of two Magnets, on the flat ground between the Light House and Beach. The result (29° 20' W.) has been employed for the compass bearings, given in these Instructions.

4.—Description of the Light Apparatus.

This Light is of the first or most brilliant class, and is the work of Mr. HENRY LE PAUTE. It is constructed upon what is technically called the Dioptric principle.

A hollow cylinder with a paraboloid top of about 19 feet in circumference, and 10 feet in height, is composed (omitting a door way) of 28 horizontal tiers of glass and reflectors, firmly fixed in a metallic frame work of six compartments; so that each tier is divided into six circular segments.

The centre tier is a large hoop-shaped plano-convex lens, 11 inches in depth. Next, 8 tiers of circular prisms above and 8 below the centre lens. Then 7 tiers of reflectors above and 4 tiers below. Three-fourths of the circumference of the cylinder is formed by this combination. The remaining quadrant which is towards the land, and its centre due North, serves for the door way into the cylinder; but the door is lined with two large concave metallic reflectors, each two feet in breadth and three feet in height.

The burner consisting of four concentric Argand Wicks, 4 inches in diameter, is placed in the centre of the cylinder in the focus of the large lens. It is supplied with oil by a force pump driven by clock-work; and there is a simple contrivance, which gives notice by the ringing of bell when the reservoir requires to be replenished.

The frame work of the Lenticular (the name given to the whole combination) is firmly attached to a cast-iron circular floor, supported by a stem of cast iron; the lower end of which is let into a block of granite resting upon the crown of the supporting dome, where it (the stone) is surrounded by masonry.

The theory of the Lenticular may be understood, as follows:—The burner being in the focus of the plano-convex lens, the rays of light that impinge upon the inner plane surface, emerge outside horizontal.

The bases of the prisms are perpendicular inside; their upper planes are horizontal, and their hypotenusal planes outside slant downwards and inwards. The depth of each base successively diminishes from 3 inches to $1\frac{1}{2}$ inch in depth, in the order from the centre lens upwards and downwards, which is the order of the increasing inclination of the impinging rays from the burner. The effect of the prismatic form, is to turn the rays, and to send them out horizontal, upon the same principle by which objects in a horizontal direction in front of a Camera Lucida are seen by looking down into it.

The tiers of reflectors commence at the height and depression where the still greater inclination of the impinging rays from the burner would cause a prism to decompose them in the horizontal direction into the prismatic or rainbow colours. The reflectors are concave towards the lens, their curvatures increasing as they recede from the centre lens. They reflect the rays that fall upon them to the prisms, whence they are sent out horizontal.

The two large reflectors behind on the inside of the door return the rays from their direction to the large lens, through which they escape horizontal.

Thus all the light from the burner, save the small quantity that escapes up the chimney glass, is bent into one brilliant horizontal sheet to overspread the horizon.

This splendid specimen of skill is protected by a Lantern 10 $\frac{1}{2}$ feet in diameter, or 33 feet in circumference, glazed with thick plate glass, and surmounted by a copper dome, from which a lightning conductor of wire rope descends to the ground.

The Light House was planned by Lieut. Colonel MICHELL, the late talented Surveyor General at the Cape, who made a journey to Paris for the express purpose of selecting the Lenticular Apparatus.

It may be proper to mention, that the Tower of the Light House is to be painted, and will show alternate horizontal bands of white and red, two of each.

Messrs. REES, CARR, and SKEAD of H. M. Ships *President*, *Nimrod*, and *Dee*, respectively, particularly Mr. SKEAD, provided a large portion of the Sailing Instructions. These, with the remainder by myself, I have arranged and compared carefully with the Chart recently constructed from measurement and rigorous trigonometric calculation. The other matter is by myself, and I hold myself responsible for the accuracy of the whole.

I may add, that one of the trigonometric stations in the measurement of the Arc of the Meridian is on the highest point of the hill above the Light House: by means of which, the Latitude and Longitude of the Light House are derived from the position of the Observatory. Thus the Light is in an exact Geographical Point.

THOMAS MACLEAR.

Flap Somerset Saddle (so universally approved) first
manufactured by **PEAKOME**, expressly for the late
Lord CHARLES SOMERSET, whom he had the honour of
serving for many years.

ESTABLISHED NEARLY HALF A CENTURY

Messrs. **PEAKOME**, grateful for the patronag-
their Saddlery has received in India and the Cape
of Good Hope, for so many years,—feel bound in
justice to themselves to make known, that large
quantities of Saddles are exported from England
as **PEAKOME'S SADDLES**, which are not of
their make, but spurious imitations. Gentlemen are
respectfully informed that **PEAKOME'S** name and
address (as well as the printed label) is stamped on the
Flaps of all their Saddles, without which none are
genuine, and to pirate which will subject the parties to
legal proceedings. The great superiority of **PEA-
KOME'S SADDLES** consists in their

Formation, Material, Work- manship, and Durability.

The principle upon which they are constructed is
PEAKOME'S sole invention, who after years of appli-
cation and great experience in the trade, reduced to
scientific rules, plans for their Formation, to combine
Uniformity of appearance in the Saddle,—ease and
comfort to Rider,—and security to the Horse's back from
injury.

Peakome's Ladies' Saddles,

famed both for comfort and beauty, are manufactured
entirely upon the same principle.

compelled to decline orders from abroad unless accom-
panied by an order for payment when shipped, to some

ROWLAND'S KALYDOR, An Eastern Botanical Discovery of surprising efficacy for rendering the SKIN SOFT, CLEAR, AND FAIR, and for best wing a Healthy Roseate Hue on the

Complexion.

As a CREATOR and CONSERVATOR of a transparently fair skin ROWLAND'S KALYDOR may be said to exert an almost magical power. BALMY, (ODORIFEROUS, CREAMY, and perfectly free from all mineral admixture, it is distinguished for its extremely bland, purifying, and soothing effects upon the skin; while by its action on the pores and minute secretory vessels, it cures all impurities from the surface, allays every tendency to inflammation, and thus effectually dissipates all REDNESS, TAN, PIMPLES, SPOTS, FRECKLES, DISCOLORATIONS and other unsightly Cutaneous Visitations. The radiant bloom it imparts to the FACE; the softness and delicacy which it induces on the HANDS, ARMS and NECK; its capability of soothing irritation, removing Cutaneous defects, and all unsightly appearances, render it indispensable to every Toilet.

TO GENTLEMEN, who suffer from tenderness and irritation of the face after shaving, ROWLAND'S KALYDOR will have an unrivalled effect in alleviating and allaying irritation and smarting pain, and rendering the skin soft and smooth.

It is invaluable as a renovating and refreshing Wash during the heat and dust of Summer, or Frost and Bleak Winds of Winter; and, in cases of Sun burn, stings of Insects, Chilblains, Chapped Skin, or incidental Inflammation, its virtues have long and extensively been acknowledged.

Its purifying and refreshing properties have obtained its exclusive selection by the COURT, and the ROYAL FAMILY of Great Britain, and those of the Continent of Europe, together with the "Elite" of the Aristocracy and "Haute Volée;" from the sultry climes of India, and the Drawing-rooms of Calcutta and Madras, to the frozen realms of the Czar and the SALONS of St. Petersburg and Moscow.

CAUTION.

Its high and universal reputation causes UNPRINCIPLED SHOPKEEPERS to offer spurious Compounds for sale under the title of "KALYDOR," composed of mineral astringents utterly ruinous to the Complexion, and by their repellent action endangering health.

It is therefore imperative on purchasers to see that the words,

"ROWLAND'S KALYDOR"

are on the Envelope (an Engraving of exquisite beauty from a steel plate by Messrs PERKINS, BACON & Co.) To protect the Public from Fraud, The Hon. Commissioners of Stamps have directed the Proprietors' Name and Address, thus—

A. ROWLAND & SON, 20, Hatton Garden

to be engraved on the Government Stamp which is affixed on each bottle. Price 4s. 6d. and 8s. 6d. per Bottle.

Sold by A. S. ROBERTSON, Heerengracht, Cape Town.

Percy Place, Landport, Portsmouth, April 4th 1844.

GENTLEMEN,

I think it but an act of justice to inform you of the benefit I have derived from the use of your admirable Macassar Oil. About six months ago I found my hair getting daily more weak and thin, and much discoloured; leaving that I should lose it entirely, and hearing of the efficacy of your Macassar Oil, I have for some time past constantly used it, and the result is, that my hair is now perfectly restored and much improved in appearance and colour, having become thick, dark and glossy; it also curls freely without the use of paper, which it never did before. To all my friends I have warmly recommended your Macassar Oil as an excellent restorative and preservative for the hair. As I have an objection to see my name in print, I beg you will not publish it, but you are at liberty to show this letter, or make any other use you please of it, and refer applicants to me, if necessary, in proof of the efficacy of your Macassar Oil.

Yours obedient servant.

*Office of the Central Board of Commissioners
of Public Roads, Cape Town, 27th Dec. 1848.*

THE Board of Commissioners of Public Roads have directed the following Report to be presented for general information.

By Order of the Board,
W. DE SMIDT, Secretary.

*Inspector of Roads' Office, Montagu Pass,
17th November, 1848.*

Sir,—I have the satisfaction of acquainting you, for the information of the Central Board of Commissioners of Public Roads, that the New Pass at the Great Brak River Height has been lately opened for the use of the Public.

The great advantage of this Pass over the old road up the face of the Height may be inferred from the fact, that the table land of Outeniqualand, which is 900 feet above the level of the Great Brak River, was ascended by the old road in less distance than one mile, whereas the same elevation is gained by the new road at an equal ascent of two miles, the length of the Pass.

The old road was so steep that it was a work of toil for an unloaded animal to ascend it. On the new line, the whole of which is scarped from the mountain side, the heaviest loaded wagons have gone from the top to the bottom without locking a wheel; and a single horse with a gig may trot either up or down the whole length.

From this Pass to the Long Kloof the whole of the New line of Road, including Montagu Pass, is also now open, and the greater number of the Bridges thereon completed. The whole of this line, excepting the Montagu Pass, can be travelled on by any vehicle without locking a wheel,—the greater portion of it being perfectly level, and the remainder but a very slight departure from it.

The importance of this line of road to the public of the central portion of the Colony, it must be manifest, is very great, as, independently of its being the main post road between Cape Town and Graham's Town, it is, at the same time, the direct road from the interior to Mossel Bay,—a bay which is now the best between Table and Algoa Bays, and which, by the construction of a breakwater, can be more improved than any harbour on the Southern Coast of the Colony.

The Long Kloof, a large wool-growing district, and the fertile districts of Kamnassie, Oliphant's River, Cango, &c., producing largely very superior wheat, and other sorts of grain, tobacco, wine, brandy, dried fruits, &c., have now communication by horse-wagons with Mossel Bay; and by cutting a road through the

Zwartberg range, the district of Beaufort would then also be connected with Mossel Bay.

A Horse Wagon can now easily reach Mossel Bay from Oliphant's River in two days. Previous to the opening of the Montagu Pass and the New line on either side of it, it was no uncommon occurrence for the Farmers of this river to prefer taking their produce to Graham's Town and Port Elizabeth, a distance of 14 days with an Ox Wagon, rather than encounter the difficulties in surmounting the Cradock mountain, and other places on the road to Mossel Bay.

I have the honor to be,

Sir,

Your most obedient servant,

H. F. WHITE, Inspector.

Board of Commissioners of Public
Roads, Cape Town.

BUTLER'S

Compound Concentrated Decoction or Fluid
Extract of Sarsaparilla.

SARSAPARILLA has of late years been extensively
used in Medical Practice. The medicinal prop-
erties of this plant reside entirely in the root, a decoction
of which, when properly made, is esteemed the most
eligible form for its exhibition, but the form of a deco-
ction is, with the generality of patients, subject to objec-
tion; it will not keep good for more than two or three
days; and the quantity required to be taken renders it
almost unportable, and a serious inconvenience when a
person is not constantly residing in the same place.

It is prescribed as an alterative in Scrofula, Scurvy,
Eruptions of the Skin, and all Cutaneous Diseases; also
it has been found extremely useful in Chronic Rheuma-
tism, in secondary symptoms, and after an improper use
of mercury.

This (Butler's) is the original of the now numerous
Preparations of the kind, and is extensively prescribed
by the most eminent Medical Practitioners in London,
Edinburg, and Dublin, being an efficient Preparation
and one to be depended upon, as containing all the virtues
of this excellent Medicine.

Prepared by Butler & Harding, 4, Cheapside, LON-
DON, to whom all Orders should be addressed, or to

James's Fever Powders.

[CIRCULAR.]

AS I find that there are several Persons who prepare
and sell articles, purporting to be the genuine JAMES'S
Powder and Pills, I beg to draw attention to the cir-
cumstance that I am the Grandson of the celebrated Dr.
JAMES, and I am now and have been, since the year 1817,
the Sole Proprietor and Preparer of the Genuine Medi-
cines.

I beg further to assert, most positively, that the Re-
cipe has never been out of the family, and also, that the
statement that it has been prepared for me, is totally
untrue.

I think it necessary to inform the Public that Messrs.
NEWBERRY, the late Agents of my Grandfather, Father,
and myself, are now vending Articles of their own com-
position, under the name of Dr. JAMES, and that I have
appointed in their stead Messrs. BUTLER & HARDING,
Chemists, 4, Cheapside, Corner of St. Paul's, London;
and CHARLES BUTLER, M.D., 54, Lower Sackville Street,
Dublin, Sole Wholesale Agents; of whom, and of their
Country Agents, the Public may obtain the Genuine
Medicines, which are authenticated by the signature of
R. G. G. JAMES, on the Label of every Packet, Bottle,
and Box.

I have the Testimony of the most eminent Medical
Men in favour of my Medicine, proving that it is far more
efficacious in its effects, more certain, and more to be
depended upon, than any of the spurious preparations to
which my name is unjustifiably attached.

sale Druggists.

Smith's Patent Adhesive Envelopes.

Manufactory, 42, Rathbone Place, London.

THESE Envelopes are made perfectly safe, in an instant
without the use of Wax or Wafer: the flap of the
Envelope being prepared with a strong Cement, renders
it more secure than those which are fastened in the
usual manner, the Cement only requiring to be damped,
and the Flap pressed down, after which, it becomes dry
and firm, in a few seconds.

THE PATENT ENVELOPES are also manufactured
in a variety of ornamental ways, with Embossed or
Engraved INITIALS, NAMES, CRESTS, ARMS,
FLOWERS, DEVICES, &c. in Black, Gold, Silver,
and Colors, and are suitable not only to Merchants,
&c., but for Ladies and private individuals.

In WARM COUNTRIES these Envelopes are in-
valuable, as the heat of the climate only renders the
Cement more tenacious, and the constant demand for
them from the East and West Indies, is a proof of their
great utility.

CAUTION.—See that every Envelope is stamped
"SMITH'S PATENT ADHESIVE," 42, RATH-
BONE PLACE, LONDON; all others are fraudulent
imitations.

Samples of the above may be seen at J. H. COLLARD'S,
Long Market-street, by whom orders will be taken, or
by J. T. POCKOCK & Co.,
Agents for Mr. J. SMITH.

KAAPSTAD DEN 28STEN DECEMBER 1848.

GOVERNEMENTS KENNISGEVING.

Koloniale Secretary, 19 Dec. 1848.

ZYNE Excellentie de Gouverneur heeft goedgevonden de publicatie te gelasten, tot algemeen narijt, en rigting van de Resident Magistrate over de Kolonie, van de volgende vraagpunten gedaan door den Resident Magistraat te Uitenhage, aangaande de discretionaire vermogens gevestigd in dat ambt, in het verlenen van Licentien voor den verkoop van Wynen enz., en het gevoelen van Harer Majesteits Procureur Generaal op de voorgestelde vragen.

Ter Ordonnantie van Z. E. den Gouverneur,

(Get.) JOHN MONTAGU,

Gouvernements Secretaris.

“Daar de tyd spoedig nadert voor het beslissen op de aanvragen voor licentien, en daarbij bevindt dat deze aanvragen in deze Afdeling vermeerderen, vertrouw ik dat gy my zult verschonen dat ik u op dit onderwerp lastig val.

“De moeyelykheden welke de vraag omringen, voornamelyk zoo ver als betreft de uitoefening van eenige, en welke discretionaire vermogens, van de zyde van den Magistraat, van wege de byzondere bewoording van de laatste deelen van de 11de en 15de sectien van de Ordonnantie No. 29, van 1846, en de voordelen van het publiek in het algemeen, ten aanzien van het stelsel van licentien, haalt my over u te verzoeken my te begunstigen met uw gevoelen over de volgende punten, boven en behalve die tot uwer kennisneming gebracht in myne officiële communicatie van 6 ult.

Vragen van den Resident Magistraat.

Gevoelen van den Procureur Generaal

1. Kan de Magistraat, naar regten, eenige discretie uitoefenen, ten aanzien van het verlenen van licentien voor den verkoop in het groot, of is de uitveer gehouden ieder aanzoek toe te staan dat gedaan wordt voor een licentie voor den verkoop in het groot, onder de 7de sectie van Ordonnantie No. 29, 1846.

Ik geloof dat de Magistraat geene discretie heeft.

2. Indien er geene objectien worden gemaakt onder de 11de sectie, en de aanvragers het certificaat produceren vereischt onder de 15de sectie, recommanderende het aanzoek voor een Tappery, Kantien, of Wynhuis, kan de Magistraat de zelfde dan wettelyk weigeren op hetgeen hem voorkomt als genoegzame gronden, zoo als het beperken van het aantal van gelicentieerde huizen, enz., of is hy verplicht alle aanvragen toestaan, hem gedaan onder deze sectie, indien geene objectien worden ingebracht, en de partijen voorzien zyn met de noodige certifikaten?

De Hoofd Justicier en de Secretaris des Gouvernements verschillen op dit punt, beweerende de eerste dat de Magistraat alleen kan weigeren op objectien door eenig bevoegd persoon ingebracht. Myn inzicht is dat de Magistraat mag handelen naar zyn eigen kennis.

3. Indien schriftelyk, maar geene mondelyke objectien worden gedaan van wege de gemeente tegen het verlenen van eenige licentien, kunnen dezelve worden aangenomen, indien de personen onder de 11de sectie voorzien zyn van het noodige certificaat?

De tegenstanders moeten, myns inziens, in persoon compareren, of geheel worden ter zyde gezet.

4. Of kan de Magistraat in de uitoefening van zyne discretie, het getal van Tapperyen, Kantien of Publieke huizen beperken?

Ik heb gezegd dat hy, myns inziens, zulks doen kan.

5. Indien het aanzoek is beperkt tot het houden van een Herberg, Hotel of Logieshuis, en de aanvrager het certificaat produceert, vereischt onder de 15de sectie, is dan de Magistraat wettig gehouden hetzelve te verlenen, of kan hy zyne discretie uitoefenen, en alleen een beperkt getal verlenen, niettegenstaande?

Ik zie geen reden om deze plaatsen te onderscheiden van Tapperyen. Het komt my voor dat dezelve kunnen beperkt worden.

By voorbeeld. De plaats kan zyn aan de Quagga Vlake, 48 mylen van hier, en 18 mylen van Sidbury, niet onder toezicht van de politie, en zoo als ik heb gezegd in myn rapport op het aanzoek van den Her Adcock, “er is geen twyfel dat buiten Herbergen en Kantien met elkander verward worden.” Kan in zulke gevallen de Magistraat weigeren, indien hy oordeelt dat er redenen zyn, zoo als ik vermeld heb, ofschoon de partijen hebben voldaan aan de vereischen van de wet?

Noor.—De smartelyke onzekerheid aangaande hunne pligten en vermogens welke zooveel Magistrate onder vinden, bewyst de noodzakelykheid van verder wetgeving om de punten op te klaren, welke hen zoo onduidelijk schynen.

(Get.) TENNANT.

(Get.) W. PORTER.
